1, Examination will open at 9 a. m. 2, Applicants will not be admitted after the class has been examined in the first branch. -3, All applicants will be examined in

two additional branches-History of United States and Theory of Teaching. 4, Provisional Certificates, only, will be granted at these examinations.

5. The examinations will be thorough and practical.

6, Applicants will supply themselves with two sheets of foolscap, pen, pencil, ink, and Fifth Reader.

7, Institutes for the instruction of teachers will be held at City School House, October 11th, Dimock Academy, October 19th, Little Meadows, November 1st. A full attendance is looked for.

SPECIAL SERIES. Special examinations will be held at Great Bend Nov. 18th, Hopbottom Nov. 19th, Montrose Nov. 20th, Rush, Granger's, Nov. 21st, Forest Lake, Nov. 22d. Jackson Corners Nov. 26th, Lenoxville Nov. 28th. After which no examination will be held. Teachers will be examined at the special examinations upon this condition: that they are already employed and present a written request and an excuse for not attending the regular series,

signed by at least three directors. It is hoped that Boards will be fully represented at each examination, as there will be a good opportunity to employ teachers, and important business will be brought before them.

Teachers should in all cases be supplied with a five cent revenue stamp.

Persons wishing prompt replies to letters relating to school matters should in-

close a stamp to pay return postage. W. W. Watson, Co. Sup't. New Milford, Sept. 11th, 1867.

Charge Home, Democrats!

Connecticut and Maine have turned the left wing of the Radical column, and Kentucky and Californa the right. It now only remains for Pennsyivania to pierce the centre of their line, and the enemy will be routed "horse, foot and dragoons." Old Berks will pour a regular broadside into the ranks of the enemy, and no mis take. The great battle to be fought in the Keystone State on the second Tuesday of October will result in the in the total discomfigure of the negro-equality partv. Charge home, then, upon the enemy Democrats, and give the vile disunionists no rest until they are entirely annihilated. -Reading Gazette:

Radical Defeat.

"I FEAR THAT WE SHALL LOSE PENNSYLVANIATHIS NEXT ELEC-TION. I DO NOT THINK WE HAVE EARNESTNESS ENOUGH IN THE STATE TO UNITE AND DRAW OUT THE REPUBLICAN STRENGTH, WHILE THE REPUBLICAN POR-TION OF OUR LEGISLATURE HAS BEEN SO OPENLY, NOTORIOUSLY AND SHAMEFULLY CORRUPT, THAT ALL THE HONEST PEOPLE IN THE STATE ARE DISHEART. ENED AND DISGUSTED."- Thad. Stevens.

J. Thomas' Patent Atmospheric CHURN DASH!

Patented May 7, 1867. The most Important and Valuable Invention of the 19th Century.

1. This Dasher is superior to any other, by being as simple as the old Dasher, and combining the atmospheriq principles therewith, and the Butter Gatherer 2. It is superior to all others, inasmuch as the same power applied to this in like mechanical operations will make one fourth more reciprocations.

3. It is superior to all others, inasmuch as it produces the Butter in a much shorter time.

4. It is superior to any other, inasmuch as it produces a much better quality of Butter.

5. It is superior to any other Patent Churn, inasmuch as it is 500 per cent, cheaper than any other.

It is well known to Dairymen and others, that Butter is contained in minute globules or sacks, covered with a membrane, and requires the action of air to prepare the covering to be removed by friction. The Scientific

"If cream is dashed against a hard substance, or mashed between bars or rollers, it breaks the globules and becomes oily, by destroying the grain. It should be thrown into currents and counter currents by the action of air, causing a friction by the action of by the action of air, causing a friction by the action of the currents against each other, removing the covering without breaking or bursting the globules."

This is the principle which the inventor of this Dash endeavored to keep in view, and the result shows a much larger yield of Butter obtained in less time than by any other Dasher.

Experiments have proven that any other method except pumping air through the cream, will not penetrate sufficiently to oxygenize all the globules preparators to concentrating the Butter. Throwing it into the air by clappers or old fashioned Dashers, does not sufficiently expose it to the air to bring out the Butter.

The above Patent Dasher has been purchased for Susquehanna County by the undersigned. The process of churning can be seen at any time, in a Glass Churn, at Baldwin, Allen & McCain's store. An agent will can vass the county acon as possible, to sell the Dasher for individual rights; also township rights will be Montrose, July 23, 1867.--tf
