

The President's communication to the Senate in regard to Stanton's removal, shows that the latter must be held directly responsible for the convention riot of July, 1866.

Congress adjourned on the 20th, to meet on Jan. 6th. No business of special importance has lately been transacted.

Two of the negro candidates for seats in the North Carolina State Convention, both of whom were elected triumphantly, issued a circular to the negro voters of their district, of which the following is a verbatim copy:

"If thar should Bee any Cullard Person that wants to vote a Democratic vote, fraid (beat) him until he knows nothing."

This is a fair sample of negro intelligence and of the evil spirit which the radicals have succeeded in instilling into the negro's mind.

The terms of sale are as follows: Fifty millions dollars in gold are to be paid down on the signing of the treaty and the formal delivery of the islands to the authorities of the United States.

An inquest on the recent explosion at Clerkenwell has resulted in a verdict charging Timothy Desmond and Jerry Allen with murder in having caused the explosion.

That irascible and haughty old fellow, John Bull, has become thoroughly frightened at the "bloody Fenians" and his quaking councillors advised him to suspend the writ of habeas corpus in England.

During the war corruption seemed to run riot, and public men were known to be notoriously venal. The recent acts of Mrs. Lincoln show that even in the President's mansion bribes were taken.

As soon as it was discovered that white men had carried the State of Kansas on the negro-suffrage issue, the negroes at Leavenworth held a meeting, and adopted a resolution recommending the Radical General Committee to call a State Convention for the purpose of petitioning Congress to disregard the will of the people as expressed through the ballot-box.

Edisto Island, under the white proprietors, was probably the richest and most productive island on the Carolina coast.

The Radicals admit that the cost of voting the negroes in the South will not be less than \$75,000,000 for the present year. Let the workingmen of the North think of that. Every dollar of it is wrung from their toil.

Locked Cars. The terrible accident on the Cleveland and Lake Shore Railroad, New York, by which some forty persons were burned to death, and as many injured, is due to the most deplorable disaster of the present year.

Horrible Barbarities by an African King.—The latest news from Abyssinia develops King Theodore in a still more bloody thirsty aspect. He had made an expedition to the small island of Metrata, in the Lake Tana, and put every inhabitant to death by fire; then he made a trip to Ifig, a flourishing town in Fogara, seized fifteen hundred peasants, placed them in two large houses and burnt them alive.

Eleven persons were suffocated by smoke in a tenement house in New York, on the 16th. The building, which was occupied by ten families, took fire, and although but slightly damaged by the flames, the smoke in the closely packed rooms was so dense as to cause the death of more than half a score of persons.

The Louisiana "smokes" are making a clean sweep of the judicial system. On the 6th inst., an ordinance was adopted abolishing the whole civil code and substituting the common law of England.
