J. Thomas'. Patent Atmospheric CHURN DASH!

Patented May 7, 1867.

The most Important and Valuable Invention of the 19th Century.

1. This Dasher is superior to any other, by being as simple as the old Dasher, and combining the atmospheric principles therewith, and the Butter Gatherer 2. It is superior to all others, inasmuch as the same power applied to this in like mechanical operations will make one fourth more reciprocations.

3. It is superior to all others, inasmuch as it produces the Butter in a much shorter time.

4. It is superior to any other, inasmuch as it produces a much better quality of Butter.

5. It is superior to any other Patent Churn, inasmuch as it is 500 per cent, chesper than any other.

It is well known to Dairymen and others, that Butter is contained in minute globules or sacks, covered with a membrane, and requires the action of air to prepare the covering to be removed by friction. The Scientific American stre.

American says:

"If cream is dashed against a hard substance, or mashed between bars or rollers, it breaks the gibbules and becomes oily, by destroying the grain. It should be thrown into currents and counter currents by the action of air, causing a friction by the action of the currents against each other, removing the covering without breaking or bursting the globules."

This is the principle which the inventor of this Dash endeavored to keep in view, and the result shows a much larger yield of Butter obtained in less time than by any other Dasher.

Experiments have proven that any other method except pumping air through the cream, will not penetrate sufficiently to oxygenize all the globules preparatory to concentrating the Butter. Throwing it into the air by clappers or old fashioned Dashers, does not sufficiently expose it to the air to bring out the Butter.

The above Patent Dasher has been purchased for Susquehanna County by the undersigned. The process of churning can be seen at any time, in a Glass Churn, at will can the county soon as possible, to sell the Dasher for individual rights; also township rights will be

FOUTZ'S CELEBRATED HORSE AND CATTLE POWDERS. This preparation, long and favorably known, will thoroughly reinvigorate broken-down and low-spirited horses, by strenthening and cleansing the stomach and low-spirited horses.

Intestines.

It is a sure preventive of all diseases incident to this animal, such as Lung Fever, Glanders, Yellow Water, Heaves, Coughs, Distemper, Fevers, Founder, Loss of Appetite and Vital Energy &c. Its use improves the wind, increases the appetite, gives a smooth and glossy wind, increases the appetite, gives a smooth and glossy skin, and transforms the miserable skeleton into a fine looking and spirited horse. TO KEEPERS OF COWS.

this preparation is invaluable. It increases the quantity and improves the quality of the milk. It has been proven by actual experiment to increase the quantity of milk and cream twenty per cent. and make the butter firm and sweet. In fattening cattle, it gives them an a petite, loosens their hide, and makes then thrive much faster. IN ALL DISEASES OF SWINE, such as Coughs, Ulcers in the Lungs, Liver, &c., this article acts as a specific. By putting from one half a paper to a paper in a barrel of swill the above diseases will be eradicated or entirely prevented. If given is time, a certain preventive and cure for the Hog Choldina. Price 25 cents per paper, or 5 papers for \$1.
