A Library of Universal Information.

THE NEW

American Cyclopædia:

A POPULAR DICTIONARY OF GENERAL KNOWLEDGE.

Edited by GEORGE RIPLEY and CHARLES A. DANA, aided by a numerous select corps of writers, in all branches of science, art, and literature.

In 16 large volumes, 8vo. 750 double-column pages in each volume.

The leading claims to public consideration which the New American Cyclopædia possesses may be thus briefly stated:

"1. It surpasses all other works in the fulness and ability of the articles relating to the United States.

"2. No other work contains so many reliable biographies of the leading men of this and other nations. In this respect it is far superior even to the more bulky Encyclopædia Brittanica.

"3. The best minds in this country have been employed in enriching its pages with the latest data, and the most recent discoveries in every branch of manufactures, mechanics, and general science.

"4. It is a library in itself, where every topic is treated, and where information can be gleaned which will enable a student, if he is so disposed, to consult other authorities, thus affording him an invaluable key to knowledge.

"5. It is neatly printed, with readable type, on good paper, and contains a most copious index.

"6. It is the only work which gives any thing approaching correct descriptions of cities and towns of America, or embraces reliable statistics showing the wonderful growth of all sections."

Every one that reads, every one that mingles in society, is constantly meeting with allusions to subjects on which he needs and desires further information. In conversation, in trade, in professional life, on the farm, in the family, practical questions are continually arising, which no man, well read or not, can always satisfactorily answer. If facilities for reference are at hand, they are consulted, and not only is the curiosity gratified, and the stock of knowledge increased, but perhaps information is gained and ideas are suggested that will directly contribute to the business success of the party concerned.

A Cyclopædia is preeminently the work for our country and generation. This is the age of steam. No one has time to grope among a hundred different works for every little fact required, without the certainty of finding it at last. With a Cyclopædia, embracing every conceivable subject, and having its topics alphabetically arranged, not a moment is lost. The matter in question is found at once, digested, condensed, stripped of all that is irrelevant and unnecessary, and verified by a comparison of the best authorities. Moreover, while only men of fortune can collect a library complete in all the departments of knowledge, a Cyclopædia, worth in itself for purposes of reference at least a thousand volumes, is within the reach of all,—the clerk, the merchant, the professional man, the farmer, the mechanic. In a country like ours, where the humblest may be called to responsible positions requiring intelligence and general information, the value of such a work cannot be over-estimated.

PUBLISHED ONE VOLUME ANNUALLY:

REGISTERING ALL THE IMPORTANT EVENTS OF EACH YEAR—VALUABLE AS A WORK OF REFERENCE.

"It is an enterprise of immense value to the public, and ought to be in every library, public and private, as an invaluable book of reference."—*Atlas and Argus, Albany, N. Y.*

"We can confidently and conscientiously recommend the 'Annual Cyclopædia' to all who would have an accurate and readable history of contemporary events close at hand and as a safe work of reference.—*Evening Traveller.*

"It is indeed a most excellent work. It is thorough and reliable, and just such a work as is greatly needed, a faithful chronicler of important events, too numerous to be remembered, and of too much account to be lost."—*Cleveland Daily Plain Dealer.*

LARD OIL, and a great variety of OILS or MACHINERY, for sale by ABEL TURRELL.

THE HOWE MACHINE CO'S SEWING MACHINES,

699 BROADWAY, NEW YORK.

FOR FAMILIES & MANUFACTURERS.

THESE WORLD RENOWNED SEWING MACHINES

Were awarded the highest Premium at the World's Fair in London, and six first premiums at the New York State Fair of 1866, and are

Celebrated for doing the best work, using a much smaller needle for the same thread than any other machine, and by the introduction of the most approved machinery, we are now able to supply the very best machines in the world.

These machines are made at our new and spacious Factory at Bridgeport, Conn., under the immediate supervision of the President of the Company, Elias Howe, Jr., the

ORIGINAL INVENTOR OF THE SEWING MACHINE.

They are adapted to all kinds of Family Sewing, and to the use of seamstresses, dress makers, tailors, manufacturers of Shirts, collars, skirts, cloaks, mantillas, clothing, hats, caps, corsets, boots, shoes, harness, Saddles, linen goods, umbrellas, parasols, etc. They work equally well upon silk, linen, woolen and cotton goods with silk, cotton or linen thread. They will seam, quilt, gather, fell, cord, braid, bind, and perform every species of sewing, making a beautiful and perfect stitch, alike on both sides of the articles sewed.

The Stitch invented by Mr. Howe, and made on this Machine, is the most popular and durable, and all Sewing Machines are subject to the principle invented by him.

J. Thomas'

Patent Atmospheric CHURN DASH!

Patented May 7, 1867.

The most Important and Valuable Invention of the 19th Century.

1. This Dasher is superior to any other, by being as simple as the old Dasher, and combining the atmospheric principles therewith, and the Butter Gatherer.

2. It is superior to all others, inasmuch as the same power applied to this in like mechanical operations will make one fourth more reciprocations.

3. It is superior to all others, inasmuch as it produces the Butter in a much shorter time.

4. It is superior to any other, inasmuch as it produces a much better quality of Butter.

5. It is superior to any other Patent Churn, inasmuch as it is 500 per cent. cheaper than any other.

It is well known to Dairymen and others, that Butter is contained in minute globules or sacks, covered with a membrane, and requires the action of air to prepare the covering to be removed by friction. The Scientific American says:

"If cream is dashed against a hard substance, or mashed between bars or rollers, it breaks the globules and becomes oily, by destroying the grain. It should be thrown into currents and counter currents by the action of air, causing a friction by the action of the currents against each other, removing the covering without breaking or bursting the globules."

This is the principle which the inventor of this Dash endeavored to keep in view, and the result shows a much larger yield of Butter obtained in less time than by any other Dasher.

Experiments have proven that any other method except pumping air through the cream, will not penetrate sufficiently to oxygenize all the globules preparatory to concentrating the Butter. Throwing it into the air by clappers or old fashioned Dashers, does not sufficiently expose it to the air to bring out the Butter.

The above Patent Dasher has been purchased for Susquehanna County by the undersigned. The process of churning can be seen at any time, in a Glass Churn, at Baldwin, Allen & McCain's store. An agent will canvass the county soon as possible, to sell the Dasher for individual rights; also township rights will be sold.

FOUTZ'S CELEBRATED HORSE AND CATTLE POWDERS.

This preparation, long and favorably known, will thoroughly reinvigorate broken-down and low-spirited horses, by strengthening and cleansing the stomach and intestines.

It is a sure preventive of all diseases incident to this animal, such as Lung Fever, Glanders, Yellow Water, Heaves, Coughs, Distemper, Fevers, Founder, Loss of Appetite and Vital Energy, &c. Its use improves the wind, increases the appetite, gives a smooth and glossy skin, and transforms the miserable skeleton into a fine looking and spirited horse.

TO KEEPERS OF COWS,

this preparation is invaluable. It increases the quantity and improves the quality of the milk. It has been proven by actual experiment to increase the quantity of milk and cream twenty per cent and make the butter firm and sweet. In fattening cattle, it gives them an appetite, loosens their hide, and makes them thrive much faster

IN ALL DISEASES OF SWINE,

such as Coughs, Ulcers in the Lungs, Liver, &c., this article acts as a specific. By putting from one half a paper to a paper in a barrel of swill the above diseases will be eradicated or entirely prevented. If given in time, a certain preventive and cure for the Hog Cholera. Price 25 cents per paper, or 5 papers for $1. Prepared by
