

COUNTY AFFAIRS.

Important to Officers. By a late decision of the Court of Claims, officers engaged in the late war are entitled to one, two, three or four servants, according to the rank, or in lieu of servants to the pay of a private soldier for each servant they are entitled to. On the 1st of May, 1864, Congress increased the pay of a private soldier to \$16 per month. On the 3d of March, 1865, Congress explained the measure of an officer's allowance for a servant to be "the pay of a private soldier, as fixed by law at the time." Since which date, but not before, officers have been allowed \$16 per month for each servant, they were entitled to. Between those dates, May 1st, 1864, and March 3d, 1865, officers are entitled to the difference between \$11 and \$16, or \$5 per month for each servant they are entitled to.

Counterfeiter Arrested.

An individual, calling himself Dr. Henry Corner, and living in Thomson, this county, was arrested a few days ago for passing counterfeit money, and on Friday last had an examination before S. B. Chase, U. S. Commissioner for this county, at Saquehanna D. post. Counterfeit notes to the value of \$150, on the Fourth National Bank of Philadelphia, were found on his person. After a hearing he was forwarded by rail to Williamsport, where he will remain jugged until the June term of Court. It is believed Corner was employed to dispose of the bills, as no dies or tools were found in his possession. -Pensylvanian.

Escaped from Jail.

McGregor, one of the persons confined on the jail of this county, charged with the express robbery at Troy, made his escape from jail on Wednesday evening of last week, in a bold and daring manner. One of the attendants was passing him a man through the partially closed door, when McGregor called his attention to something about the lamp, and immediately dashed a tumbler to the ground, his face, whiskey and pepper sauce in his face, blinding and bewitching him, and then pushing the door open, passed into the hall from there to the family dining room, and out into the yard. The person in attendance, before going to the cell, had taken the precaution to lock the hall door, and there happened not to be any one in the dining room. A young girl, who gave him directions, then, who was in the darkness, McGregor made of his escape. The Sheriff and other officers were worried in their pursuit, and the next morning found that he had been seen early in the morning, in Northampton, from whence he took a course over the mountain in the direction of Lowell. In the evening he came to Holcomb, where he found a number of persons discussing his escape, and reading the handbill describing him and offering a reward for his apprehension. He slipped out of the house, and started back down the road to this place, but was soon overtaken, and arrested, and brought back to jail, having enjoyed his liberty but about 24 hours.

The utmost precaution has been taken to prevent the escape of those confined in the jail, and the adroitness with which the manœuvre was executed could hardly have been guarded against. The attendant was totally blind for some time from the effects of the dash with which he was favored, but has recovered without permanent injury. Barnes, who was confined in the same cell, made no attempt to escape. McGregor, on his return to his old quarters, was heavily ironed, and will hardly have another opportunity to practice such jokes. -Bradford Rep.

Mendenhall's Improved Self Acting Hand Loom.

We copy the following from the Farm and Fireside, Philadelphia: As a practical mechanic and mechanical expert, we have given close and continuous attention, for more than a year, to the practical performance of the "Improved Mendenhall," and freely confess we have found no feature in fault with everything to commend. So entirely simple, disorder of parts is nearly impossible. With so little friction, and trifling power is required to operate it. It weaves by simply turning a crank—a perfect automaton—wings the lathe, springs the treadle, sings the shuttle, unwinds the warp, winds up the woven cloth, and maintains the tension, never

making a mis-move; but making cloth of very superior quality, and of eight or nine different styles, all on the same warp, at the rate of from 20 to 35 yards per day. Jeans, satinetts, tweeds, kerseys, repps, fencing, birds eye, bagging, toweling, table linen, cotton, wool, hemp cloth, and carpeting, are among the Mendenhall's easy achievements. In the majority of these, the change can be made in two minutes from one style of fabric to another on the same warp. The proprietors of the Philadelphia "Mendenhall," have recently invented a shuttle by which rag carpets can be rapidly woven by self-acting in the same manner as any other cloth. No other loom has this improvement.

The farmers, mechanics, and all others wearing "store clothes," actually pay in the material of which they are made six per cent, and the U. S. tax of six per cent, all of which accrue on the raw material between the time of its going out of farmers' hands and returning to them in the form of cloth. The Mendenhall Loom saves to its proprietors all this, besides giving them a better quality of cloth, at an average of about one half the cost of store material.

For terms and particulars, with samples of cloth, address A. B. GATES & Co., proprietors, 333 Chestnut Street, Philadelphia. Samples of cloth woven on the "Mendenhall" loom, may be seen at the office of the Farm and Fireside 402 Prune St., Philadelphia. See advertisement in this paper.

Gov. Bullock of Massachusetts, has appointed a negro named Gerget Ruffin a justice of the peace for the county of Suffolk. There were two soldier applicants for the position—one minus a leg—but it was no go. Wounded soldier had to take a back seat.

Good News from the Granite State!

The New York Tribune yesterday gave the latest returns from New Hampshire, and admitted that "the net Democratic gain on the popular vote in towns thus far reported is one minus a leg." The returned gives an amount only to 293, while the Democratic gains are 1835, making a net Democratic gain of 1242. The assembly elected, so far shows 37 radicals to 25 Democrats, the same to last year electing 46 radicals to 16 Democrats.
