

FOR THE DEMOCRAT.
The Veto.
I have just perused the veto message of President Johnson, with much satisfaction. I have not seen or read anything in the shape of a message since the days of Andrew Jackson that appears so much like him, as the documents now in question. I am glad we have a man in the Presidential Chair that is not afraid to stand up to the rack and look Congress in the face and if he sees a wrong to correct it.

Suppose this Freedman's Bureau bill as passed by Congress had been approved and become a law, what would have been the consequence? We should have had a war of officers, and they must have their clerks, all thro' our States, at enormous salaries, and when would our national debt be paid? If economy and retrenchment should be applied, we might some day get out of debt. But so long as our expenses are increasing our case looks dark.

PETER PINDAR.

Rapidity of a Storm.
A communication to the Missouri Republican, dated Osage county, Illinois, February 24th, says: The communication from the Cincinnati Gazette which was reprinted in the weekly Republican of February 2d, attracted my attention. As I happened to be in that extraordinary storm of rain, snow and hail, thunder and lightning, on the 19th of January, between the hours of four and five P. M., near the banks of the Osage river, in Osage county, Missouri, I was somewhat surprised at seeing the same storm extending itself as far as Rockville, Indiana, in the short space of four hours. Looking on the map, we find the distance not less than 60 to six degrees of longitude, which will give us about one hundred miles per hour over which the storm passed. Our best locomotives cannot cope yet with such a speed. I suppose likewise that the change in the thermometer must have been equally as great here from the effect of the cold wind produced on the ground half an hour after the storm had passed.

The Next Governor.
The shoddies are already confessing that they have no hopes whatever of electing a Governor except they run on the soldier "lay." The probability is, therefore, that we shall soon be served with another fest of "patriotism," "loyalty," "dear old flags," &c., peppered up, as of yore, with "treason," "copperheads," and other pungenicies. By nominating a civilian all the old stock of electioneering materials, remaining on hand from previous years, will be utterly wasted; and, as they haven't any principles for a platform except the nigger, (and he being in rather bad odor,) it becomes a dernier report to nominate a soldier—leastways a military title. It will be tried; but the white man's party will win with a Statesman, whether a soldier or not.

In a collection of war anecdotes, it is related that a certain soldier was singularly lucky in saving his life in one of the actions in which his regiment was engaged. The drums beating to arms before he had finished his dinner, he thrust a piece of bacon, too precious a morsel in such a precarious time to be wasted, into the breast pocket of his coat. After the battle was over he discovered a bullet in his bacon, and ever afterwards, when thankfully recounting the tale of his marvellous escape, he used to say that he was doubly fortunate, for that he "not only saved his bacon, but that his bacon had saved him."

—An eccentric clergyman, lately alluding in his pulpit to the subject of family government, remarked that it is often said, "There is no such thing now as family government." "But it's false," said he, "all false! There is just as much family government now as there ever was—just as much as in the days of our fathers and grand fathers. The only difference is, that then the old folks did the governing, now it is done by the young ones!"

How CIRCUMSTANCES ALTER CASES.
During the last session of the legislature, Senator Brigham of Pittsburg, a full blown abolitionist, reported a bill to abolish the office of Surveyor General, alleging that it was only an expense to the State, now the same Senator has introduced a bill doubling the salary of that officer. The reason for this loyal trick is, that the incumbent heretofore has been a Democrat, but the gentleman elected for the next three years is an abolitionist. This accounts for the milk in the Coconut. What love those loyal hypocrites profess for the taxpayers.

The End of the War.
Mr. Van Buren, in his address the other day, at Albany, said:
"There is a difference of opinion among heroes. Heroes like Grant, and Sherman and Meade, and Farragut, declare that the war is ended. I know that heroes like Sumner, and Stevens, and Douglass, and Downing, deny the fact, but I prefer to take the testimony of those who personally participated in it."

WHICH IS THE GOVERNMENT?—During the administration of Mr. Lincoln our adversaries argued that Mr. Lincoln was the government, and his proclamation the law. But now say the government is vested in the Ramp-Congress, and President Johnson has no more control over it than the Dey of Algiers.

—A cotemporary estimates that fifty million dollars a year will be saved to the taxpayers by the veto of the Negro Bureau bill.

BUSINESS CARDS.

DR. E. P. HINES,
HAS permanently located at Friendsville for the purpose of practicing medicine and surgery in all its branches. He may be found at the Jackson House, Friendsville, Pa., Jan. 10th, 1865.

New Skirt for 1866.
The Great Invention of the Age in
HOOP SKIRTS.
J. W. BRADLEY'S New Patent DUPLEX (double) ELLIPTIC SPRING SKIRT.
THIS invention consists of Duplex (or two) Elliptic Hoop Skirt Springs, ingeniously braided lightly and firmly together, edge to edge, making the toughest, most flexible, elastic and durable spring ever used. They seldom break, and are of great weight and consequently preserve their perfect and beautiful shape more than twice as long as any single spring skirt that ever was made.
The wonderful flexibility, great comfort and pleasure to any lady wearing the Duplex Elliptic Skirt will be experienced particularly in all crowded assemblies, Operas, carriages, railroad cars, church pews, arm chairs, for promenade and house dress, as the skirt can be folded when in use to occupy a small place as easily and conveniently as a silk or muslin dress.
A lady having enjoyed the pleasure, comfort and great advantage of wearing the duplex elliptic spring skirt for a single day will never afterwards willingly dispense with their use. For children, misses and young ladies they are equally adapted to all uses.
The Hoops are covered with 2 ply double twisted thread and will wear twice as long as the single yarn covering which is covering all single steel hoop skirts. The three bottom rods on every skirt are also double steel, and twice or double covered to prevent the covering from wearing out where the rods are attached. The rods, stone steps, etc., which they are constantly subject to, are made of the best quality of iron, and are all secured to a chain in use.
All are made in every part, giving to the wearer the most graceful and perfect shape possible, and are unquesting in their use, and of a desirable, comfortable and economical skirt ever made.

Dr. N. L. Brundage, SURGEON DENTIST,
HAS permanently located in Montrose. Office over Webb & Butterfield's. People of this vicinity, especially those toothless ones wanting beautiful plates of work, will do well to give him a call. All plates warranted to give satisfaction.
THE NEW PATENT.
Dr. B. Wood's Plastic Metallic Filling, an improved method of filling Teeth, for which I have the right, privilege and license, granted by him to use for dental purposes in my own practice as a Dentist. It is called Cadmium Alloy and is designed to take the place of amalgam, tin, metallic oxides, &c. for filling. FOUTZ'S HORSE AND CATTLE POWDERS.
This preparation, long and favorably known, will thoroughly invigorate broken-down and low-spirited horses, by strengthening and clearing the stomach and intestines.
It is a sure preventive of all diseases incident to the above animals, such as LUNG FEVER, GLANDERS, YELLOW WATER, HAVES, COUGHS, DISTEMPERS, FEVERS, FOUNDER, LOSS OF APPETITE AND VITAL ENERGY, &c. Its use improves the quality of the milk, increases the appetite, gives a glossy skin—and transforms the miserable skeleton into a fine-looking and spirited horse.
To keepers of Cows this preparation is invaluable. It increases the quantity and improves the quality of the milk. It has been proved by actual experiment to increase the quantity of milk and cream twenty per cent and make the butter firm and sweet. In fattening cattle, its use gives an appetite, increases their hide, and makes them thrive much faster.
In all diseases of Swine, such as Coughs, Ulcers in the Lungs, Liver, &c., this article acts as a specific. By putting from one-half a paper to a paper in a barrel of water, the above diseases will be eradicated or entirely prevented. If given in time, a certain preventive and cure for the Hog Cholera.
Price 25 Cents per Paper, or 5 Papers for \$1.
