## W. W. WATSON, Co. Sup't.

LUZEINE COUNTY .- Luzerne county contains an area of 1400 square miles, more territory than is embraced within the limits of any other county in the State. and more than the entire State of Rhode dephia and Allegheny, (the former havmg been swallowed up by incorporation into the city of Pittsburg) it would stand wond. In the late election Philadelphia olled 103,022 votes, Allegheny, 33,406, Lancaster 23,184, and Luzerne 21,120. his Legislative, a Senutorial and a Judicial district, and by the next census will probably have sufficient population to make it also a Congressional District. It is represented in the State Senate by one member, and in the Assembly by three.

## A Canard.

The immense Democratic vote polled in Wilkes Birre, Scranton and other portions of Luzerne county, when reported here at first, fairly knocked the wind out of our Radical neighbors, consequently they set to work to frame excuses, and MOOD the report was started that the Prothonotary of that county had issued false naturalization papers; he had been caught at it, and to cap the climax to these lies " was actually stated that this official cut his throat in consequence of the exposure. The Radical old ladies in pants around here believed it all, and threw up their Pious (?) hands in holy horror at such wickedness. But the whole story proved but a canard. There was no false natufalization papers; no cutting of throats, but what was much better and more excruciatingly painful to the Radicals, Luzerne had rolled up 3,654 majority for Cymer and the Constitution. In view of such a result we may say: Well done the noble Democracy of Luzerne. Would that other counties throughout the State had done as well. If they had, Hiester Clymer to day would have been elected

TO Notice.—The beautiful Plane Fortes of GROVESTERN & Co. are deemed by all good judges to be the Ullima Thule of instruments of the kind.

We cannot suggest what is wanting to make a musical instrument more perfect, although we are slow to admit that the limit of improvement can ever be attained.

admitting the limit of improvement can ever be at sinced.

Before they had brought their Pinnes to their present excellence, they had submitted them to competition with instruments of the best makers of this country and Europe, and received the reward of merit, over all others, at the celebrated World's Fair. It is but justice to say that the judgment thus pronounced has not been overruled by the musical world.

Still, by the improvements lately applied by them to their Pinnes, it is admitted that a more perfect instrument has been made. They have accordingly achieved the paradox of making excellence more excellent.—Surely, after this, they are entitled to the motto, "Excelsior."

## PATENTED MAY 29, 1866.

THIS is an article for washing without rubbing, except in very dirty places, which will require a very slight rub, and unlike other preparations offered for a like purpose, will not rot the clothes, but will leave them much whiter than ordinary methods, without the usual went and tear.

usual wear and tear.
It removes greases spots as if by magic, and softens
the dirt by soaking, so that rinsing will in ordinary casee entirely remove it.
This powder is prepared in accordance with chemical science, and upon a process peculiar to itself, which is secured by Letters Patent. It has been in use for more than a year, and has proved itself an universal favorite wherever it has been used. Among the advantages claimed are the following, viz:
It saves all the expense of soap usually used on cotton and linen goods.
It saves most of the labor of rubbing, and wear and

Also, for cleaning windows it is unsurpassed. With one quarter the time and labor usually required it im-parts a beautiful closs and lustre, much superior to any other mode. No water required except to moist-

And can be r adily appreciated by a single trial. The cost of washing for a family of five or six persons will not exceed three cents.

The manufacturers of this powder are aware that many useless compounds have been introduced to the public which have rotted the cloth, or failed in removing the dirt, but knowing the intrinsic excellence of this article, they confidently proclaim it as being adapted to meet a demand which has long existed, and which has heretofore remained unsupplied. CAMPAIGNS OF THE

### ARMY OF THE POTOMAC. BY WILLIAM SWINTON.

The Standard History of the Grand Army.

The greatest Work on the War. Universally endorsed by army officers and the press. The author says:

"I design in this volume to record what the srmy did and suffered in ten campaigns and two score battles. "I shall have to celebrate the unswerving loyalty of this army, that of times when the bond of millimry cohesion failed, held it, unshaken of fortune, to a duty self-imposed."

hesion failed, held it, unshaken of fortune, to a duty self-imposed.

"I shall have to follow it through a checkered experience in a tale commingled of great misfortunes, great follies and great glories: but from first to last it will appear that, amid many buffets of fortune, through "winter and rough weather," the Army of the Potomac never gave up, but made a good fight, and finally reached the goal.

The "Army and Navy Journal" says:

"This is the only American critical work on the late war, and it is thoroughly critical, and entirely divested of all political has or tone."

This is the only History of the "Grand Army" and

of all political hue or tone."

This is the only History of the "Grand Army," and no one who has borne a part in its conflicts, or is interested in its grand achievements, should be without it. This work sells itself. The people are tirred of political and partisan histories, and want something from outlicial sources. We have agents clearing over \$200 per month.
