There will be a Democratic Jubilee and Buck Roast at Meshoppen, on Wednesday, 30th inst., for the purpose of celebrating the glorious Democratic victories in Penns ylvania and elsewhere.

Broke Jail.

On Tuesday evening last, Fred. Austin and George Shippy escaped from the Montroso jail. A pair of horses were stolen from Milton Griffis in West Bridgewater that night, but were found next day by S. D. Turrell, in Franklin. The horses had evidently been ridden hard and then left. It is reported that the men were seen near the Allard schoolhouse, in the morning, travelling westward; and we also hear that Shippy was seen below Springville some days later.

The sheriff offers \$50 reward for the arrest of each of them.

Austin is about 28 years old; 5 feet 7 inches high, thin in flesh, dark complexion. large hazel eyes, and dark beard-wore M. Smith. dark clothes is a gentleman in appearauce, and reserved in conversation. Shippy is about 21 years of age, 5 ft. 6 inches high, well proportioned, light complexion, wore grayish clothes, and looks like a W. Ressegnie. hard case.

Sudden Bereavement.

Almost upon the landing of Hon. Geo. W. Woodward from the vessel which had conveyed him to the shores of his native land, the telegraph bore to him the mournful message that death had been busy in his family circ'e during his absence. His son William, who had been ill for some three or four weeks, died in Wicks-Berre on Monday 14th. A sad greeting indeed.

Mr. Woodward was about 24 years of Morgan Shutts. age, and his suiden death will be deeply mourned by a large circle of friends and acquaintances - Scranton Register.

Honey Sained.

-, of Hopbottom, this county, recently purchased some honey, and took it to Scranton for sale. A revonue officer called on him for a peddler's special tax receipt, (formerly called li-ceuse), but as he had none, the sweets of industry,-about 50 pounds,-were seized "according to act of Congress," and turned over to Uncle Sam's treasury.

Persons can peddle the products of their own farm or garden without pay-" at of tax; but those who attempt to. 1 in purchased goods without payment special tax, are liable to loss of the nine, &c. The act of Congress is very severe in its operation, and we trust our readers will avoid all risk of penalties.

Truth and Foetry.

"MELANCHOLY DAYS."—Bryant, "our sweetest poet of nature," as an ardent admirer styles him, sings of this season— "The melancholy days have come, The saddest of the year."

Bryant must have meant the Black Republicans. If so, he was both a poet and a prophet. For to that party, how truly, "the melancholy days have come," and surely, they are "the saddest of the year;" but as for Democrats, the lovely weather of the past few weeks has been so much in accord with the other occurrences, from Maine to California, that, to them, Bryant's lines have no significance.

The new Silver Tips recently introduced by the American Shoe Tip Company are decidedly ornamental. A metal tip adapted to first-class shoes has long been needed, for children will wear holes in the toes of even the highest cost shoes in a few days, unless protected by metal tips.—Boston Journal.

Proofs of the Superior Quality AMERICAN WATCH Waltham, Mass.

Montrose, Sept. 21, 1867.

The American Watch Company, of Waltham. Mass, respectfully submit that their Watches are cheaper, more accurate, less complex, more durable, better adapted for general use, and more easily kept in order and repaired than any other watches in the market. They are simpler in structure, and therefore stronger, and less likely to be injured than the majority of foreign watches, which are composed of from 125 to 300 pieces, while in an old English watch there are more than 700 parts. How they run under the hardest trial watches can have, is shown by the fullowing letter:

PENN. RATLROAD COMPANY.

OFFICE OF THE GENERAL SUPPRINTENDENT, I ALTOONA, Pa., 15 Dec., 1856.

Gentlemen: The watches manufactured by you have been in use on this railroad for several years by our enginemen, to whom we furnish watches as a part of our equipment. There are now some three hundred of them carried on our line, and we consider them good and reliable time-keepers: Indeed, I have great satisfaction in saying your watches give us less trouble, and have worh and do wear much longer without repairs than any watches we have ever had in use on this road. As you are aware, we formerly trusted to those of Finglish manufacture, of acknowledged good reputation; but as a class they never kept time as correctly, nor have they done as good service, as yours.

In these statements I am sustained by my predecessor, Mr. Lewis, whose experience extended over a series of years.
