Circulate Democratic Newspapers.

Circulate Democratic Newspapers.

One of the most vitally essential steps to secure democratic success in the coming campaign is the circulation of Democratic newspapers among the people and with a view to acromplish this much desired result, we can upon the leading Democrate in the county to see and every Democratic newspaper. If any one appears to be unwilling to subscribe, convince idmit that it is a distribution of the county to see any local posteriby to the sample of the owes to himself, to his family and the party to sustain its press. If he is mable to pay for it for a year arge him to take it for six months. We have no doubt but that there are hundreds of voters in this county who do not receive any local paper, and some of them he paper at all. If each one of them would get a good bemocratic paper in his house it would have a great influence. It is imports to therefore, that every Democratic family should have a good Democratic newspaper has house. The seeds of correct principles thus sown siently will be sure in the end to spring up and produce a good harrest. We submit these facts to, our Democratic friends. Have d-mocratic papers on vour tables, and when your republican neighbors come to visit you have will pick them up and read them, and the truth will in this way be presented to many and produce conviction, whereas, otherwise they would through prejudice, always stand in their own light and never get their eyes open. A good democrat should feel like supporting a country or zan, and thus help to spread the fruth. Many persons do not think so far. Besides if papers are well apported, their publishers will be encouraged to make them more interesting and efficient.
