The Union Pacific Rail-Road Co.

A RE now constructing a Railroad from Omaha, Ne-braska, westward towards the Pacific Ocean, ma-king with its connections an unbroke, line

ACROSS THE CONTINENT.

The Company now offer a limited amount of their first MOMT GAGE BONDS having thirty years to run and bearing annual interest, payable on the first day of January and July, in the city of New York, at the rate of six per cent in gold, at ninety cents on the dollar.

This road was completed from Omaha 305 miles west on the ist of January, 1807, and is fully equipped, and irains are regularly running over it. The Company has now on hand sufficient iron, ties, etc., to finish the remaining portion to rhe eastern base of the Rocky Mounjalus, 319 miles, which is under contract to be done September ist this year, and it is expected that the entire road wiff be in running order from Omaha to its western connection with the Central Pacific, now being rapidly built eastward from Sacramento, al. during 1870.

Means of the Company

Means of the Company. Estimating the distance to be fluilt by the Union Pacific to be 1.55 miles, the United States Government issues its six per cent. Thirty year bonds to the Company as the road is finished at the average rate of about \$29,250 per mile, amounting to \$44,293,000.

The Company is also permitted to issue its own first Mortgars Bonds to an equal amount, and at the same time, which by special Act of Congress are made a first mortgage on the entire line, the bonds of the United States being subordinate to them.

The government makes a douation of 12,800 acres of land to the mile, amounting to 20,022,000 acres estimated to be worth \$30,000,000, making the total resources exclusive of the capital, \$118,416,000; but the full value of the lands cannot now be realized.

The authorized Capital stock of the Company is one hundred million stales of which five millions have already been paid in, and of which five millions have already been paid in, and of which it is not supposed that more than 25 millions at most will be required.

The cost of the road is estimated by competent engineers to be about one hundred million dollars, exclusive of equipment. Estimating the distance to be fluilt by the Union Pa-

sive of equipment.

Prospects for Business. The railroad connection between Omaha and the cast is now complete, and the earnings of the Union Pscific on the sections already finished for the first two weeks in May were \$113,000. These sectional earnings as the road progresses will much more than pay the interest on the Company's bonds, and the through business over the only line of railroad between the Atlantic and Pacific must be immense.

Value and security of the Bonds. The company respectfully submit, that the above statement of facts fully demonstrates the security of their Bonds, and as additional proof they would suggest that the Bonds now offered are less than ten million dollars no 517 miles of road, on which over twenty million dollars have already been expended;—on 830 miles of this road the cars are now running, and the remaining 187 miles are nearly completed.

At the present rate of premium on gold these bonds payannual interest on the present cost of

Nine Per Cent,

Nine Per Cent,

and it is believed that on the completion of the road, like the Government Bonds, they will go above par. The company intend to sell but a limited amount at the present low rate and retain the right to advance the price at their option.

Bubscriptions will be received in New York by the Continental National Bank, No. 7 Nassau st., Clark, Dodge & Co., Bankers, 51 Wall st., John J. Claco & Son, Bankers, no. 33 wall st., and by banks and Bankers generally throughout the United States, of whom maps and descriptive pamphiets may be obtained. They will also be sent by mail from the Company's office. no. 20 nassau street, New York, on application. Subscribers will select their own Agents in whom they have confidence, who alone-will be responsible to them for the safe delivery of the bonds.

GROVER & BAKER'S

SEWING MACHINES

WERE AWARDED THE HIGHEST PREMIUMS

At the State Pairs of Virginia, New York, Illinois, New Jersey, N. Carolina, Michigan, Wisconsin, Tennessee, Vermont, Alabama, Pennsylvania, Iowa, Ohio, Kentucky, Oregon, Missouri, California. At the Fairs of the American Institute, Franklin Institute, Maryland Institute, Massachusetts Mechanics' Association,
Penn. Mechanics' Institute, St. Louis
Agricultural and Mechanics'
Association,

And at numerous Institute and County Fairs, including all the Fairs at which they were exhibited the past three years.
Frst prizes have also been awarded these machines at the exhibitions of

London, Paris, Dublin, Litz, Besancon, Bayonne, St. Dizier, Chalons,

And they have been furnished by special command to the

Empress of Austria Empress of Russia, Empress of Brazil, Queen of Spain, and Queen of Bavaria

The Grover & Baker Elastic Stitch Sewing Machines e superior to all others for the following reasons: 1. They sew direct from the spools, and require no re winding of thread.

2. They are more casily understood and used, and less liable to derangement than any other machines.

3. They are capable of executing perfectly, without change of adjustment, a much greater variety of work than other machines. 4. The stitch made by these machines is much more firm, elastic and durable, especially upon articles which require to be washed and ironed, than any other stitch.

5. This stitch, owing to the manner in which the under thread is inwrought, is much the most plump and beautiful in use, and retains this plumpness and beauty eren upon articles frequently washed and ironed until they are worn out. 0. The structure of the seam is such that, though it becutor broken at intervals of only a few stitches, it will neither open, run, or ravel, but remains firm and durable.

durable.
7. Unlike other machines, these fasten both ends of the seam by their own operation.
8. With these machines, while silk is used upon the right or face side of the seam, cotton may be used upon the other side without lessening the strength or durability of the seam. This can be done on no other machine, and is a great saving upon all articles stitched or made up with silk.

9. These machines, in addition to their superior mer-its as instruments for sewing, by a change of adjust-ment, easily learned, and practiced, execute the most beautiful and permanent embroidery and ornamental

Latest Fashions Demand J. W. BRADLEY'S Celebrated Patent DUPLEX ELLIPTIC (OR DOUBLE SPRING) SKIRT.

The wonderful flexibility and great comfort and pleasure to any Lady wearing the Duplex Elliptic Skin will be experienced particularly in all crowded Attentiolies, Operae, carriages, railroad care, church Praiarm chairs, for promenade and house dress, as the skin can be folded when in use to occupy a small peak easily or conveniently as a silk or muslin dress, and a valuable quality in crinoline, not found in any single spring skirt.

A lady having enjoyed the pleasure, comfort and great convenience of wearing the Duplex Elliptic steel spring Skirt for a single day will never afterwards willing Skirt for a single day will never afterwards willing dispense with their use. For children, misses, and young ladies they are superior to all others.

They will not bend or break like the single spring, but will preserve their perfect and graceful shape when three or four ordinary skirts would have been thrown away as useless. The hoops are covered with double and twisted thread, and the bottom rods are from only double springs, but twice (or double) covered, preening them from wearing out when dragging down stoops stairs, &c.

The Duplex Elliptic is a great favorite with all ladies and is universally recommended by the Fashion Migzines as the standard skirt of the fashionable word.

To enjoy the following inestimable advantages in crinoline, viz: superior quality, perfect manafaster, stylish shape and finish, fixibility, durability, conform and economy, inquire for J. W. Brailey's Dupler Liptic, or Double Spring Skirt, and be sure you get the genuine article.

CAUTION.—To guard against imposition be partice.

Inplic, or Double Spring Skirt, and be sure you get the genuine article.

CAUTION.—To guard against imposition be particular to notice that skirts offered as "Duplex" have the red ink stamp, viz: "J.W. Bradley's Duplez Steel Springs" upon the waietband—none others are graine. Also notice that every hoop will admit a pib being passed through the centre, thus revealing the correct of their flexibility and strength, and a cobination not to be found in any other skirt.

For sale in all stores where first class Skirts are sold throughout the United States and elsewhere.

Maunfactured by the sole owners of the Patent.

Wests, Bradley & Carey, 97 Chambers and 79 & 61 Reade sts., New York May 1, 1867—3m

FOUTZ'S CELEBRATED HORSE AND CATTLE POWDERS.

This preparation, long and favorably known, win thoroughly reinvigorate broken-down and low-spirited horses, by strenthening and cleansing the stomach and horses, by strenthening and cleaning the stomach and intestines.

It is a sure preventive of all diseases incident to this animal, such as Lung Fever, Glanders, Yellow Water, Heaves, Coughs, Distemper, Fevers, Founder, Loss Appetite and Vital Energy, &c., Its use improves the wind, increases the appetite, gives a smooth and glossy skin, and transforms the miserable skeleton into a tellooking and spritted horse.

TO KEEPERS OF COWS, this preparation is invaluable. It increases the quantity and improves the quality of the milk. It has been proven by actual experiment to increase the quantity of milk and cream twenty per cent. and make the bester firm and sweet. In fattening cattle, it gives then an a patite, loosens their hide, and makes them three much faster

IN ALL DISEASES OF SWINE, ench as Coughs, Ulcars in the Lungs, Liver, &c., the article acts as specific. By putting from one half paper to a paper in a barrel of swill the above disease will be endicated or entirely prevented. If given it time, a certain preventive and cure for the Hog Chalra. Price 25 cents per paper, or 5 papers for \$1. Frepared by

ABEL TURRELL.

A Lecture to Young Men. A Lecture to Young Men.

Just published in a sealed Envelope. Price Seems A Lecture on the Nature, Treatment, and radical care of Spermatorrhea, or seminal weakness, involutury emissions, sexual debility, and impediments to marriage generally. Nervousness, consumptien, Epileps, and sits; mental and physical incapacity, resulting from self abuse &c.—By Robert J. Culverwell, M. D., Author of the "Green Book," &c.

The world reno wned author, in this admirable Lecture, clearly proves from his own experience that the awful consequences of self abuse may be effectually removed without medicine, and without dangerous surgical operations, bougies, instruments, rings, or condition, pointing out a mode of cure at once certain and effectual, by which every sufferer, no matter what his condition may be, may cure himself cheaply, privatery, and radically. This Lecture will prove a boon to the sands.

sands.
