#### Fatal Occurrence.

On Thursday last, the steam saw mill of Waltman & Gay, in Meshoppen, burst its boiler, killing the fireman, Mr. Woodruff. The engine was thrown about 20 rods; and a piece of the boiler, weighing about 1,500 lbs. was thrown some 60 rods.

#### Scranton Business College.

Some months since we advertised a proposed College as above, and wondered severingly the means within our reach. hat we had no notice of its being opened. We now learn that the enterprise failed Teachers' Institute. on account of the senior of the firm abandoning it; and the junior, unable to go on with it alone, has become connected with a College at New Haven, Conn.

#### Postmasters Resigned.

In Connecticut, the Postmaster at Hart- tunity to make application. ford, who supports the Democratic ticket, offered his resignation on that account, but the President did not accept; the tend. Particulars hereafter. Postmaster at Norwich, who supports the Republican ticket, offered his resignation for that reason, and the President accept ed it; the Postmaster at Forestville, who supports the Republican ticket, did not offer his resignation, but the President, when requested, removed him.

In this State there are several Postmasters and others who support Geary, and are afraid to try the resignation experiment; so they await their removal, which is only a question of time.

#### Advertisement Withdrawn.

The Reno Oil and Land Company was advertised in this paper last week, but is thrown out this week. We had been injaced to suppose it to be "all right," and had consented to publish for it, although heretofore rejecting all others. The Treasarer of the Company has failed, and the stock may be worthless or good in future; we not pretend to predict in relation to New York Wholesale Prices, that point, but only for the present recall all we allowed the Co. to state in our colamna, leaving them to satisfy the people in future in reference to their reliability.

# A NOTHER GREAT CURE

IN THE CITY OF NEW YORK,

Of a highly respectable citizen, well known to the Mer-cantile community, by DR. J. H. SCHENCK.

THE GREAT LUNG DOCTOR OF PHILADELPHIA. OFFICE N. Y. AND GALENA LEAD CO. No. 25 Nassau St. New York, June 1, 1865.

Orrice N. Y. AND GALENA LEAD CO.

NO. 28 Nassau St. New York, June 1, 1835.

Dr. J. H. Schence—Dear Sir:—For over fifteen years I have been troubled with a severe cough, and nanally two or three times a year with more or less hemorrhage, which together, for the last few years, has kept me thin in desh and too weak to do business of any kind without suffering. In August last I hada very severe hemorrhage, and according to the judgment of good New York physician, I was classed as beyond the reach of medicine, and was advised to be prepared, so far as property matters were concerned, to leave this world at short notice. The physician (and my good friends) said that the firstcold I took must prove fatal. Early in January I took a severe cold, and fortungstely was occupying rooms at No. 3% Bond street, directly over your office. I think about tha 16th of January I procured a bottle of your pulmonic Syrup and commenced taking it freely. My feet and limbs were very much swollen, and all the symptoms of a speedy death seemed to accompany my cold. I sent for my former physician and stated to him that I was taking your medicines, and after showing them to him, and having tasted of them. &c., he replied: "You can take them if you like, they will do you no harm." He said: "You know what I told you last summer, and I say the same now, if you have any ussiness to close up, do not put it off." He said to other friends that he could see no hope for me, and my friends and relations concluded my time had come. At this time I was taking freely of your medicine, but had not yet seen you. The doctor called a fewtimes, and found me (much to hissarprise, he said,) improving, and he could not understand why. My faith was locreasing in your medicines, and I had a wish to have you examine my case, and see what you had to say. When you first came to my room and made the examination, you gave me but little encouragement, but on the contrary, expressed sad doubts of my ever being helped out of my then seeming difficulties. The second time

Tours, Truly,

T. S. SHELDON.

Dr. Schenck—Dear Sir:—About two years ago I was taken with a very troublesome cough and a pain in my breast; seven breight months passed away without my doing anything for myself. Then I applied to a physician, who attended me for about three months without rendering me any service. I also obtained the advice and treatment of a physician in one of our hospitals, and also had the advice and treatment of two other physicians but all to no pulpose. During this long space of time I was nearly dead; several times my iriends came to see me and witness my exit into the splift world. I was confined to my bed two months at one time. My breathing was exceedingly short. I gave up several times all hope of getting better; and as regarded getting well, that was entirely out of the question. And to think this day I am well and hearty! I was advised by some of my friends to try Dr. Schenck's Medicines. I accordingly bought bottle after bottle, until I reached the ninth; then I found a decided change in my cough for the better. I suffered severely from palpitation of the heart, and two weeks after I commenced taking your medicine this difficulty ceased.

When I first went to Dr. Schenck's office it was with difficulty that I could get up into his reception room, I was so weak and so swelled; my skin was as saliow as though I bad the jaundice; I felt dull, heavy and sleepless. Dr. Schenck after examining me, said both my lings were affected, and rave me but little hope; but his medicines in about two weeks, took right hold of me; it seemed to go right through my whole system. The Pulmonic Syrup. Sea Weed Tonic and Mandrake Pilla, all took right hold in the right piace. The Pills brought away great quantities of bile, and slime; the Syrup loosened the natter I my lungs, which cime of very frae; the Sea Weed Tonic gnve me an appetite, and ove
