Agricultural and Mechanics'
Association. Association,

And at numerous Institute and County Fairs, including all the Fairs at which they were exhibited the past three years.

Frat prizes have also been awarded those machines at the exhibitions of

London, Paris, Dublin, Litz, Besancon, Bayonne, St. Dizier, Chalons,

And they have been furnished by special command to the

Empress of France, Empress of Austria, Empress of Russia, Empress of Brazil, Queen of Spain, and Queen of Bavaria.

The Grover & Baker Elastic Stitch Sewing Machines are superior to all others for the following reasons: They sew direct from the spools, and require no rewinding of thread.

2. They are more easily understood and used, and less liable to derangement than any other machines. They are capable of executing perfectly, withou change of adjustment, a much greater variety of work than other machines.

4. The stitch made by these machines is much more firm, elastic and durable, especially upon articles which require to be washed and ironed, than any other stitch. 5. This stitch, owing to the mann er in which the under thread is inwrought, is much the most plump and beautiful in use, and retains this plumpness and beauty even upon articles frequently washed and ironed until they are worn out.

6. The structure of the seam is such that, though it be cut or broken at intervals of only a few stitches, it will neither open, run, or ravel, but remains firm and durable

7. Unlike other machines, these fasten both ends of the scam by their own operation. S: With these machines, while silk is used upon the right or face side of the seam, cotton may be used upon the other side without lessening the strength or durability of the seam. This can be done on no other machine, and is a great saving upon all articles stitched or made up with silk.

These machines, in addition to their superior mer-its as instruments for sewing, by a change of adjust-ment, easily learned and practiced, execute the most beautiful and permanent embroidery and ornamental work.

The celebrated anthor in this admirable essay clearly
demonstrates, from a thirty years' successful practice,
that the alarming consequences of self-abuse may be
radically curud without the dangerous use of internamedicine or the upplication of the knife-mointing on
a mode of cure at once simple, certain and Hectual, by
means of which every sufferer, no matter what his con
dition may be, may cure himself cheaply, privately and
