Circulate Democratic Newspapers. One of the most vital essentials to secure democratic success in the coming campaign is the circulation of Democratic newspapers among the people and with a view to accomplish this much desired result, we call upon the leading Democrats in the county to see that every Democratic household is supplied with a Democratic newspaper. If any one appears to be unwilling to subscribe, convince him that it is a duty he owes to himself, to his family and to his party to see that he is supplied with one for his own use. If he is unable to pay for it for a year, urge him to take it for six months. We have no doubt but that there are hundreds of voters in this county who do not receive any local paper, and some of them no paper at all. If each one of them would get a good Democratic paper for his house it would have a great influence. It is important, therefore, that every Democratic household should have a good Democratic newspaper in its possession. The scope of correct principles thus sewn slowly will be sure in the end to spring up and produce a good harvest. We submit these facts to our Democratic friends, and urge them to circulate Democratic papers on their tables, and when your republican neighbors come to visit you they will pick them up and read them, and the truth will in this way be presented to many and produce conviction, whereas, otherwise they would through prejudice, always stand in their own light and never get their eyes opened. A good Democrat should feel like supporting a county organ, and thus help to spread the truth. Many persons do not think so far. Besides if papers are well circulated they will be encouraged to make them more interesting and efficient.
