FOR THE HOLIDAYS! THE FLORENCE Sewing Machine,

WITH REVERSIBLE FEED.

THE BEST MACHINE IN USE! MAKING FOUR DISTINCT STITCHES.

Buy one for your Wife. A Written Warranty Given if Required. READ ITS VIRTUES:

We claim for the Florence the following advantages over any and all other Sewing Machines: EFF it makes four different stitches—the lock, knot, double lock, and double knot, on one and the same ma-chine. Each stitch being alike on both sides of the fab-ric.

enine. Excustate being anke on both sides of the labric.

**Every machine has the reversible feed motion,
which enables the operator, by simply turning a thumbscrew, to have the work run either to the right or left,
to stay any part of the scam, or fasten the ends of scams
without turning the fabric.

EThe only machine having a self-adjusting shuttle
tension—the amount of tension always being in exact
proportion to the size of the bobbin.

EChanging the length of stutch, and from one kind
of stitch to another, can readily be done while the machine is in motion.

EThe needle is easily adjusted.

EThe needle is easily adjusted.

EThe needle is easily adjusted.

The needle is easily adjusted.

The is almost noiseless, and can be used where quiet is necessary.

To its motions are all positive; there are no springs to get out of order, and its simplicity enables the most inexperienced to operate it.

The tides not require finer thread on the under than for the upper side, and will sew across the heaviest seams, or from one to more thicknesses of cloth, without change of needle, tension, or breaking thread.

The Hemmer is easily adjusted and will turn any width of hem desired.

No other machine will do so great a range of work as the Florence.

The taking up of the slack thread is not performed by the irregular contraction of a wire coil or uncertain operation of wire levers. The precision and accuracy with which the Florence draws the thread into the cloth is unapproached in any Sewing Machine hitherto offered in the market.

We furnish each machine with "Barnum's Self-Sewer," which guides the work itself, and is of incalculable value, especially to inexperienced operators.

New Skirt for 1866. The Great Invention of the Age in HOOP SKIRTS.

J. W. BRADLEY'S New Patent DUPLEX (double)

ELLIPTIC SPRING SKIET.

THIS Invention consists of Duplex [or two] Elliptic Pure Refined Steel Springs, ingeniously braided tightly and firmly together, edge to edge, making the toughest, most flexible, clustic and durable spring ever used. They seldom break or bend, like the single spring and consequently preserve their perfect and beautiful shape more than twice as long as any single spring skirt that ever has or can be made.

The wonderful flexibility, great comfort and pleasure to any lady wearing the Duplex Elliptic Skirt will be experienced particularly in all crowded assemblies, Operas, carriages, railroad cars, church pews. arm chairs, for promenade and house dress, as the skirt can be folded when in use to occupy a small place as easily and conveniently as a slik or musilin dress.

A lady having enjoyed the pleasure, comfort and great convenience of wearing the duplex elliptic strel spring skirt for a single day will never afterwards willingly dispense with their use. For children, misses and young ladies thly are saperior to all others.

The Hoops are covered with 2 ply double twisted thread and will wear twiceas long as the single yarn covering which is used on all single steel hoop skirts. The three bottom rods on every skirt are also double steel, and twice or double covered to prevent the covering from wearing off the rods when dragging down stairs, stone steps, etc., etc., which they are constantly subject to when in use.

All are made of the new and elegant corded tapes, and are the best quality in every part, giving to the wearer the most graceful and perfect shape possible, and are unquestionably the lightest most desirable, comfortable and economical skirt ever made.

CONSUMERS OF TEA

THE GREAT AMERICAN TEA COMPANY, 35 & 37 Vesey Street.

New York, Are now putting up an excellent article of Black Tea with Green Tea flavor that will meet the wants of lovers of Tea. The trade mark of this tea is

THE LONG ARM CHOP. It is put up in neat pound papers, 60 pounds in a box. It is rapidly becoming a favorite Tea with the community. From present appearances it is destined not only to become a great favorite, but standard Tea, in consequence of its fineness and sweetness of flavor and great strength—which makes it

The Most Economical Tea in Use. The Most Economical Tea in Use.

We have long made it a study to furnish a Tea which would suit all varieties of tastes, but never until the production of our Lone Ann Cnor have we felt that we had attained that much desired and long sought for object. The Long Arm Chop is a Black Tea with Green Tea finvor, and can be relied upon for its uniform purity and healthy effects. This Tea is composed of the choicest leaves, and cured without coloring matter of any kind, and in precisely the same manner as if prepared for native consumption. It is consequently more wholesome and delicate in flavor than the artificially colored Teas. Natives of Tea countries never color teas artificially nor sort them into Gunpowders, Imperials, Hysons, Twankays, &c., for their own consumption: they do so only when preparing them for other markets. It will be perceived, therefore, that the Long Arm Chop combines the virtues of all the varieties of original and natural Teas.

It is the aim of The Great American Tea Company in introducing this Tea to the public to make it mufually advantageous to them and ourselves. advantageous to them and ourselves.

The Company warrant this tea to all tea dealers, and the dealers extend the guaranty to consumers, that if the tea is not perfectly satisfactory it can be returned and the money refunded.

THE NEW PATENT. Dr. B. Wood's Plastic Metallic Filling, an improved fusible metal for Filling Teeth, for which I have the right, privilege and license, granted by him to use for Dental purposes in my own practice as a Dentist. It is called Cadmium Alloy, and is designed to take the place of amalgams, tin, metallic oxides, &c. for filling. It does not contain mercury, and hence an absence of the difficulties that in such a variety of ways occurs, or are liable to occur with the agent,

Its Qualities and Advantages.

Its Qualities and Advantages.

This filling is designed for making perfect and durable plugs, as a substitute for gold where economy is an object; and for inferior material where the Teeth can be saved, and not for temporarily stopping those which are diseased and worthless.

Assuming then that it be skillfully used, the Plastic Metallic Filling possesses advantages above every other material but gold for filling. Teeth, while it can be employed in many cases where gold cannot. It can be introduced with facility and accurately secured. It molds closely to the walls of the cavity without recession or shrinkage, forming a perfect plug, solid throughout, thus excluding air and moisture.

NOT A FEW Of the worst disorders that afflict manking arise from the corruption that accumulates in the Blood. Of all the discoveries that have been made to purge it out, none eas equal in effect HELMBOLD'S COMPOUND EXTRACT OF BARSAPARILLA. It cleanses and renovates the Bleod, instills the vigor of health into the system, and purges out the humors which make disease. It stimulates the healthy functions of the body, and expels the disorders that grow and rankle in the Blood. Such a remedy, that could be relied on, has long been sought for, and new, for the first time, the public have one on which they can de pend. Our space here does not admit of certificates to show its effects, but the trial of a single bettle will show is the sick that It has virtues surpassing anything they have

ever taken." Two tablespoonsful of the Extract of Sarraparilla, added to a plut of water, is equal to the Lisbon Diet Driat, and one bottle is equal to a gallon of the Eyrup of Sarsaparlin,

or the decoction as usually made. The above Extracts are prepared on purely scientific principles-in Fucus-and embody the full strength of the ingredients entering into their commention. A ready and conclusive test will be a comparison of their preper-

ties with those set forth in the U. S. Dispensatory, HOW TO USE THE REMEDIES.
