Correct the Enrollment, A A.S.

The enrollment in many towns is by far too large, and the draft will be unmerciful unless corrections are made. The following classes should be stricken off:

Dead men, Men in the service, Non-residents, Those who have served two years, "All drafted in 1863 who paid \$300; Those under 20 years of age, Those over 45, Aliens.

Those having manifest disability.

Many are enrolled twice or more, and some are not enrolled at all. These ought to be corrected. Every town should have public meetings to examine its list of the names curolled, to detect the errors and frauds. But we do not know how these matters can be properly attended to when the public cannot see the lists. All cannot gy to Seranton to examine the roll, and if they did the baard could not admit all .-There is but one way: The board should make the list public, as was done in other digricts ! But as this will not be done, if each town will call a public i meeting and select a committee to ask for a written list forscheit town, perhaps it will be given. This should be done soon, very soon.

# Lincoln Organs on the Draft.

The Commercial Advertiser of Dec. 20. after referring to President Lincolu's "stale joke" of a draft " to make up for deficiencies occasioned by credits on the last call," says :

"It is perfectly amazing after the continned trust and confidence which the people have reposed in the President, and the generous and magnanimous treatment which they have extended to the many errors and short-comings of his administration, that they should still be treated like children or tools. We have already exposed at length in these columns the absurdities and bad faith shown in these multitudinous "calls" and "drafts" for men to fill up our armies, and we do not care to renew the subject. We cannot resist the temptation, however, to bring once more to the head of the War Department, the following despatch, which he telegraphed to General Dix on the 3d of September last, while the last draft for

500,000 men was pending : The naval and other credits required by the act of Congress will amount to about two hundred thousand, including New York, which has not yet been reported to the department ; so that the President's call of July 19 is practically reduced to three hundred thousand men. One hundred thousand new troops, promptly furnished, are all that General Graut asks for finishing blow to the rebel armies in the auth of the residue of the call would be adequate for garrisons in forts, and to guard all the lines of communication, and supply, and free the country from guerillas, give scourity to trade, project com-merce and travel, and establish peace, order and tranquility in every state.

EDWIN M. STATON,

#### CONGRESSIONAL PROCEEDINGS.

Dec. 19-House .- Mr. Davis (Rep. of Md.) offered the resolution reported by him on Thursday, which was then tabled, declaring that Congress has the constitutional right to a voice in deciding the foreign policy of the government, and that it is the duty of the President to respect that voice. Adopted -118 to 8. The 2d Brooklyn. branch of the resolution, declaring against the right of the President to explain away and repudiate the voice of Congress when so expressed, was adopted, 69 to 58.

These votes are a severe rebuke to the insplent conduct of Lincoln and Seward in writing to France that Congress had numerow friends to mourn his loss. no authority to announce the Monroe doctrine as a proper foreign policy.

Senate-Dec. 20.-Mr. Wilson intro-duced a bill to increase the number of cadets at the West Point Military Academy, and to raise the standard of admis sion to the same.

It provides that, hereafter, the President shall appoint, in addition to the number already authorized, two cadets from each state, and fifty from persons who have served not less than one year in the army. No person shall be admitted who is less than seventeen nor more than twenty years of age. The standard of admission is raised by an increase of studies, in which the applicant for admission must be proficient.

The bill was referred to the Military Committee.

Mr. Harlan (Rep. Iowa,) introduced a resolution instructing the Committee on the District of Columbia to inquire into the expediency of requiring all residents of Columbia to take and file with the pro-

vost marshal of said district, an oath of allegiance, and to prohibit all persons from doing business in said district who shall not take said oath.

### The resolution was passed.

Mr. Powell, (Dem. Ky.,) desired to call up his resolution, asking for information as to the cause of arrest of Lieutenant-Govern Jacobs, of Kentucky, and Colonel Woolford, an Elector. Mr. Powell addressed the Senate on the subject of his resolution. Gov. Jacobs had been spirited away, he knew not where, and Colonel Woolford was in jail, in Covington, Kentucky. He thought the Senate owed it to itself to call information as to what of fence there had been committed.

Mr. Wilson, (Rep. Mass..) moved to amend by inserting. "if not incompatible with the public interest." The amendment was adopted, and af-

terwards the resolution as amended, was passed.

House .- Mr. Holman, (Dem. Ind.) offered a resolution, which was adopted, instructing the Committee on the Public Lands to inquire into the expediency of the capture of Richmond, and to give a setting apart some of the public lands for finishing blow to the rebel armies in the the ucura, or southers who have been the may be permanently disabled during the present war, and whose circumstances require the generous aid of the country, granting to the several states the lands, the proceeds of the sales of which shall be expended in providing homes or such other relief as the state Legislature may deletermine

Mr. Cox, (Dem. Ohio,) asked leave to introduce the following, but Mr. Stevens
