Stamps on Notes.

Promissory notes are liable to a stamp duty of five cents for each \$100 or fractional part thereof. If a note contains any special agreement such as waiving the stay of execution, right to inquisition, appeal or exemption, it is liable to an additional duty of five cents. Notes containing confession of judgment are liable to no additional stamp on account of the judgment.

There is a penalty of \$50, in each case, for neglecting to attach the proper stamps to a note or other paper subject to such duty, or for neglecting to cancel each stamp by writing thereon, in ink, the person's initials, and date. Crossing it with a pen will not answer.

Notes printed at this office have an explanation of the amount of stamp duty, on each sheet.

Affidavits do not now require a stamp.

A Correction.

Mr. Editor:—In my communication of the 3rd inst. I see that the estimate of freight to be paid by Messrs. Yardley & Co., on Peaches, reads \$3,000. It should be \$30,000. I would not like to have our Susquehanna co. friends think that \$3,000 would ever pay the freight for even one week. In the last nine days Mr. Y. has shipped over 12,000 baskets of Peaches.

Respectfully yours, DAVID SCOTT. Houston Station, Del., Aug. 16.

Convocation.

The North-Eastern Convocation of the Protestant Episcopal Church, in Pa., will hold its next session at Great Bend and New Milford, the first week in September. Tuesday, Wednesday and Thursday, there will be three services, daily, at both places, as follows: at 8 a. m., 3 1/2 and 7 1/2 p. m. The public are cordially invited.

Mr. Little for Congress.

Ed. DEMOCRAT: Please publish in your paper our choice for Congress—R. B. Little, Esq. He is not only a reliable Democrat, but amply competent to represent us at home or abroad. No matter if he has not asked the nomination; he will accept and that is enough. If all parts of the county do as well, he will be nominated by acclamation. WYALUSING.

Exhibition.

Thayer & Noyes great show will visit Montrose next week. For particulars see advertisement.

—General Pillow has at last been "in the field" to some purpose. He estimates his corn crop this year at 200,000 bushels.

Congress Ticket.

FRIEND GERRITSON:—I regret to hear a report that Judge Woodward is not a candidate for Congress. Still I hope he will yet consent to a nomination so far as Luzerne is concerned; for now is the time to select from among our soundest and ablest men; none other should be thought of. But as our county has now a fair show for the office, let us offer our man and adhere to him. No one that I hear of comes so well up to the mark as R. B. Little. He will accept it; he can be elected; and when elected is not only competent to vote, but to talk for and fully represent the party. Nor would we have any fears that he would play into the hands of your Montrose radicals. He is our unanimous choice in Aug. 24, 1867. BRIDGEWATER.

Visiting Schools.

MR. EDITOR:—I notice in your paper of last week that the directors of Montrose, New Milford Boro, and Mr. H. N. Tiffany of Harford, have incorporated in their advertisements for fall schools that the County Supt. is expected to give instruction in the theory and practice of teaching—that he will be present in the Teachers' department as often as convenient, &c. Allow me to say, the first notice I received of the fact was through the paper, except by two directors of New Milford. I deem it but justice to the teachers and myself to state that I am not expected, except so far as consistent with my official duties. Teachers preparing to teach are as much entitled to my time in one school as another, unless arrangements can be made to bring a large majority in one place. I am ready to give what aid I can to teachers, and will visit the above schools as often as convenient—doing equal justice to all.

Wistar's Balsam of Wild Cherry.—Coughs, Colds, Bronchitis, Croup, Asthma, Whooping Cough, Quinsy, and the numerous well known dangerous diseases of the Throat, Chest and Lungs, prevail in our climate at all seasons of the year; few are fortunate enough to escape their baneful influence. How important then to have at hand a certain antidote to all these complaints. Experience proves that this exists in Wistar's Balsam to an extent not found in any other remedy. However severe the suffering, the application of this soothing, healing and wonderful Balsam to the throat, quashes the disease and restores the sufferer to health and buoyancy of mind.

Prepared by Wm. H. Wistar, Chemist, Montrose, Pa., N. Y. writes: "I was urged by a neighbor to get one bottle of Balsam for my wife, being assured by him that in case it did not produce good effects, he would pay for it himself. On the strength of such practical evidence of its merits, I procured a bottle of his Balsam at this time so low with the physicians termed Scented Consumption that she was unable to raise herself from the bed, coughing constantly and raising more or less blood. I commenced giving the Balsam as directed, and was so much pleased with its operation, that I obtained another bottle, and continued giving it. Before this bottle was used the physicians termed Scented Consumption enough to sit up. The fifth bottle entirely restored her to health, doing that which several physicians had tried to do, but failed."

A CARD FROM THE AMERICAN WATCH COMPANY

Waltham, Mass.

THIS Company beg leave to inform the public that they commenced operations in 1850, and their factory now employs the entire of the above named decedent having been granted to the undersigned, all persons indebted to said estate are hereby notified to make payment, and those having claims against the same to present them duly authenticated for settlement. D. H. COON, Ex'r. Montrose, Aug. 20, 1867.

THE difference between their manufacture and the European is in the quality of the material, and the result is of necessity a lack of that uniformity, which is indispensable to correct work-keeping. With the eye and the hand of the most skillful operative must vary. It is a fact that except watches of the higher grades, European watches are not so accurate as the best labor of Switzerland, and the result is the worthless Ancon, Lepines and so called Patent Levers—which soon cost more in attempted repairs, than their original price. Common workmen, boys and women, buy the rough separate parts of these watches from various factories, polish and put them together, and take them to the nearest watch merchant, who stamps and engraves them with any name or brand that may be ordered.

HOW AMERICAN WATCHES ARE MADE. The American Waltham Watch is made by no such unskillful process—and by no such incompetent workmen. All the Company's operations, from the reception of the raw material under one roof, and under one watch, to the final inspection of the finished watch, are done by the same hands, and by the same men.

THE COMPANY RESPECTFULLY SUBMIT THEIR WATCHES TO THE PUBLIC. A BETTER ARTICLE FOR THE MONEY. BY MECHANICAL PROCESSES than can be made under the old-fashioned handicraft system. They manufacture watches of every grade, from a good, low priced watch, to the finest and most valuable cases, to the finest chronometer; and also ladies' watches in plain gold or the finest enamelled and jeweled cases. The superior results of all their watches is that they shall be GOOD TIMEKEEPERS. It should be remembered that, except their single low priced watches, named "Home Watch Company, Boston," ALL WATCHES MADE BY THEM ARE FULLY WARRANTED.

By a special certificate, and this warranty is good at all times against the Company's name. ROBBINS & APPLETON, 183 Broadway, New York.
