GROVER & BAKER'S
SEWING MACHINES
WERE AWARDED THE
HIGHEST PREMIUMS
At the State Fairs of
New York, Illinois, Virginia,
New Jersey, Michigan, N. Carolina,
Vermont, Wisconsin, Tennessee,
Pennsylvania, Iowa, Alabama,
Ohio, Kentucky, Oregon,
Indiana, Missouri, California.

And at numerous Institute and County Fairs, including
all the Fairs at which they were exhibited the past
three years.
First prizes have also been awarded these machines at
the exhibitions of
London, Paris, Dublin, Litz, Besancon,
Bayonne, St. Dizier, Chalons,
And they have been furnished by special command
to the
Empress of France,
Empress of Austria,
Empress of Russia,
Empress of Brazil,
Queen of Spain, and
Queen of Bavaria.

The Grover & Baker Electric Stitch Sewing Machine
is superior to all others for the following reasons:
1. They sew direct from the spools, and require no re-
winding of thread.
2. They are easily understood and used, and re-
quire less time in executing perfectly, without
change of adjustment, a much greater variety of work
than other machines.
3. The stitch made by these machines is much more
firm, elastic and durable, especially upon articles which
require to be washed and ironed, than any other stitch.
4. This stitch, owing to the manner in which the under
thread is wrought, is much the most plump and
beautiful in use, and retains this plumpness and beauty
even upon articles frequently washed and ironed until
they are worn out.
5. The structure of the seam is such that, though it
be cut or broken at intervals of only a few stitches, it
will neither open, run, or unravel, but remains firm and
durable.
6. Unlike other machines, these fasten both ends of
the seam by their own operation.
7. With these machines, while silk is used upon the
right or face side of the seam, cotton may be used upon
the other side without lessening the strength or dura-
bility of the seam. This can be done on any other ma-
chine, and is a great saving upon all articles stitched or
made up with silk.
8. These machines, in addition to their superior merit
as instruments for sewing, by a change of adjust-
ment, easily learned and practiced, execute the most
beautiful and permanent embroidery and ornamental
work.
