

**GROVER & BAKER'S**  
SEWING MACHINES

WERE AWARDED THE  
HIGHEST PREMIUMS

At the State Fairs of  
New York, Illinois, Virginia,  
New Jersey, Michigan, N. Carolina,  
Vermont, Wisconsin, Tennessee,  
Pennsylvania, Iowa, Alabama,  
Ohio, Kentucky, Oregon,  
Louisiana, Missouri, California.

At the Fairs of the  
American Institute, Franklin Institute, Maryland In-  
stitute, Massachusetts Institute, Penn. Mechanics'  
Institute, St. Louis  
Agricultural and Mechanics'  
Association.

And at numerous Institute and County Fairs, including  
the Fairs at which they were exhibited the past  
three years.

Prizes have also been awarded these machines at  
the exhibitions of

London, Paris, Dublin, Litz, Besancon,  
Bayonne, St. Dizier, Chalons,

and they have been furnished by special command  
to the

Empress of France,  
Empress of Austria,  
Empress of Russia,  
Empress of Brazil,  
Queen of Spain, and  
Queen of Bavaria.

The Grover & Baker Elastic Sewing Machines  
are superior to all others for the following reasons:

1. They sew direct from the spools, and require no re-  
winding of thread.
2. They are more easily understood and used, and  
less liable to become deranged than other machines.
3. They are capable of executing perfectly, without  
change of adjustment, a much greater variety of work  
than other machines.
4. The stitch made by these machines is much more  
firm, elastic and durable, especially upon articles which  
require to be washed and ironed, than any other stitch.
5. This stitch, owing to the manner in which the  
needle threads interlock, is much the most plump and  
beautiful in use, and retains this plumpness and beauty  
even upon articles frequently washed and ironed until  
they are worn out.
6. The structure of the seam is such that, though it  
be cut or broken at intervals of only a few stitches, it  
will neither open, run, or ravel, but remains firm and  
durable.
7. Unlike other machines, these fasten both ends of  
the seam by their own operation.
8. With these machines, which silk is used upon the  
right or face side of the seam, cotton may be used upon  
the other side without lessening the strength or dura-  
bility of the seam. This can be done on no other sewing  
machine, and is a great saving upon all articles stitched or  
made up with silk.
9. These machines, in addition to their superior me-  
chanical construction, are furnished with a most con-  
venient, easily learned and precise, and the most  
beautiful and permanent embroidery and ornamental  
work.

**ABEL TURRELL.**

This preparation, long and favorably known, will thor-  
oughly purify the broken-down and low-spirited horses,  
by strengthening and increasing the quantity  
of stomach and intestines.  
It is a sure pre-  
ventive of all dis-  
eases incident to  
the animal, such as  
LENG FEVER, GLANDERS,  
YELLOW WATER,  
COUGHS, DISTEMPERS,  
FEVERS, FOUNDER,  
LOSS OF APPETITE,  
TITIS AND VITAL  
ENERGY, &c. Its  
use improves the  
wind, increases  
the appetite, gives  
a new color and  
glossy skin—and  
transforms the  
miserable skeleton into a fine-looking and spirited  
horse.

To keepers of Cows this preparation is invaluable.  
It increases the quantity and improves the quality  
of the milk. It has  
been proven by ac-  
tual experiment to  
increase the quanti-  
ty of milk and  
cream twenty per  
cent, and make the  
butter firm and  
sweet. In fattening  
cattle, it gives them  
an appetite, loosens  
their hide, and  
makes them thrive  
much faster.

In all diseases of Swine, such as Coughs, Clogs in  
the Lungs, Liver, &c., this article  
acts as a specific.  
By putting from  
one-half a paper  
of powder into a  
barrel of swill the  
above diseases  
will be cured, and  
prevented. If given in  
advance and cure for the  
Gout Cholera.

Price 25 Cents per Paper, or 5 Papers for \$1.
