**LOOM FOR FARMERS.**  
INDUSTRY and ECONOMY—the road to wealth. The Farmer needs the material to clothe his family. Why should he seek that material and buy it back again, paying the manufacturer a large profit, and four or five additional profits. Besides transportation charges, Government taxes, &c., all of which he could save, amounting to half the cost of the goods, each year, by making his own goods at home, which is now made easy by  
Mendenhall's Improved Self Acting Hand Loom.  
It is the most simple and reliable Loom ever invented. It will make a greater variety of goods with less power than any other Loom. All the operations of weaving are performed by simply turning a crank. From 15 to 25 yards of dress or Satin, and from 30 to 50 of Linsey &c., can be woven per day.  
By late Improvements  
Rag Carpeting can be rapidly woven with the Fly shuttle, weaving from 30 to 25 yards per day.  
This Loom will furnish profitable employment in every neighborhood in weaving cloth and carpeting for customers.  
For circulars, price list, and samples of cloth woven on the loom, address, with stamp,
