## Negro Equality.

In the course of a speech delivered by Judge Kelley, of Philadelphia, at a "black and tan" convention held at Wilmington, Delaware, on the 4th inst., he said :

a deed according to value of land, but al-"We have determined that the bondso as an agreement-five cents for each man, his broken shackles yet clinging to sheet or picce of paper upon which it is him, shall vote, shall enter the jury box, and shall have all the rights of a citizen."

This is the Radical programme. The negro is to vote, to sit beside white men in the jury box, to send his children to the public schools on a perfect equality and are liable to a special tax of \$10. But they cannot sell such products in the man. with those of white men. The Radical party in this State are pledged to carry out all these movements in favor of the negro, and hence they are an issue in this contest. White men must not forget or Pains, Rush of Blood to the Head, Dizziness, Dimness overlook this fact, and by defeating the of sight, Green Sickness, Heaviness, Fatigue on any Radicals prevent the enforcement of negro equality.

## Home Testimony against Judge Williams.

### CONSUMPTION CURABLE BY DR. SCHENCK'S MEDICINES.

TO CURE CONSUMPTION, the system must be not pared so that the lungs will heal. To accomplish this, the liver and stomach must first be cleaneed and an appointe created for good wholesome food, which, by these medicines will be digested property, and good healthy blood made; thus building up the constitution. SCHENCK'S MAN-DRAKE PILLS cleans the slowed of all billows or nuccous accumulations; and, by using the Sex Weed Tonic in con-

nection, the appetite is restored. SCHENCK'S PULMONIC SYRUP is nutricious as well as medicinal, and, by using the three remedies, all impurities are expelled from the system, and good, wholesome blood made, which will repel all disease. If patients will take these medicines according to directions, Consumption very fre-quently in its last stage yields readily to their action. Take the pills frequently, to cleanse the liver and stomach. It does not follow that because the bowels are not costive they are not required, for sometimes in diarrhers they are necessary. The stomach must be kept healthy, and an appetite created to allow the Futuronic Syrup to act on the repiratory organs properly and allay any irritation. Then all that is required to perform a permanent cure is, to prevent taking cold. Exercise about the rooms as much as possible, cat all the richest food—fat meat, game, and, in fact, anything the ap-yetite craves ; but be particular and masticate well, [3nd w. cs. mo. 1 vr

ratives. They produce 75,000 whiches a year, and make and soil not less than one-half of all the Watches sold in the United States. The difference between their manufacture and the European, is briefly this: European Watches are made almost entirely by hand, and the result is of necessity a lack of that aniformity, which is indispensable to cor-rect time-keeping. Both the eye and the hand of the most skillful operative must vary. But it is a fact that except watches of the higher grades, European watches are the product of the cheapest labor of Switzerland, and the result is the worthless Ancres, Lepines and so called Patent Levers-which soon cost more in at-tempted repairs, than their original price. Common workmen, boys and women, buy the rough separato peris of these watches from various factories, polleh and put hem together, and take them to the nearest watch merchant, who stamps and engraves them with any name or brand that may be ordered.

The Union Pacific Rail-Road Co. THEIR FIRST MORTGAGE BONDS

As an Investment.

The rapid progress of the Union Pacific Railroad, now building west irom Omaha, Nebraska, and form-ing, with its western connections, an unbroken line across the continent, attracts atteution to the railse of the First Mortgage Bonds which the Company now offer to the public. The first question select by pru-dent investors is, "Are these bonds secure?" Next, "Are they a profitable investment?" To reply in brief:

the remaining 02 miles to the caster base of the Becky Mountains are on hand, and it is under contract to be done in September. 4th. The net earnings of the sections already finished are secred times greater than the gold interest upon the First Mortrage Bonds upon such sections, and if not another mile of the road were built, the part already completed would not only p y interest and expenses, but be profitable to the Company. 5th. The Union Pacific Railroad bonds can be issued only as the road progresses, and therefore can never be in the market unless they present a *bond fds property*. 6th. Their amount is strictly limited by law to a sum equal to what is granted by the U.S. Government, and for which it takes a scond lien as its security. This amount upon the first 517 miles west from Omaha is only \$16,000 per mile. 7th. The fact that the U. S. Government, and the some of the abrowdest railroad builders of the country have already paid in free million dollars apon the stock (which is to kien a third illen), may well inspire confi-dence in a first lifen. 8th. Although it is not claimed that there can be any better securities that Governments, here are parties who consider a first mortgage upon such a property as this the very best security in the world, and who sell their Governments to reinvest in these bonds—thus securing a greater interest. 9th.
