Montrose Gold Company.

When a Corporation like the "Mont rose Gold Mining Company of Colorado, on which we publish a report by its Superintendent in our issue of to-day, is free from indebtedness and apparently in a position to return dividends at an early day, we should presume that the little amount required would be eagerly taken up by sub-cribers. The company's condition is presumed to be good, as its stock has never been manipulated through Stock Boards .- Mining Index.

From the Report, referred to in above, we learn that the Superintendent, Mr. Mahany, is confident of final success, when further working capital is raised, as heretofore proposed.

To further the raising of additional working capital to prosecute the work to a paying condition, the company have

"Resolved, That for the purpose of raising twenty-six thousand dollars (\$26,-000), which we believe will be a sufficient sum to run tunnels, sink shafts and open up rich ores, and put our company in paying condition, we offer thirteen thousand shares of Treasury stock at a sum not less than two dollars per share."

Of this amount, over five thousand shares are already subscribed.

the country are frauds designed to enrich the managers and swindle the people.

On New Year's eve, about ten o'clock, fire was discovered in the house formerly owned by George Keeler. It was extinguished without serious loss to the building; although the contents were bad-ly injured by the fire and water. Mr. C. I. Whipple, is the present occupant, and the family had been absent since about five o'clock, and left little or no fire in the wood stove. The fire evidently originahim a donation at Lynn, on Thursday, ted in the basement, which was but little used; and for these reasons, it is thought the fire was the work of an incendiary. The property was insured.

CONSUMPTION CURABLE BY DR. SCHENCK'S MEDICINES.

TO CURE CONSUMPTION, the system must be propared so that the lungs will heat. To accomplish this, the liver and stomach must first be cleaned and an apposite created for good wholenome food, which, by these medicines will be digested property, and good textity blood made; thus building up the constitution. BCHENCK'S MAN-DRAKE PILLS cleans the stomach of all billions or nucous accumulations; and, by using the Ses Weed Tonic in connection; the appetite is restored.

SCHENCE'S PULMONIC SYRUP is nutricious as well as medicinal, and, by using the three remedies, all impurities are expelled from the system, and good, wholesome blood made, which will repai all disease. If patients will take these medicines according to directions, Consumption very frequently in its last stage yields roadily to their action. Take the pills frequently, to cleause the liver and stomach. It does not follow that because the bowels are not cautive they are not required, for sometimes in distribute they are necessary. The stomach must be kept healthy, and an expetite created to allow the Pulmonia Syrup to act on the respiratory organs properly and allay any irritation. Then all that is required to perform a permanent cure is, to provest taking cold. Exercise about the rooms as much as possible, cat all the richest food—fat mest, game, and, in fat, caything the appetite craves; but he perficular and maticipate well. [time w.ex. me. 1 yr.

SNOW POWDER, PATENTED MAY 29, 1860.

PATENTED MAY 29, 1860.

Fights is an article for washing without rubbing, exit cept in very dirty places, which will require a very slight rub, and unlike other preparations offered for a like purpose, will not rot the clothes, but will leave them much whiter than ordinary methods, without the usual wear and tear.

It removes grease spots as if by magio, and softens the dirt by soaking, so that rinsing will in ordinary cases entirely remove it.

This powder is prepared in accordance with chomical science, and upon a process peculiar to itself, which is secured by Letters Patent. It has been in use for more than a year, and has proved itself an universal favorite wherever it has been used. Among the advantages claimed are the following, viz:—

It saves all the expense of soap usually used on cotton and linen goods.

It saves most of the labor of rubbing, and wear and tear.

Also for cleaning windows it is manufaced.

tear.
Also, for cleaning windows it is unsurpassed. With one quarter the time and labor usually required it imparts a beautiful rloss and lustre, much superior to any other mode. No water required except tomoistant the surprise of the provider of the surprise of the provider of the surprise of the sur

any other mode. No water required except to moisten the powder.

Directions with each package.

And can be radily appreciated by a single trial.
The cost of washing for a family of five or six persons
will not exceed three cents.

The mannfacturers of this powder are aware that
many useless compounds have been introduced to the
public which have rotted the cloth, or failed in removing the dirt, but knowing the cloth, or failed in removing the dirt, but knowing the intrinsic excellence of,
this article, they confidently proclaim it as being adapted to meet a demand which has long existed, and
which has heretofore remained unsupplied. Manufactured by
