- Just after the death of the flowers, And before they are buried in snow, There comes a festival season,
- There comes a festival season.

 When Nature is all aglow.

 Aglow with a mystical splendor

 That rivals the brightness of Spring—

 Aglow with a beauty more tender

 That anght which fair Summer could bring.

- Some spirit akin to the minbow
 Then borrows its magicabilyes,
 And manifes the far spreading landscape
 In hues that bewilder the eyes.
 The Son from his cloud-pillowed chamber,
 Smiles soft on a vision so.gay,
 And dreams that his favorite children,
 The Flowers, have not yet passed away.

- There's a luminous mist on the mountains,
 A light, azure haze in the air.
 As if angels, while heavenward soaring,
 Had left their bright robes floating there;
 The breeze is so soit, so caressing,
 It seems a mute token of love,
 And floats to the heart like a blessing
 From some happy spirit above.
- These days, so serene and so charming,
 Awaken a dreamy delight—
 A tremulous, tearful enjoyment,
 Like sort strains of music at night;
 We know they are fading and fleeting,
 That quickly, too quickly, they'll end,
 And we watch them with yearning affection,
 As at parting we watch a dear friend.
- Oh! beautiful Indiau Summer!
 Thou favorite child of the year—
 Thou darling, whom Nature enriches
 With gifs and adornments so dear!
 How fain would we woo thee to linger
 On mountain and meadow awhile,
 For our hearts, like the sweet haunts of Nature,
 Rejoice and grow young in thy smile.
- Not alone to the sad fields of Autumn,
- Not alone to the ead folds of Autumn,
 Dost thon a lost brightness restore,
 But thon bringest a world-weary spirit
 Sweet dreams of its childhood once more.
 Thy lovliness fills us with memori: 6
 Of all that was brightest and best— Thy peace and schedity offer A foretaste of heavenly rest.

Proofs of the Superior Quality PATENT CORSET SUPPORTER, AMERICAN WATCH MADE AT

Waltham, Mass.

The American Watch Company, of Waltham, Mass., respectfully submit that their Watches are cheaper, more accurate, less complex, more durable, better adapted for general use, and more easily kept in order and repaired than any other watches in the market. They are simpler in structure, and therefore stronger, and lesse likely to be injured than the majority of foreign watches, which are composed of from 125 to 300 pieces, while in an old English watch there are more than 700 parts. How they run under the hardest trial watches can have, is shown by the following letter:

PENN. RAILBOAD COMPANY.

OFFICE OF THE GENERAL SUTERINTENDENT,
ALTONA, Pa., 15 Dec., 1866.

Gentlemen: The watches manufactured by you have been in use on this railroad for several years by our enginemen, to whem we furnish watches as a part of our equipment. There are how some three hundred of them carried on our line, and we consider them good and reliable time-keepers. Indeed, I have great satisfaction in saying your watches give us less trouble, and have worn and do wear much longer without repairs than any watches we have ever had in use on this road. As you are aware, we formerly trusted to those of English manufacture, of acknowledged good reputation; but as a class they never kept time as correctly, nor have they done as good service, as yours.

In these statements I am sustained by my predecessor, Mr. Lewis, whose experience extended over a series of years.

EDWARD H. WILLIAMS, General Superintendent.

American Watch Company, Waltham.

We make now five different grades of watches, named respectively as follows:

Appleton, Tracy & Co., Waltham, Mass. PENN. RAILBOAD COMPANY.

Appleton, Tracy & Co., Waltham, Mass. Waltham Watch Company, Waltham, Mass. P. S. Bartlett, Waltham, Mass. P. S. Bartlett, Waltham, Mass. Boston, Mass.

Wm. Ellery, Boston, Mass.

Home Watch Company, Boston, Mass.
All of these, with the exception of the Home Watch Company, are warranted by the American Watch Company to be of the best material, on the most approved principle, and to possess every requisite for a reliable time-keeper. Every dealer selling these Watchss is provided with the Company's printed card of guarantee which should accompany each Watch sold, so that buyers may feel sure that they are purchasing the genuine article. There are numerous counterfeits and imitations of our Watches sold throughout the country, and we would caution purchasers to be on their guard against imposition.

Any grades of Waltham Watches may be purchased of Watch Dealers throughout the country.

J. Thomas' Patent Atmospheric ${f CHURN\ DASH!}$

Patented May 7, 1867. The most Important and Valuable Invention of the 19th Century.

1. This Dasher is superior to any other, by being as simple as the old Dasher, and combining the atmospheric principles therewith, and the Butter Gatherer 2. It is superior to all others, inasmuch as the same power applied to this in like mechanical operations will make one fourth more reciprocations.

3. It is superior to all others, inasmuch as it produces the Butter in a much shorter time.

1. It is superior to any other, inasmuch as it produces a much better quality of Butter.

5. It is superior to any other Patent Churn, inasmuch as it is 500 per cent, cheaper than any other.

It is well known to Dairymen and others, that Butter is contained in minute globules or eacks, covered with a membrane, and requires the action of air to prepare the covering to be removed by friction. The Scientific American says:

American says:

"If cream is dashed against a hard substance, or mashed between bars or rollers, it breaks the globules and becomes oily, by destroying the grain. It should be thrown into currents and counter currents by the action of air, causing a friction by the action of the currents against each other, removing the covering without breaking or bursting the globules."

This is the principle which the inventor of this Dash endeavored to keep in view, and the result shows a much larger yield of Butter obtained in less time than by any other Dasher.

Experiments have proven that any other method except pumping air through the cream, will not penetrate sufficiently to oxygenize all the globules preparatory to concentrating the Butter. Throwing it into the air by clappers or old fashioned Dashers, does not sufficiently expose it to the air to bring out the Butter.

The above Patent Dasher has been purchased for Susquehanna County by the undersigned. The process of churning can be seen at any time, in a Glass Churn, at Baldwin, Allen & McCain's store. An agent will canvast the county soon as possible, to sell the Dasher for individual rights; also township rights will be sold. sold. Montrose, July 23, 1867.—tf A. BALDWIN.

STEVENS HOUSE 21, 23, 25 & 27 Broadway, N. Y. Opposite Bowling Green.

ON THE EUROPEAN PLAN. ON THE EUROPEAN PLAN.

THE STEVENS AOUSE is well and widely known to the travelling public. The location is especially suitable to merchants and business men; it is in close proximity to the business part of the city—is on the highway of Southern and Western travel—and adjacent to all the principal Railroad and Steamboat depots.

The Stevens House has liberal accommodations for over 300 guests—it is well furnished, and possesses every modern improvement for the comfort and entertainment of its inmates. The rooms are spacious and well ventilated—provided with gus and water—the attendance is prompt and respectful—and the table is supplied with every delicacy of the season—at moderate rates.

Kingston, Nov. 25. FOUTZ'S CELEBRATED HORSE AND CATTLE POWDERS.

This preparation, long and favorably known, will thoroughly reinvigorate broken-down and low-spirited horses, by strenthening and cleansing the stomach and latestines. Intestines.
It is a sure preventive of all diseases incident to this animal, such as Lung Fever, Glauders, Yellow Water. Heaves, Coughs, Distemper, Fevers, Founder, Loss of Appetite and Vital Endry, &c. Its use improves the wind, increases the appetite, gives a smooth and glossy skin, and transforms the miserable skeleton into a dne legiting and sujetical borse.

TO KEEPERS OF COWS,

this preparation is invaluable. It increases the quantity and improves the quality of the milk. It has been proven by actual experiment to increase the quantity of milk and cream twenty per tend and make the butter firm and sweet. In fattening cattle, it gives them an a petite, loosens their hide, and makes them thrive much faster. IN ALL DISEASES OF SWINE,

such as Coughs, Ulcers in the Lungs, Liver, &c., this article acts as a specific. By putting from one half a paper to a paper in a barrel of swill the above diseases will be cradicated or entirely prevented. If given in time, a certain preventive and cure for the Hog Chalera.
