BY WILLIAM ROSS WALLACE.

Let grim Winter blow his trumpet On the mountain's snowy steep; Let the Ocean's savage anthems On the trembling beaches sweep, And the demons of the Northland From their icy caverns leap!

We may laugh at all the terror, Loving still the clouded clime; Feeling that the clouds are only For a very little time-Stormy trumpet, savage anthem, In their awfulness sublime.

Having on the poor compassion; Turning no one from the door; Dropping nurture in their thin palms That implore a little store, Till the Winter-wail of Nature

So we may take every revel In the storms that round us dart, Full of God's great crowded glory On the mountain, in the mart, While in spite of roseless Winter, Summer blooms within the heart!

Dies, in light, along the shore.

The Doctor.

Everybody knows the doctor; a very important person he is to us all. What could we do without him? He brings us into this world, and tries to keep us as long in it as he can, and as long as our bodies can hold together; and he is with us at that strange and last hour, which will come to us all, when we must leave this world and go into the next. When we are well, we perhaps think little about the doctor, or we have our small joke at him and his drugs; but let anything go-wrong with our body, that wonderful tabernacle in which our soul dwells-let any of its wheels go wrong—then off we fly to him. If the mother thinks her husband or child dying, how she runs to him and urges him with her tears! how she watch. es his face, and follows his searching eye as he examines the dear sufferer; how she wonders what he thinks! what would she give to know what he knows? how she wearies for his visit! how a cheerful word from him makes her heart leap with joy, and gives her spirit and strength to watch over the bed of distress? Her whole soul goes out to him in unspeakable gratitude when he brings back to her from the power of the grave her husband or darling child. The doctor knows many of our secrets, of our sorrows, which no one else knows; some of our sins, perhaps, which the great God alone clse knows; how many lives and hearts he carries in his heart and in his hands? So you see he is a very important person, the doctor, and we should do our best to make the most of him, and to do our duty to him and to ourselves.

A young man in St. Louis recently wrote to Horace Greeley to use his influence in obtaining a situation for him. He received the following reply:

"New York is just entering upon the interesting process of starving out 200,-000 people whom war and irredeemable per have driven bither. It is impossible to receive and employ more till these are gone.'

-The following duly signed, was lately contained in a Western paper:-"Whereas, at particular times I may importune my friends and others to let me bave liquor, which is hurtful to me and detrimental to society; this is, therefore, to forbid any person selling me liquor, or letting me have it on any account, for if they do I will positively prosecute them, notwithstanding any promise I may make to the contrary at the time they may let me have

-Panch says annuities are subject to a peculiar malady known as the long liver

-Mankind should learn temperance from the moon—the fuller she gets, the shorter her horns become.

-Artemas Ward says: "Let us be happy, and live within our means, even if we have to borrow money to do it with."

sewing machines

WELL AWARDED THE HIGHEST PREMIUMS

At the State Pairs of Illinois, Virginia, N. Carolina, New Jersey, Michigan, Wisconsin, Tennessee, Vermont, Pennsylvania, Iowa, Alabama, Kentucky, Ohio. Oregon, Missouri, California. At the Fairs of the American Institute, Franklin Institute, Maryland Institute, Massachusetts Mechanics' Association,
Penn. Mechanics' Institute, St. Louis
Agricultural and Mechanics'
Association,

And at numerous Institute and County Fairs, including all the Fairs at which they were exhibited the past three years.

Frit prizes have also been awarded these machines at the exhibitions of

London, Paris, Dublin, Litz, Besancon, Bayonne, St. Dizier, Chalons,

And they have been furnished by special command to the

Empress of France, Empress of Austria, Empress of Russia, Empress of Brazil, Queen of Spain, and Queen of Bavaria.

The Grover & Baker Elastic Stitch Sewing Machines are superior to all others for the following reasons:

1. They sew direct from the spools, and require no rewinding of thread.

vinding of thread.

2. They are more easily understood and used, and less liable to derangement than any other machines.

3. They are capable of executing perfectly, without change of adjustment, a much greater variety of work than other machines.

4. The stitch made by these machines is much more firm, clastic and durable, especially upon articles which require to be washed and iroued, than any other stitch. 5. This stitch, owing to the manner in which the under thread is inwrought, is much the most plump and beautiful in use, and retains this plumpness and beauty even upon articles frequently washed and ironed until they are worn out. 6. The structure of the seam is such that, though it be ent or broken at intervals of only a few stitches, it will neither open, run, or ravel, but remains firm and durable.

7. Unlike other machines, these fasten both ends of the scam by their own operation.

8. With these machines, while silk is used upon the right or face side of the seam, cotton may be used upon the other side without lessening the strength or durability of the seam. This can be done on no other machine, and is a great saving upon all articles stitched or made up with silk.

9. These machines, in addition to their superior mer-its as instruments for sewing, by a change of adjust-ment, easily learned and practiced, execute the most beautiful and permanent embroidery and ornamenta
