FRIGHTFUL PROPHECIES CONCERNthe centre of the earth is a mass of fire-that the poles of the earth will one day be at the equator, and that the Sun is gradually fading! Talk like this is very terrible; but, pending such wholesale calamities, it will be as well for each member of socity to take care of his or her health, and leave the rest to Providence.

The end comes prematurely to all who neglect the preservation of that inestimable blessing. Suffer liver disease, dyspepsia, chronic constipation or any other niment to take its course unchecked, and it will assuredly shortenilife. Its Causes, Character, Conduct. and Results. By Hon. ALEXANDER H. STEPHENS, A Book for all sections and all parties.

A Book for all sections and all parties.

This great work presents the only complete and impartial analysis of the causes of the war yet published, and gives those interior lights and shadows of the great conflict only known to those high officers who watched the flood tide of revolution from its fountain springs and which were so accessible to Mr. Stephens from his position as second officer of the Confederacy.

To a public that has been surfeited with apparently similar productions, we promise a change of fare, both agreeable and salutary, and an intellectual treat of the highest order. The Great American War has at last found a historian worthy of its importance, and at whose hands it will receive that moderate, candid and impartial treatment which truth and justice so urgently demand.

impartial treatment which truth and justice so urgently demand.

The intense desire everywhere manifested to obtain this work, its official character and ready sale, combined with an increased commission, make it the best subscription book ever published.
