

A Contented Proprietor.
I have plenty of dainty vassals,
Have plenty of gold to spare;
I have plenty of beautiful castles—
But my castles are built in the air;
And my vassals are all airy creatures,
From beautiful Dreamland are they;
They drive me to balls
And magnificent balls,
And tell me my coach stops the way!
But oh! what a pest,
When it comes to the test
I am kept in a dreadful delay!
A plague on those wild little vassals!
You can't trust a word that they say,
And I've heard that my beautiful castles
Are sadly inclined to decay.

Father Wisdom advised me to sell them
To the public—a benefit clear—
And fancy engaged so to sell them,
For fancy's a use a auctioneer;
But the market by no means was lively,
For castles the call was but cold;
Lead and iron were bristling,
But gold none would risk
To invest on my battlements bold.
So my turrets, unlet,
I inhabit them yet,
And rather rejoice they're not sold.
And never a bit am down-hearted,
For my vassals still ply me with gold;
My castles and I shan't be parted
Till the heart of the owner be cold.

Again Father Wisdom addressed me—
He's a horrid old bore in his way—
He said rats and mice would infest me,
As crumbled my tower to decay.
"They never can crumble, good father;
"They're lasting when once they're begun;
Our castle of air
We can quickly repair,
As the home of the spider's respun."
So homeward I went
To my castle's content,
As the vesper-bell told day was done;
And they looked just as lovely as ever,
As burished they stood in the sun.
Oh! never from my castles I'll sever
Till the sand of my glass shall be run!
—All the Year Round.

A Colored witness was examined
in a Washington city court, to prove
the identity of a white man, the other day.
District Attorney—"Did you see the
man?"
"Yes sir, I see him!"
"Was he a white man?"
"Don't know, sir!"
District Attorney—"Do you tell me
you saw the man and can't say whether
he was white or black?"
"Yes sir; I see him, but dares so
many white fellows callin' themselves
"niggers" round here I can't tell one from
t'other."
Witness dismissed—explanation satisfac-
tory.

A RECEIPT WORTH \$1000.—The Ohio
Cultivator says: Take one pound of sal
soda and a half pound of unslacked lime,
put them in a gallon of water and boil
twenty minutes, let it stand till cool, then
drain off, and put in a strong jug or jar;
soak your dirty clothes over night, or un-
til they are wet through, then wring them
out and rub on plenty of soap, and in one
hour or two the clothes will be covered with
water, and the soap will wash fluid; boil
half an hour briskly, then wash them
thoroughly through one suds, rinse, and
your clothes will look better than the old
way of washing twice before boiling. This
is an invaluable receipt, and I want every
poor tired woman to try it. I think with
a patent wash tub to do the little rub-
bing, the washer woman might take the
old Bible and compose herself on a lounge
and let the washing do itself.

—General Sickles has prohibited the

for this interdiction is that the active dis-

—It is estimated that not less than five
thousand cattle, besides sheep, and hogs,
have been drowned in the inundated coun-

in the world.

The Grover & Baker Elastic Stitch Sewing Machines
are superior to all others for the following reasons:
1. They sew direct from the spools, and require no re-
winding of thread.
2. They are more easily understood and used, and are
less liable to derangement than any other machines.
3. They are capable of executing perfectly, without
change of adjustment, a much greater variety of work
than other machines.
4. The stitch made by these machines is much more
firm, elastic and durable, especially upon articles which
require to be washed and ironed, than any other stitch.
5. This stitch, owing to the manner in which the un-
der thread is introduced, is much the most plump and
beautiful in use, and retains the plumpness and beauty
even upon articles frequently washed and ironed until
they are worn out.
6. The structure of the seam is such that, though it
be cut or broken at intervals of only a few stitches, it
will neither open, run, or ravel, but remains firm and
durable.
7. Unlike other machines, these fasten both ends of
the seam by their own operation.
8. With these machines, while silk is used upon the
right or face side of the seam, cotton may be used upon
the other side without lessening the strength or dura-
bility of the seam. This can be done on no other ma-
chine, and is a great saving upon all articles stitched or
made up with silk.
These machines, in addition to their superior merits
as instruments for sewing, by a change of adjust-
ment, easily learned and practiced, execute the most
beautiful and permanent embroidery and ornamental
work.

J. W. BRADLEY'S Celebrated Patent
DUPLIX ELLIPTIC
(OR DOUBLE SPRING)
SKIRT.**

The wonderful flexibility and great comfort and
pleasure to any lady wearing the Duplex Elliptic Skirt
will be experienced particularly in all crowded As-
semblies, Opera carriages, railroad cars, church per-
sonal chairs, for promenade and house dress, as the
skirt can be folded when in use to occupy a small space
easily or comfortably on a shelf or in a trunk, an in-
valuable quality in crinolines, not found in any single
spring skirt.
A lady having enjoyed the pleasure, comfort and great
convenience of wearing the Duplex Elliptic Skirt, she
for a single day will never afterwards willingly
do without it. For children, nurses, and
young ladies they are superior to all others.
They will not bend or break like the single spring,
but will preserve their perfect elasticity, and wear
three or four ordinary skirts would have been thrown
away as useless. The hoops are covered with double
and twisted thread, and the bottom rods are not sup-
ported by springs, but twice (or double) covered, prevent-
ing them from wearing out when dragging down steps
stairs.
The Duplex Elliptic is a great favorite with all ladies
and is universally recommended by the Fashion Mag-
azines as the standard skirt of the fashionable world.
To enjoy the following inestimable advantages in
crinolines, viz: superior quality, perfect manufac-
ture, stylish shape and finish, durability, flexibility, comfort
and economy, inquire for J. W. Bradley's Duplex El-
liptic, or Double Spring Skirt, and be sure you get the
genuine article.
CAUTION.—To guard against imposition be particu-
lar to notice that skirts offered as "Duplex" have the
red ink stamp viz: "J. W. Bradley's Duplex Skirt"
Springs" upon the waistband—none others are genu-
ine. Also notice that every hoop will admit a pin be-
hind, passed through the center, and the rods are not sup-
ported by (or double) springs braided together therein, which
is the secret of their flexibility and strength, and a con-
struction not to be found in other crinolines.
