law to wipe out all indebtedness and to enable the people to begin anew, and was very earnest in his support of wholesale that the Constitution forbids the passage of any law which impairs the validity of contracts, The Judge, after regarding his young friend for some seconds, with evident compassion, remarked, "My friend, your talk about the Constitution and the validity of contracts reminds me of a parcel of boys riding stick horses in a circus' after the circus is gone." The young at-torney made no reply, and the Judge re-mained master of the situation.

-In the year 1863 a meeting was held in L____, Ind., for the purpose of getting up a supper and fair for the sick and wounded soldiers. Judge B___, being loyal all over, was very active in such matters, and was appointed chairman of the meeting. There was quite a number of ladies present. The business progressed rapidly, and as most of the articles for supper were to be donated, the judge called in his ludicrous manner, on those present how much they could contribute. Al. most enough was given to complete the arrangement, when some one suggested that it would be necessary to have some milk. "Oh, yea," said the judge, rising with great dignity, "all you ladies that give milk will please rise." It is sufficient to say there was no rising.

Queen of Spain, and Queen of Bavaria. The Grover & Baker Elastic Stitch Sewing Machines are superior to all others for the following reasons : 1. They sew direct from the spools, and require no re winding of thread. They are more easily understood and used, and less liable to derangement than apother machines.
 They are capable of executing perfectly, without change of adjustment, a much greater variety of work than other machines.

4. The stitch made by those machines is much more firm, clastic and dirable, especially upon articles which require to be washed and ironed, than any other stitch. 5. This stitch, owing to the mann er in which the un-der thread is inwrought, is much the most plump and beantiful in use, and retains this plumpness and beanty even upon articles frequently washed and ironed until there are warm out A large, fine assortment.
