COUNTY AFFAIRS.

Sabbath Schools.

The annual meeting of the Susquehanna County Sabbath School Association will be held at Great Bend on Wednesday, June 12, at one o'clock, A. M. A general invitation is given to all interested in Sabbath Schools.

D. K. OAKLEY, R. S.

To Bark Peelers.

It is reported in the North western towns of the county, that both Tanneries in this section are about to come under the control of one agent; and that he will only pay $3 per cord for bark. This is a hint to those intending to peel bark, to not peel unless they first get a valid contract at a fair price. Better peel none till next year and secure living prices. If we peel now, without a good contract at fair prices, we may be forced to sell at a ruinous rate.

BARK PEELER.

Bounty Statements.

Auditors will do well to observe that the law requires them to publish their statements of the Bounty Taxes in the two papers having the largest circulation. Such Auditors, therefore, as neglect to publish their statements in both the Montrose papers are liable to the penalty of $50 each.

The Auditors of Montrose, Harford, Silver Lake and Liberty have complied with the law—all others are liable.

Patent Hay Rake.

Read article headed New York Farmers Swindled. Look out for a similar operation in this county.

If each person in this county who has given his note to these agents, and taken a receipt for it, will send such receipt to the office of the Assessor of U. S. Internal Revenue, at Montrose, *immediately*, he may hear of something to his advantage. The receipts will be carefully preserved and returned to the owners.

Religious Notice.

The Pennsylvania State Convention of Universalists will hold its next annual session at Scranton, June 5th and 6th, in Washington Hall. The public are cordially invited to attend. PER ORDER.

Susquehnna Correspondence.

We are getting to be a fast town in more ways than one. A very bold piece of Burglary was committed here on the night of the 21st. The house of J. H Cook was broken into and robbed, of $37 in money, and of their store key and safe key. But the store key did not happen to be the one of the store that contained the safe—so that any further game in that direction was blocked. The most excitement, we have had here, was in regard to change of Post Masters, which seemed to to cut very hard at *first*; but all parties, are still alive and doing as well as might be expected.

If there could be a change in weather clerks I think it would suit all parties, especially those interested in Base Ball. We have two crack clubs here, called the "Susquehanna," organized in '66, and the "Harmony." The last is the old "Keystone,") organized in 63) and the Canawacta combined, and which I assure you, are going to be hard to beat, by any Co., club. If by some mistake, the ground should ever be in condition to play on, I expect to see some warm work between these two clubs for the Championship of the Borough. When it takes place will give you the report. CANAWACTA.

Susq. Depot, May 23.

To the Stockholders in Montrose Gold Company:

For the information of those interested I would say, that after the return of Mr. Mahany, our Sup't, from Colorado last summer, and placing back in the treasury of the Co. 9,000 shares of his own stock, the Directors subscribed for nearly *one half* the stock owned by the Co., viz: 13,000 shares, on condition that the balance was taken by the stockholders.—The financial panic which soon came upon the country, and the unsettled state which still prevails, has been the cause of our not having commenced operations, or getting our stock all subscribed. Mr. Mahany is now back at the mines, under a very small salary; until we commence work our expenses are reduced to the lowest point possible. The mill and property are reported in *good* condition, the Co. is *out of debt*, and efforts are now being made by the new board of Directors, who are large stockholders, to raise money with which to *drive ahead* in our best shafts as soon as possible. In the mean time, labor and provisions are decreasing in value, the railroad is nearing our works at the rate of 2 miles per day, which will soon be sensibly felt, in lessening freight bills, etc., while new processes, which secures nearly all the gold, are reported on good authority a *success*. My faith is *still strong* that after all the good or evil reports in regard to the "Montrose Gold Co:" it will one day rise on the wave of trimuph! My feeble efforts *have been*, and God giving me strength *shall* be directed to that end. I have put my money in freely, to protect the buildings, flume, dam, &c., and pay off old debts, so as to *save* our property till the good time comes to work it, and bring back the gold to those who *invested* their money. Had Cyrus W. Field been discouraged and deserted by all (as he was by some) of his friends in his first and second attempt, where, today, would have been the *Atlantic Cable?*

Yours Truly,

M. C. TYLER, Pres't.

DR. SCHENCK'S MANDRAKE PILLS. A SUBSTITUTE FOR CALOMEL.

These Pills are composed of various roots, having the power to relax the secretions of the liver as promptly and effectually, as blue pill or mercury, and without producing any of those disagreeable or dangerous effects which often follow the use of the latter.

In all bilious disorders these Pills may be used with confidence, as they promote the discharge of vitiated bile, and remove those obstructions from the liver and biliary ducts, which are the cause of bilious affections in general.

SCHENCK'S MANDRAKE PILLS cure Sick Headache, and all disorders of the Liver, indicated by sallow skin, coated tongue, costiveness, drowsiness, and a general feeling of weariness and lassitude, showing that the liver is in a torpid or obstructed condition."

In short, these Pills may be used with advantage in all cases when a purgative or alterative medicine is required.

Please ask for "Dr. Schenck's Mandrake Pills," and observe that the two likenesses of the Doctor are on the Government stamp—one when in the last stage of Consumption, and the other in his present health,

☞ **Notice.**—The beautiful Piano Fortes of GROVESTEEN & Co. are deemed by all good judges to be the *Ultima Thule* of instruments of the kind.

We cannot suggest what is wanting to make a musical instrument more perfect, although we are slow to admit that the limit of improvement can ever be attained.

Before they had brought their Pianos to their present excellence, they had submitted them to competition with instruments of the best makers of this country and Europe, and received the reward of merit, over all others, at the celebrated World's Fair. It is but justice to say that the judgment thus pronounced has not been overruled by the musical world.

Still, by the improvements lately applied by them to their Pianos, it is admitted that a more perfect Instrument has been made. They have accordingly achieved the paradox of making excellence more excellent.—Surely, after this, they are entitled to the motto, "Excelsior." [June 19—1y

Were awarded the highest Premium at the World's Fair in London, and six first premiums at the New York State Fair of 1866, and are

Celebrated for doing the best work, using a much smaller needle for the same thread than any other machine, and by the introduction of the most approved machinery, we are now able to supply the very best machines in the world.

These machines are made at our new and spacious Factory at Bridgeport, Conn., under the immediate supervision of the President of the Company, Elias Howe, Jr., the

ORIGINAL INVENTOR OF THE SEWING MACHINE.

They are adapted to all kinds of Family Sewing, and to the use of seamstresses, dress makers, tailors, manufacturers of Shirts, collars, skirts, cloaks, mantillas, clothing, hats, caps, corsets, boots, shoes, harness, Saddles, linen goods, umbrellas, parasols, etc. They work equally well upon silk, linen, woolen and cotton goods with silk, cotton or linen thread. They will seam, quilt, gather, fell, cord, braid, bind, and perform every species of sewing, making a beautiful and perfect stitch, alike on both sides of the articles sewed.

The Stitch invented by Mr. Howe, and made on this Machine, is the most popular and durable, and all Sewing Machines are subject to the principle invented by him.
