

ITEMS.

My eyes, Jack exclaimed a tar, seeing a soldier chained to a cannon ball for punishment, "if there ain't a soldier at anchor."

A splendid package containing a neatly turned wooden spoon, about four feet long, arrived by express, directed to Major General B. F. Butler.

The lobbyman at Harrisburg call a bill that it will pay to push through the Legislature, a "rooster." One introduced only to be defeated is styled a "pincher."

Men are like bugles; the more brass they contain the more noise they make, and the farther you can hear them. Ladies are like violets; the more modest and retiring they appear the better you like them.

A man lately appeared on the streets of Vicksburg with India rubber doll babies for sale. The Times says he was immediately arrested for burlesquing the freedmen's bureau.

A Yankee boasting of a visit which he had paid to the Queen, clinched his remark by declaring: "I should have been invited to stay to dinner, but it was washing day."

A Lad who borrowed a dictionary to read, returned it after he had got through, with the remark: "It was werry nice reading, but it somehow changed the subject werry often."

The patron of a cheap boarding house, when accused of carrying off the pillows of his bed, said he had accidentally put them into his ears for wads of cotton.

"Ma, why is a postage stamp like a bad scholar?" "I can't tell my son; why is it?" "Because it gets licked and put in a corner."

What's the difference between a pound of meat and a drummer boy? One weighs a pound and the other pounds away.

"You want nothing, do you," said Patrick. "Bedad, an' if it's nothing you want, you will find it in the jug where the whiskey was."

Prentice has seen a photograph of Benjamin Wade, and says his face is so hard that a blacksmith might hammer out a horseshoe on it.

Lucy Stone once said, "There is cotton in the ears of man, and hope in the bosom of women." Lucy made a mistake, and got the cotton in the wrong place.

The gas is reported to be so bad in Erie, Pa. that the boy who puts it out has to take a lantern to find the posts.

After Jefferson Davis had been released and was about to enter a carriage, he was greeted with loud cheers from a large crowd of negroes in the streets and about fifty of them crowded forward and shook him cordially by the hand.

A Memphis correspondent of the Cincinnati Enquirer says that Brownlow, who is now a candidate for re-election, relying almost wholly on negro votes—used to say that "negroes were faithless monkeys." He is a fair sample of the Radicals who claim to be the exclusive friends of the negro.

The most sensible thing we have seen recently is a speech made by a colored "brother" of Tennessee. The orator said little, but that little was to the point. Here is his speech: "Niggers, I know but little about conventions, and you know less. Now you had better go home, make a good crop, and learn some sense, and then hold conventions."

An Indian passing up the street of Natchez, a few days since, was asked the relative position of white man, negro and Indian. Giving a usual "Ugh!" he said: "Fore the war, fust cum white man, den injin, den dog, den nigger; now, cum nigger, den dog, den injin, and white man last!"

The name by which the new Russian territory is to be known is exciting discussion, and an anonymous paragraph remarks: "Esquimaux (or better Eskimo, according to Latham) would do very well; Sitka is very good; Norland might do, as we are not likely to get any thing beyond it. If it is proposed to give any of our generals a cold immortality by it, call it Lisicles, after Gen. Sickles."

Southern Politics.

The Radical emissaries now scattered over middle and South Alabama for the purpose of enlisting the freedmen under the Republican banner, resort to all sorts of falsehoods and tricks to get the negroes to attend political meetings. A canebrake planter states that a freedman in his employment, wishing to attend one of the meetings, said that he had been told that those who did not attend would be fined or punished in some other way; also that the negroes had a right to attend all public meetings, the days on which public meetings were held being considered public days, and that employers had no right to make deductions for absence on those days.

The subject of impression at first sight was being talked over at the supper table, which the lady whose duty it was to preside "over the tea cups and tea" said she always formed an idea of a person at first sight, and generally found it to be correct. "Mamma," said the youngest son, in a shrill voice that attracted the attention of all present. "Well, my dear, what is it?" replied the fond mother. "I want to know what was your opinion of me when you first saw me?" "This question gave a sudden turn to the conversation."

Canada a Kingdom. The consolidation of the Canadian provinces has been accomplished. Queen Victoria, by a royal proclamation, has united Upper and Lower Canada, Nova Scotia, and New Brunswick under one government for all local purposes. The territory included in the new state or kingdom, is about four hundred thousand square miles, and the population will reach 3,318,838 souls, distributed as follows: Upper Canada, 1,303,923; Lower Canada, 1,225,514; New Brunswick, 252,049; Nova Scotia, 350,857; New Foundland, 111,638; Prince Edward Island, 80,857.

Here is Mr. Peabody's own version of the story that he once saw wood in Concord to pay for a night's lodging. He had been to school in Vermont, and was on his way home to Denver, Mass. Arriving in Concord on foot, late at night, he put up, not at the Columbian, but at the old "Stickney Tavern." Having no money he went suppers to bed, and the next morning he did, as stated, stop and saw wood to pay his lodging and breakfast.

GROVER & BAKER'S SEWING MACHINES.

WERE AWARDED THE HIGHEST PREMIUMS. At the State Fairs of New York, Illinois, Virginia, New Jersey, Michigan, N. Carolina, Vermont, Wisconsin, Tennessee, Pennsylvania, Iowa, Alabama, Ohio, Kentucky, Oregon, Indiana, Missouri, California.

At the Fairs of the American Institute, Franklin Institute, Maryland Institute, Massachusetts Mechanics' Association, Penn. Mechanics' Institute, St. Louis Agricultural and Mechanics' Association.

And at numerous Institute and County Fairs, including the Fairs at which they were exhibited the past three years. First prizes have also been awarded these machines at the exhibitions of London, Paris, Dublin, Litz, Besancon, Bayonne, St. Dizier, Chalons, and they have been furnished by special command to the Empress of France, Empress of Austria, Empress of Russia, Empress of Brazil, Queen of Spain, and Queen of Bavaria.

The Grover & Baker Elastic Stitch Sewing Machines are superior to all others for the following reasons: 1. They sew direct from the spools, and require no winding of threads. 2. They are more easily understood and used, and less liable to derangement than any other machines. 3. They are capable of executing perfectly, without change of adjustment, a much greater variety of work than other machines. 4. The stitch made by these machines is much more firm, elastic and durable, especially upon articles which require to be washed and ironed, than any other stitch. 5. This stitch, owing to the manner in which the under thread is interwoven, is much the most plump and beautiful in use, and retains this plumpness and beauty even upon articles frequently washed and ironed until they are worn out. 6. The structure of the seam is such that, though it be not broken at intervals of only a few stitches, it will neither open, run, or ravel, but remains firm and durable. 7. Unlike other machines, these fasten both ends of the seam by their own operation. 8. With these machines, while silk is used upon the right or face side of the seam, cotton may be used upon the other side without lessening the strength or durability of the seam. This can be done on no other machine, and is a great saving upon all articles stitched or made up with silk. 9. These machines, in addition to their superior merits as instruments for sewing, by a change of adjustment, easily learned and practiced, execute the most beautiful and permanent embroidery and ornamental work.
