The Grover & Baker Elastic Stitch Sewing Machines are superior to all others for the following reasons:

They sew direct from the spools, and require no re-winding of thread.

winding of thread.

2. They are more easily understood and used, and less liable to derangement than any other machines.

3. They are capable of executing perfectly, without change of adjustment, a much greater variety of work than other machines.

4. The stitch made by these machines is much more firm, elastic and durable, especially upon articles which require to be washed and iroued, than any other stitch.

5. This stitch, owing to the manner in which the under thread is inwrought, is much the most plump and beautiful in use, and retains this plumpness and beauty even upon articles frequently washed and ironed until they are worn out.

6. The structure of the seam is such that, though it be cut or broken at intervals of only a few stitches, it will neither open, run, or ravel, but remains firm and durable.

durable.

7. Unlike other machines, these fasten both ends of the sam by their own operation.

8. With these machines, while slik is used upon the right or face side of the seam, cotton may be used upon the other side without lessening the strength or durability of the seam. This can be done on no other machine, and is a great saving upon all articles stitched or made up with slik.

made up with silk.

9. These machines, in addition to their superior merits as instruments for sewing, by a change of adjustment, easily learned and practiced, execute the most beautiful and permanent embroidery and ornamental

A Lecture on the Nature, Treatment, and radical core of Spermatorrhea, or seminal weakness, involuntary emissions, sexual debulity, and impediments to marriage generally. Nervousness, consumption, Epileps, and fits; mental and physical incapacity, resulting from self abuse &c.—By Robert J. Culverwell, M. D., Author of the "Green Book," &c.

The world renowned author, in this admirable Lecture, clearly proves from his own experience that the awful consequences of solf abuse may be effectually removed without medicine, and without dangerous surgical operations, bougles, instruments, rings, or cordials, pointing out a mode of cure at once certain and effectual, by which every sufferer, no maiter what his condition may be, may care himself cheaply, privately, and radically. This Lecture will prove a boon to thousness.
