Opposition Testimony in Favor of Judge Sharswood.

The Pittsburg Republic, a Republican journal, contains the following remarks upon the nomination of Judge Sharswood:

"This gentleman has received the nomination of the Democratic party for one of the first offices in the gift of the people of our State. We do not enjoy the pleasure of his acquaintance, but from all we can sources of information, the convention could not have made a more unexceptionable selection. * The nomination of Sharswood has given general satisfaction."

To Secretaries of School Boards:

The manner in which the reports are received, or not received, is a source of much trouble. Sometimes the four months certificate is received without the report, sometimes the report without the certificate. They should both be sent at the same time. There are two other blanks that should be filled and forwarded at once—the report of Secretary to County Superintendent, containing a list of the names of teachers employed, &c., and to the County Sup't of Susq's county, containing the statistics for the school year,

ending June 1, 1867. The school year ended the first of June. The statistical table is to be filled, and the report for the county to the State department is to be made out. Reports of the several school districts are to be copion of Attorney General Stanberry upon | ied, approved, and forwarded to the State the reconstruction acts; and as it is too lengthy for our columns we clip the folpromptness on the part of the boards.

This is not offered with a spirit of comexhaustive opinion of Attorney General plaint; still we can but feel that a little more promptness on the proper officers will aid us much.

Such mistakes as the following should be looked to: Reports are received with eral holds that the reconstruction acts the names of the district omitted; the employed during the year; average attensometimes the average attendance is great- resolution: er than the whole number of pupils aters are to act as guardians of the peace; tending; the names of the memto suppress disorder, and to protect all bers of the board are sometimes people in their rights of person and prop- omitted; and, finally, the amount of the receipts does not agree with the amount of expenditures and balance on hand, and the amount paid to teachers in many catheir rights, in common with those of all ses, does not equal the sum of the probeing authorized to remove, they, as a month by the whole number of months consequence, have no authority to appoint | taught by males; and the product of the average salary of females per month by

The time has come when the matters pertaining to our public schools should be party needs protection against, the inas accurately kept as those of the merchant or any other branch of business. In The Attorney General also presents at very few cases, thus far, has the report of length a summary of the qualifications of teachers employed been received. They should be promptly sent when the teachers are employed for any term-not as a matter of record merely, but that the superintendent may know what schools are mission of a felony meant by the law to open, when they were opened, and be better able to visit such teacher as may need assistance most.

As there is more delay in the reporting

"Immediately after the annual appointment of teachers in each district, the secretary of the board shall send a written they have not been convicted in a legal list of their names, and the schools to which they have been respectively appointed, to the proper county superintendent, with a notice of the day upon which There are other points of interest pre- the ensuing term of school in the district will commence, and the termination thereof, as directed by the board."-Page 34, sec. 4, act of April 11, 1862.

Hon C. R. Coburn says: "It is highly important that this duty should be performed by the secretary as required."

We shall be much pleased if all the reports can be in at the end of this month, that the whole time thereafter can be

How the Radical Victory was Won in Washington City.

Apart from the frands, the manner in which the Radicals thrust obstacles in the way of the white vote is simply outrageous. In some of the wards, in which the vote to be cast was greater than could be possible under the arrangements made, the commissioners of election had agreed to a programme to have a fair election.-They had arranged among themselves that there should be two lines of voters, one of whites, the other of blacks, and that each should be allowed alternately to put in four votes. This was a perfectly fair and satisfactory arrangement, but our rear of the negro voters.

Means of the Company.

Estimating the distance to be fluit by the Union Pacific to be 1.535 mfles, the United States Government issues its six per cent. Thirty year bonds to the Company as the road is finished at the average rate of about \$22.250 per mile, ambunting to \$44,208,000.

The Company is also permitted to Issue its own first Mortgage Bonds to an equal amount, and at the same time, which by special Act of Congress are made as first mortgage on the entire line, the bends of the United States being subordinate to them.

The government makes, a douation of 12,500 acres of lands to the mile, amounting to 20,032,000 acres estimated to be worth \$30,000,000, making the total recourter exclusive of the capital, \$118,416,000; but the full value of the lands cannot now be realized.

The authorized Capital stock of the Company is one hundred million dollars of which five millions havelleredly been paid in, and of which it is not supposed that more than 25 millions at most will be required?

The cost of the road is estimated by competent engineers to be about one hundred million dollars, exclusive of equipment.

Prospects for Business.

The railroad connection between Omaha and the east is now complete, and the earnings of the Union Prelic on the sections already finished for the first two weeks in May were \$113,000. These sectional carnings as the road progresses will much more than pay the interest on the Company's bonds, and the through business over the only line of railroad between the Atlantic and Pacific must be immense.
