#### Sentimental Dilemma.

BY OLIVER WENDELL HOLMES.

Now by the blest Paphian queen, Who heaves the breast of sweet sixteen By every name I cut on bark Before my morning star grows dark; By Hymen's torch, by Cupid's dark; By all that thrills the beating heart : The bright black eye, the melting blue-I cannot choose between the two.

I had a vision in my dreams; I saw a row of twenty beams; From every beam a rope was hung, In every rope a lover swung; I asked the hue of every eve That bade each luckless lover die; Ten shadowy lips said heavenly blue. And ten accused the darker hue.

I asked a matron which she deemed The fairest light of beauty beamed; She answered, some tho't both were fair-Give her blue eyes and golden hair. I might have liked her judgment well, But as she spoke she rang a bell, And all her girls, nor small nor few, Came marching in—their eyes were blue.

I asked a maiden; back she flung The locks that round her forehead hung, And turned her eye, a glorious one, Bright as a diamond in the sun, On me, until beneath its rays, I felt as if my hair would blaze; She liked all eve but eves of green; She looked at me; what could she mean

Ah! many lids Love larks between-Nor heeds the coloring of his screen; And when his random arrows fly, The victim falls, but knows not why, Gaze not upon his shield of jet, The shaft upon the string is set; Look not beneath his azure veil, Tho' every limb were cased in mail.

Well, both might make a martyr break The chain that bound him to the stake; And both, with but a single ray, Can melt our very hearts away; And both when balanced, hardly seem To stir the scales, or rock the beam; But that is dearest all the while Tuat wears for us the sweetest smile.

#### Shelter for Cows.

As the season for cold storms is near at hand, it is especially important to provide shelter for stock-particularly that pertaining to the dairy department - some farmers are culpably remiss with reference to their milch cows. They will not thrive and be productive if left to shelter of fence corners during the prevalence of storms of rain and sleet, where they become so chilled as to assume a crescent shape, and tremble and shiver as if under the influence of an ague fit. Thus situated milch cows cannot prove productive, nor render that return to the farmer which they would do if suitably cared for during the inclement weather of the autumn and winter. As a question of humanity, as well as of interest, farmers should see to it that their stock is not allowed to suffer for want of att ntien in this respect .- Rural New

### BUENS & NICHOLS,

A Library of Universal Information.

TO STATE OF THE PROPERTY OF TH

#### THE NEW American Cyclopædia: A POPULAR DICTIONARY OF GENERAL

KNOWLEDGE. Edited by Ground Riplet and Chantes A. Dana, aided by a numerous select corps of writers, in all branches of science, art, and literature.

In 16 large volumes, 800. 750 double-column pages in each volume.

In 16 large volumes, 8vo. 750 double-column pages in each volume.

The leading claims to public consideration which the New American Cyclopedia possesses may be thus briefly stated:

"1. It surpasses all other works in the funces and ability of the articles relating to the United States.

"2. No other work contains so many reliable biographies of the leading men of this and other nations. In this respect it is far superior even to the more bulky Encyclopedia Brittanica.

"3. The best minds in this country have been employed in enriching its pages with the latest data, and the most recent discoveries in every branch of manufactures, mechanics, and general science.

"4. It is a library in itself, where every topic is treated, and where information can be glean d which will enable a student, if he is so disposed, to consult other authorities, thus shording him an invaluable key to knowledge.

"5. It is nearly printed, with readable type, on good paper, and contains a most copious index.

"6. It is the only work which gives any thing approaching correct descriptions of ciries and towns of America, or embraces reliable statistics showing the wonderful growth of all sections."

Every one that reads, every one that mingles in society, is constantly meeting with allusions to subjects on which he needs and desires in their information. In conversation, in trade, in professional life, on the farm, in the family, practical questions are continually arising, which no man, well read or not, can always satisfactorily answer. If facilities for reference are at hand, they are consulted, and not only is the curiosity gratined, and the stock of knowledge increased, but perhaps information is gained and diess are suggested that will directly contribute to the business success of the party concerned.

A Cyclopradia is preeminently the work for our conn-

directly contribute to the business success of the party concerned.

A Cyclopmedia is preeminently the work for our country and generation. This is the age of steam. No one has time to grope among a hundred different works for every little fact required, without the certainty of finding it at last. With a Cyclopmedia, embracing every conceivable subject, and having its topics alphabetically arranged, not a moment is lost. The matter in question is found at unce, digested, condensed, stripped of all that is irrelevant and annecessary, and verified by a comparison of the best authorities. Moreover, while only men of fortune can collect a library complete in all the departments of knowledge, a Cyclopmedia, worth in itself for purposes of reference at least a thousand volumes, is within the reach of all,—the clerk, the merchant, the professional man, the farmer, the mechanic. In a country like ours, where the humblest may be colled to responsible positions requiring intelligence and general information, the value of such a work cannot be over-estimated.

PRICE AND STYLE OF BINDING.

PRICE AND STYLE OF BINDING. 

#### The Annual Cyclopædia. Commenced in 1861.

SIX VOLUMES NOW OUT. The same price per volume and uniform with the New American Cyclopædia. PUBLISHED ONE VOLUME ANNUALLY. REGISTERING ALL THE IMPORTANT EVENTS OF EACH TEAR-VALUABLE AS A

WORK OF REFERENCE. "It is an enterpise of immense value to the public, and ought to be in every library, public and private, as an invaluable book of reference."—Atlas and Argus, Albany, N. Y.

"We can confidently and conscientiously recommend the 'Annual Cyclopædia' to all who would have an accurate and readable history of contemporary events close at hand and as a safe work of reference. Freque ore at hand and as a safe work of reterence.- Erening

It is indeed a most excellent work. It is thorough and reliable, and just such a work as is greatly needed, a faithful chronicler of important events, too numerous to be remembered, and of too much account to be lost."

— Cleveland Daily Plain Dealer.

## THE HOWE MACHINE CO'S SEWING MACHINES

699 BROADWAY. NEW YORK.

### FOR FAMILIES & MANUFACTURERS.

#### THESE WORLD RENOWNED **SEWING MACHINES**

Were awarded the highest Premium at the World's Fair in London, and six first premiums at the New York State Fair of 1866, and are

Celebrated for doing the best work, using a much smaller needle for the same thread than any other ma-ehine, and by the introduction of the most approved machinery, we are now able to supply the very best ma-chines in the world.

These machines are made at our new and spacious Factory at Bridgeport, Conn., under the immediate supervision of the President of the Company, Elias Howe, Jr., the

ORIGINAL INVENTOR OF THE SEWING MA-CHINE.

They are adapted to all kinds of Family Sewing, and to the use of seamstresses, dress makers, tallors, manufacturers of Shirts, collars, skirts, cloaks, mantillas, clothing, hats, caps, corsets, boots, shoes, harness, Saddles, linen goods, umbrellas, parasols, etc. They work equally well upon silk, linen, woolen and cotton goods with silk, cotton or linen thread. They will seam, quilt, gather, fell, cord, braid, bind, and perform every species of sewing, making a beautiful and perfect stit h, anke on both sides of the articles sewed.

The Stitch invented by Mr. Howe, and made on this Machine, is the most popular and durable, and all Sewing Machines are subject to the principle invented by him.

### J. Thomas' Patent Atmospheric

CHURN DASH!

Patented May 7, 1867. The most Important and Valuable Inven-

tion of the 19th Century.

1. This Dasher is superior to any other, by being as simple as the old Dasher, and combining the stmopheric principles therewith, and the Butter Gatherer.

2. It is superior to all others, inasmuch as the same power applied to this in like mechanical operations will make one fourth more reciprocations.

3. It is superior to all others, inasmuch as it produces the Butter in a much shorter time.

4. It is superior to any other, inasmuch as it produces a much better quality of Butter.

5. It is superior to any other Patent Churn, inasmuch as it is 500 per cent, cheaper than any other.

It is well known to Dairymen and others, that Butter is contained in minute globules of sacks, covered with a membrane, and requires the action of sir to prepare the covering to be removed by friction. The Scientiss American says:

"If cream is dashed sgainst a hard substance, or mashed between bars or rollers, it breaks the globules and becomes oily, by destroying the grain. It should be thrown into currents and counter; currents by the action of air, causing a friction by the action of the currents against each other, removing the covering without breaking or bursting the globules."

This is the principle which the inventor of this Dash endeavored to keep in view, and the result shows a much larger yield of Butter obtained in less time than by any other Dasher.

Experiments have proven that any other method except pumping air through the cream, will not penetrate sufficiently to expend all the globules preparatory to concentrating the Butter. Throwing it into the air by clappers or old fashioned Dashers, does not sufficiently expose it to the air to bring out the Butter.

The above Patent Dasher has been purchased for Susquehanna County by the undersigned. The process of charming can be seen at any time, in a Glass Chura, at Buldwis, Alien & McCain's store. An agent will canyase the county soon as possible, to sell the Dasher for individual rights; also township rights will be sold.

Montrose, July 23, 1867.—Lf A. BALDWIN.

TO THE LADIES Dr. Dupouco's Golden Periodical Pills for fomaise Dr. Cheeseman's Female Pills.

Da. Velpan's Female Pills. Sir James Clark's Female Pills. Sir James Clark's Female Pills.

All of the above Pills are infallible in correcting menstrual irregularities, and in curing Leuchorrea or Whites. They are successful as preventives—but should not be used during pregnancy, as they would produce abortion. Price one dollar per box, each. The first two kinds named sent by mail, to any address, postage paid, in sealed envelope, on receipt of one dollar for each box ordered. The latter two kinds, being in glass, and heavy, will be sent by mail, postage paid, on the receipt of one dollar and twenty cents.
