sep. 3 Gen'l Passenger Agent. Gen'l Sup't.

J. Thomas' Patent Atmospheric CHURN DASH!

Patented May 7, 1867. The most Important and Valuable Invention of the 19th Century.

1. This Dasher's superior to any other, by being as simple as the old Dasher, and combining the atmospheric principles therewith, and the Butter Gatherer. 2. It is superior to all others, insemuch as the same power applied to this in like mechanical operations will make one fourth more reciprocations.

3. It is superior to all others, inasmuch as it produces the Butter in a much shorter time.

4. It is superior to any other, luasmuch as it produces a much better quality of Butter.

5. It is superior to any other Patent Churn, inasmuch as it is 500 per cent cheaper than any other. The American Watch Company, of Waltham, Mass., respectfully submit that their Watches are cheaper, more accurate, less complex, more durable, better adapted for general use, and more easily kept in order and repaired than any other watches in the market. They are simpler in structure, and therefore stronger, and less likely to be injured than the majority of foreign watches, which are composed of from 125 to 500 pieces, while in an old English watch there are more than 700 parts. How they run under the hardest trial watches can have, is shown by the following letter: It is well known to Dairymen and others, that Entter is contained in minute globules or sacks, covered with a membrane, and requires the action of air to prepare the covering to be removed by friction. The Scientific American says:

American says:

"If cream is dashed against a hard substance, or mashed between burs or rollers, it breaks the globules and becomes oily, by destruying the crain. It should be thrown into currents and counter currents by the action of air, causing a friction by the action of the currents against each other, removing the covering without breaking or burstic g the globules."

Tais is the principle which the inventor of this Dash endeavored to keep in view, and the result shows a much larger yield of Butter obtained in less time than by any other Dasher.

Experiments have proven that any other method except pumping air through the cream, will not penetrate sufficiently to oxygenize all the globules preparatory to congentrating the Butter. Throwing it into the air by clappers or old fashioned Dashers, does not sufficiently expose it to the air to bring out the Butter. FENN. RAILROAD COMPANY.

OFFICE OF THE GENERAL SUPERINKENDENT. I
ALTOONA, Pa. 15 Dec., 1866.

Gentlemen: The watches manufactured by you have been in use on this railroad for several years by our engine nen, to whom we furnish watches as a part of our equipment. There are now some three hundred of them carried on our line, and we consider them good and reliable time-keepers. Indeed, I have great satisfaction in saying your watches give us less trouble, and have worn and do wear much longer without repairs than any watches we have ever had in use on this road. As you are aware, we formerly trusted to those of English manufacture, of acknowledged good reputation; but as a class they never kept time as correctly, nor have they done as good service, as yours.

In these statements I am sustained by my predecessor, Mr. Levis, whose experience extended over a series of years.

Respectfully.

EDWARD H. WILLIAMS,

General Supcrintendent.

The above Patent Dasher has been purchased for Susquehanna County by the undersigned. The process of charning can be seen at any time, in a Glass Churn, at Baldwin, Allen & McZain's store. An agent will can was the county soon as possible, to sell the Dasher for individual rights; also township rights will be sold. A. BALDWIN. Montrose, July 23, 1867.—tf

Please Read this Carefully.

THE subscribers have entered into a partnership for the purpose of carrying on the

Merchant Tailoring

Home Watch Company, Boston, Mass.
All of these, with the exception of the Home Watch pany to be of the best material, on the most approved principle, and to possess every requisite for a reliable time-keeper. Every dealer selling these Watchs is provided with the Company's printed card of gnarantee which should accompany each Watch sold, so that hay term may feel sure that they are purchasing the genuine article. There are numerous counterfeits and imitations of our Watches sold throughout the country, and we would caution purchasers to be on their gnard against imposition.

Any grades of Waltham Watches may be purchased of Watch Dealers throughout the country.

THE HOWE MACHINE CO'S SEWING MACHINES,

699 BROADWAY,

FOR FAMILIES & MANUFACTURERS.

THESE WORLD RENOWNED SEWING MACHINES

Were awarded the highest Premium at the World's Fair in London, and six first premiums at the New York State Fair of 1866, and are

Celebrated for doing the best work, using a mach smaller needle for the same thread than any other machine, and by the introduction of the most approved machinery, we are now able to supply the very best machines in the world. \$500,000 These machines are made at our new and

spacious Factory at Bridgeport, Conn., under the immediate supervision of the President of the Company, Elias Howe, Jr., the

ORIGINAL INVENTOR OF THE SEWING MA-CHINE.

They are adapted to all kinds of Family Sewing, and to the use of seamstresses, dress makers tailors, manufacturers of Shirts, collars, skirts, cloaks, mantillas, clothing, hats, caps, corsets, boots, shoes, harness, Saddels, linen goods, mubrellas, parasols, etc. They work equally well upon silk, linen, woolen and cotton goods with silk, cotton or linen thread. They will seam, quilt, gather, fell, cord, braid, bind, and perform every species of sewing, making a beautiful and perfect sit h, ailke on both sides of the articles sewed.

The Stitch invented by Mr. Howe, and made on this Machine, is the most popular and durable, and all Sewing Machines are subject to the prin-

ciple invented by him. SEND FOR A CIRCULAR. SIBLEY & STOOPS, General Agents,

STEVENS HOUSE, 21, 23, 25 & 27 Broadway, N. Y.

Opposite Bowling : Green: ON THE EUROPEAN PLANS

ON THE EUROPEAN' PLAN.

The STEVENS AOUSE is well and widely known to the travelling public. The location is especially suitable to merchants and business men; it is in close proximity to the business part of the city—is on the highway of Southern and Western travel—and adjacent to all the principal Railroad and Steamboot depots.

The Stevens House has liberal accommodations for over 300 guests—it is well furnished, and possesses exery modern improvement for the comfort and entertainment of its inmates. The rooms are spacious and well ventilated—provided with gas and water—the attendance is prompt and respectful—and the table is supplied with every delicacy of the season—at moderate rates.

FOUTZ'S CELEBRATED HORSE AND CATTLE POWDERS.

This preparation, long and favorably known, will thoroughly reinvigorate broken down and low-spirited horses, by strenthening and cleansing the stomach and intertines. intestines.
It is a sure preventive of all diseases incident to this animal, such as Lung Fever, Glanders, Yellow Water, Heaves, Congns, Distemper, Pevers, Founder, Loss of Appetite and Vital Energy, &c. Its use improves the wind, increases the appetite, gives a smooth and glossy skin, and transforms the miserable skeleton into a fine looking and spirited horse.

TO KEEPERS OF COWS,

this preparation is invaluable. It increases the quantity and improves the quality of the milk. It has been this preparation is invaluable. In the three a quantity and improves the quality of the milk. It has been proven by actual experiment to increase the quantity of milk and cream twenty per cent and make the butter firm and sweet. In fattening cattle, it gives them an a petite, loosens their hide, and makes them thrive much feeter.

IN ALL DISEASES OF SWINE, such as Coughs, Ulcers in the Lings, Liver, &c., this article acts as a specific. By putting from one half a paper to a paper in a barrel of swill the above diseases will be eradicated or entirely prevented. If given in time, a certain preventive and chre for the Hog Cholera. Price 25 cents per paper, or 5 papers for \$1. Prepared by
