hasement of E. L. Weeks' New Store, where he is prepared to give good satisfaction. When I go to explain this subject language falls to express it.

GROVESTEEN & CO., 499 Broadway, New York. Plano Fortes.

Our Last new addition to our different styles is attracting the admiration of both critics and populace. We mention specially, some of the claims of this new Piano. Believing the exterior should be as beautiful to the eye as inclody is to the car, we have paid great attention to getting them up in a style that is conceded by all who have seen them to be the handsomest Piano Forte made. They are an entirely new size, with four full round corners, heavily carved legs and lyre, base richly monided, and contains our latest improved new scale and action. The tone is melodione, and its adaptability to passages of every shade of expression, from the softest murmurs, the Cressendo, and the F. gives the performer every advantage of the Concert grand.—

Price \$500.

THE HOWE MACHINE CO'S SEWING MACHINES.

699 BROADWAY,

NEW YORK.

FOR FAHILIES & MANUFACTURERS. 375,000 700,000 THESE WORLD RENOWNED

> SEWING MACHINES Were awarded the highest Premium at the World's Fair in London, and six first premiums at the New York State Fair of 1866, and are

Celebrated for doing the best work, using a much smaller needle for the same thread than any other machine, and by the introduction of the most approved machinery, we are now able to supply the very best machines in the world.

These machines are made at our new and spacious Fuctory at Bridgeport, Conn., under the immediate supervision of the President of the Company,

Elias Howe, Jr., the DRIGINAL INVENTOR OF THE SEWING MA-CHINE.

They are adapted to all kinds of Family Sewing, and to the use of seamstressee, dress makers, tailors, manufacturers of Shirts, collars, skirts, cloaks, mantillae, clothing, hats, caps, corsets, boots, shoes, harness. Saddles, linen goods, umbrellas, parasols, etc. They work equally well upon silk, linen, woolen and cotton goods with silk, cotton or linen thread. They will seam, quilt, gather, [eli, cord, braid, bind, and perform every species of sewing, making a beautiful and perfect stit.h, alike on both sides of the articles sewed. The Stitch invented by Mr. Howe, and made

on this Machine, is the most popular and durable, and all Sewing Machines are subject to the principle invented by him. SEND FOR A CIRCULAR.

AMERICAN Waltham Watches.

The true value of Machinery applied to Watchmaking is not that by its use. Watches are made rapidly, but that they are made correctly. Very few people know why a Waltham Watch should be superfor to say other. In the first place, at Waltham the Watch is regarded as only a machine, on mechanical principles. If the watches are good, it is because the machinery is good. Of course there must be no defect in the principle or plan of the movement—no mistake in the sizes or shapes of the pieces of which it is composed—nothing wanting in their properties, and no error in their positions. These points once thoroughly settled, it rests wholly with the machinery, constructed with infinite diversity of form and function expressly for the purpose, to produce the finished pieces. By means of multiplying ganges and microspopes, tests and inspection for the detection of wear in the entiting tools, and for fanits or flaws in steel or stone are made, to accompany the work in every stage from beginning to end.

As a necessary result, the watch goes together a perfect machine. Every part is found to—fix properly in its place. Every pin may be pushed till it planches, and recry scrow turned home. Instead of a Surgish and feblication, the balance, even under the pressure of the lightest mainspring, vibrates with a wide and free motion, and the beat has the clear ringing sound always characteristic of the Waltham Watch. The machine is a timekeeper from the start.

This system is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by it they produce watches that cannot be equall d for every quality, which makes a watch valuable. Simple in plan and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is uniform in the minutest details, not casily damaged, and when repaired always as good as pow. There are different states and shapes to suit all tastes and means a but every Watch that bears the genuine trade-mark of Watanuaw is guaran
