Mr. Denison's Health.

The friends of Hon. Charles Denison will be pleased to learn that his health is ful. much improved. Two weeks ago he left home for an excursion to the sea-shore; Dr. J. S. Smith, and advices from him on the 10th state that himself and physician think he will be fully restored to his usual health within a couple of weeks. This news is indeed gratifying; and it may be proper to mention that his general health has been much improved during the last two or three years.

New-Milford School.

EDITOR DEMOCRAT.—Dear Sir: We find in your paper an advertisement announcing the opening of a school in New Milford village, which we sincerely hope may catch the eye of every young person in the county who is desirous of obtaining an education, and more especially of those who are now making or intend in inture to make their business that of teaching. We have hitherto-both as teachers and employers-been satisfied with by far too low a standard of capacity and attainment in the teachers of our public schools, and we are glad to learn that our able and efficient Sup't, Mr. W. W. Watson, is about to make a more earnest effort to raise the standard of excellence in that department of our educational system,first by uniting with Prof. Hunter and Monday, August 13th, 1866.

Extracting Teeth without Pain.

Dr. C. S. Weeks, Dentist, of New York, is now in Montrose, extracting teeth without pain, by the use of Nitrous Oxide or "Laughing Gas." He will remain until the 25th. For further particulars see advertisement in another column.

Our readers will notice by the circular inclosed that Doctor Darrin, whose fame is wide-spread, is now stopping at Searle's Hotel, where his rooms are constantly thronged with the afflicted eager to test his curative power. He has certainly performed some wonderful cures as is shown by his circulars—the certificates being from people well known to many of our citizens.

If the pain affects the joints, a single dose produces remarkable benefit. And the same rule applies to costiveness, diarrhea and dysentery; though with the last named they may be required night and morning for some taxs before decided relief is obtained. In affections of the langs, throat, head and pleurisy, the relief is certain; the exerctory organs throw off with case the phlegm, and the breathing becomes freer. Notice. The beautiful Piano Fortes of Grove-EXT-Notice,—The beautiful Piano Fortes of GROVE-STEEN & Co. are de-med by all good judges to be the Ultima Thule of instruments of the kind. We cannot suggest what is wanting to make a musi-cal instrument more perfect, although we are slow to admit that the limit of improvement can ever be at-

tained.

Before they had brought their Pianos to their present excellence, they had submitted them to competition with instruments of the best makers of this country and Europe, and received the reward of merit, over all others, at the celebrated World's Fair. It is but Jusall others, at the celebrated World's Fair. It is but justice to say that the judgment thus pronounced has not been overruled by the musical world.

Still, by the improvements lately applied by them to their Planos, it is admitted that a more perfect instrument has been made. They have accordingly achieved the paradox of making excellence more excellent.—Surely, after this, they are entitled to the motto, "Excelsior."

The Harrisburg Telegraph.

The Harrisburg Telegraph assailed the Soldiers' Union Convention in the grossest terms. It is the most audaciously untruthful newspaper published in Pennsylvania, and the meanest. Its character is
so well known and its standing so very
low, that every decent man in the Republican party is ashamed of it. Colenel M.
Clure, of the Chambersburg Repository,
(a leading Republican paper,) has been
calling loudly for the establishment of a
decent party paper at the State Capital.

He thus graphically describes the Folds warning to all those who patronize City est terms. It is the most audaciously undecent party paper at the State Capital. He thus graphically describes the Telegraph:

"We have had no marked cases of hydrophobia in the capital, but we have one painful case of mental derangement doubtess caused by the heated term. I refer to the Harrisburg Telegraph. It don't seem exactly mad, for it has flashes of lucid intervals. I would call it softening of he brain, but the conclusion is forbidden by the palpable absence of a materal commodity essential to that disease. It is forgetful, fretful, frothy, fabricating, flatulent and fitful in its actions and sayings, and darts off, like a shooting star from its sphere, until it gets entirely beyond the realms of truth.'

Such being the real character of the Telegraph, it is not strange that it should misrepresent the late Convention of the HE has them be the first are and proper use pro-Union soldiers of Pennsylvania, and de- duces nounce the multitude of brave veterans there assembled as "bounty jumpers and deserters."

The excitement caused by its issue of Wednesday evening was intense, and nothing but the mauly and honorable character of the soldiers prevented them from giving the Hessian a taste of the treatment which many Democratic newspapers received during the war. Democrats always discourage mobs; but for that the Telegraph office would have been "gut-

A better plan was adopted. Nine crippled soldiers, all of them from a strong Republican county, and all of them strong Republicans heretofore, went to the office of the Telegraph, and seeking out Berguer, the proprietor, demanded that. he should take back the offensive epithets he had applied to the delegates to the Convention.

The cowardly creature attempted to shield himself by declaring that he had been absent and knew nothing of what had appeared until he saw the paper, and promised to retract all he said derogatory of the character of the Convention or ts members. Of course he lied when he made the promise. Feeling safe after the soldiers were gone, he continued his abuse of them in yesterday's issue.

It was proper that he should not be moested. We would not have Democratic soldiers disgrace themselves by engaging in a riot. They have another way in which they can amply revenge themselves upon their cowardly traducers.

When Bergner hears from the soldiers in October, he will be worse scared than he was in the presence of the nine crippled heroes on last Wednesday evening. -Luncaster Intelligencer. It is proper to add here that the Mont-

rose Republican copies much of its false news and low slang from the Telegraph; hence it is that it also "gets entirely be-yond the realms of truth."

- A majority of Lincoln's original Cabinet support the President and indorse the Philadelphia National Union Convention. They are:

Secretary Seward, Secretary Welles, Postmaster General Blair. Attorney-General Bates.

-One of the "Bureau" officials, while traveling last week in the cars in Alabama, noticed a lady with a negro girl in attendance, and he remarked: "Madam, I see you have one of my children." "Yes, sir," replied the lady, "I perceive the resemblance!" A slight tittering was observed in that part of the car, and the "Bureau" he left.

What the Soldiers Say.

The following reolutions, part of those adopted by the Soldiers' State Convetion are well worth republishing:

are well worth republishing:

Resolved, That we repudlate the action of the Radical Congress, which is an insult to every officer, soldier, and seaman who served in the Federal army during the rebellion. Their policy asserts that our victories accomplished what the enemy could not, divided the Union, and the fruits of our toil and blood-bought victories trined to ashes in their finads.

Resolved. That we cordially endorse the restoration policy of President Johnson, as announced in his annual, special and veto messages, and as further made known to the country in his treatment of the States lately in rebellion. We believe it to be just and humane, and better adapted than any other known policy to restore those States to their constitutional relations to the Union, and bring renewed peace, happiness and prosperity to the country. It is in keeping with the generous treatment which a magnanimous victor awards to a brave foe.

Resolved, That the action of Congress in refusing seats to the Senators and members from the South, who bear true allegiance to the Constitution and laws, whill, that body is engaged in changing the fundamental law of the country in an important particular, is revolutionary in its action; while their conduct in taxing the South without her consent strikes at the vital principle of constitutional liberty—that there can be no taxation without representation.

Resolved, That we are opposed to negro suffage, and

ont her consensatives in the vita plantage of the tutional liberty—that there can be no taxation without representation.

Resolved, That we are opposed to negro suffrage, and all legislation that has for its object the raising of the negro to social and political equality with the white man, or to make him the pet of the nation, meets our unqualified disapproval. He and his friends should be satisfied that the war has given his race the boom of freedom and should not aim to control the destinies of the country.

Resolved, That we return thanks to God for giving victory to the Federal armies over armed insurgents, and we congratulate the country upon a return of peace. It is as much our duty now to use our best embavore to heal up the wounds of the rebellion, as it was to take up arms in defense of the Union.

Resolved, That we deny that John W. Geary is the soldiers' candidate for Governor of Pennsylvania. He is the choice of the Radicals, who are seeking to destroy the Union we periled our lives to preserve. The men who placed him in nomination and who are now his most active supporters, repudiate the object of the war by declaring the South out of the Union, and by accepting their nomination, he assumes their principles, which violate everything he contended for in the field.

-The Democratic majority in Kentucky on Duvall, for Clerk of the Court of Appeals, will reach nearly 50,000.
