## Local Intelligence.

### Attention No. 2.

The Members are particularly requested to meet at their room on Friday evening at 7:30 o'clock. Nomination night.

SECRETARY.

### Ran Away.

Daniel J. Barber left his home a few days since. He was aged 17 years, quite small of his age, had light hair, blue eyes, was wore, when he left home, a black wool hat, blue overalls, and a dark coat. Said he intended changing his name. Any information as to his whereabouts would be thankfully received by his father, Daniel Barber, Box No. 2, Great Bend, Pa.

### Drowned.

Night before last Jake Maynard, of Great Bend Village, borrowed Gus Simmons' boat in which to make a trip to Binghamton. Yesterday we received word here that he was drowned near Rock bottom Dam, in that City. In attempting to jump from the boat, which was going over the dam, to the shore, he fell into the water. His body was recovered within a short time, but life was extinct. The body was brought to Great Bend last night.—*Pennsylvania 27th.*

### Examination for Prof. Certificates.

An examination for granting Professional Certificates will be held at Montrose, in the Academy, on Friday, June 26, 1898. Only such are entitled to this grade of certificate as are members of the Susquehanna County Teachers' Institute. The branches necessary are those enumerated in the Prov. Certificate, and such other higher branches as the applicant may desire.—Teachers desiring further information will address the County Sup't. Examination will commence promptly at 8 o'clock, a. m. W. W. Watson, Co. Sup't. Montrose, June 2, 1898.

We are bound to be one of the working lodges.

No more bricks in our hats will you see,  
For we belong to the L. O. of G. T.

TESTOTAL.

### Gold Victuals.

The worshippers (in expectancy) of Ben Wade's administration calculated on a fine time inaugurating his "term of office," which Ben Butler told 'em would "come in" along with apple blossoms.—Tuesday night was fixed upon to ratify that and Grant, too; but the telegraph did not announce blossom Ben, so the affair, instead of a sort of wedding, was nearer a funeral; for in spite of attempted words of cheer, the faithful were oppressed with the general and to them melancholy idea, that Grant, like Wade, would come out lacking in votes! The anticipated feast was compared to a dose of cold victuals upon a sour stomach.—The mourners are entitled to all the sympathy the "lost cause" is worthy of.

### Decoration of Soldiers' Graves.

The ceremony of strewing flowers upon soldiers' graves was performed on Saturday. At the entrance to the cemetery a beautiful arch and flag-staff were erected, in memory of those buried elsewhere; a flag was unfurled over each grave, to which was added a wreath of evergreens and flowers. At 6 o'clock a procession of soldiers, firemen, ladies and citizens, preceded by the band, passed each grave, and deposited sprigs of evergreen and flowers; after which the large assemblage formed around the central arch, and consisted of prayer by Hunt Jessup, an oration by Wm. H. Jessup, Esq., and the reading of the name, date of enlistment, and death of each soldier (14 in number) buried in Montrose.

Mr. Jessup made some suggestions in reference to a monument, which is to be further considered.

Radical restoration. Its good effects are permanent. It not only restores the color of the hair, but the quantity and natural glossiness. This is said by every one using Mrs. A. Allen's improved (new style) Hair Restorer or Dressing (in one bottle). Every Druggist sells it. Price one dollar. [m12m]

### Summer Time Table of Erie Railway.

A new edition of the "Pocket Time Table" containing the Summer arrangement of Passenger Trains has been published, and placed with the Company's Ticket Agents at Great Bend, and at all the principal stations on the Erie Railway. This little book, as many of our readers are aware, is published in a convenient form so that every body may be able to carry a copy in the pocket for ready reference. It contains a schedule of all the way and through trains on the road—eastward and westward—Monday train, those that make extra stops, &c., &c. In addition to all this it contains an announcement entitled "Good News for Excursionists," an article which will be of interest to all who contemplate making excursions during the summer season—the Erie Railway Company having arranged to sell round trip tickets at reduced rates for excursion parties.

"Of the Beach and the Sea" and a copy of the "Pocket Time Table."

## Impeachment Ended.

Articles 2 and 3 were voted upon on Tuesday, resulting 35 to 19. An acquittal was announced; and the case, abandoning the case, adjourned the Court—

## Good-bye Impeachment!

### The Negro Delegates.

There were some fifteen or twenty negro delegates to the Chicago Convention, and they were objects of note on the floor. Of course they were all enthusiastically for Grant, as they had been assured that he was in favor of establishing and perpetuating their supremacy in the South, and of giving the right of suffrage and all other political and social privileges to their race in the North. The dark complexioned delegates were a unit for Grant and Colfax.

### No Enthusiasm.

The Radical Convention at Chicago was a tame and utterly spiritless affair.—The proceedings elicited no popular excitement, and the nominations have been received very coldly throughout the country. Nowhere has there been any exhibition of enthusiasm. The name of Grant fails to charm the popular ear.

That Iron is Valuable as a Medicine has long been known, but it is only since the preparation of it in the particular form of Peruvian Syrup was discovered that its full power over disease has been brought to light. Its effect in cases of dyspepsia and debility is most salutary.

The editor of the Democrat, Davenport, Iowa, endorses Hoodland's German Bitters in the columns of his paper as follows:

Hoodland's Bitters.—In another column will be found the advertisement of this sterling remedy. To it the writer of this article owes his health. Having once been completely prostrated by diseases contracted in campaigns in Louisiana and Mississippi, we were unable to regain our health by following regular remedies, but were cured by a few bottles of this medicine.

Those of our readers having Steam Boilers would do well to call at the Office of the American Anti-Incrustation Company, Philadelphia, and examine testimonials, etc., of the Anti-Incruator. Read advertisement, setting forth its great merits, in this issue.

## SPECIAL NOTICES.

CASH.—Believing the nimble sixpence preferable to a slow shilling, we have adopted the Cash System. All goods are sold from 10 to 25 per cent. below former prices. We have a full line of Dress Goods, Prints, Delaines, brown and bleached Sheetings, Ginghams, Tickings, Stripes, Checks, Cottonades, plain and fancy Casimeres, the best assortment of Norfolk and Town, all kinds of Flower and Garden Hose, and Groceries of every description. Come on, come all, and try the Cash, and Cash only, system. Can be found on same building with the post-office. Montrose, June 2, 1898. A. D. BUTTERFIELD.

ABEL TURRELL is constantly receiving new Goods and Medicines, which will be sold as low as any other Store in Montrose.

DR. S. I. TOWNS' PULMONIC LIFE Syrup, for the cure of Indigestion, coughs, colds, croup, Asthma, liver complaints, dyspepsia, and general debility. For several years I have been cured by kind friends, who have used and been benefited by this Life Syrup. I put it up for general sale, but know the large expense, now that the country is flooded with Patent Medicines, which attend the same. For years just I was reluctant to do so, as the capital required would be large, and I did not wish to outbid the operations of my Venetian Lintment business. But, thanks to the generous patronage, who have appreciated my Venetian Lintment, I am now able to do so, without any detriment to my large business in this medicine. The foundation of my success I attribute to attending to the manufacture of every drop myself, and shall do so in regard to my Pulmonic Life Syrup. The ingredients are perfectly harmless, and I act on the Lungs and Liver with astonishing effect. I price 75 Cts. per Bottle. 50 Cts. per Dozen. Sold by the Druggists and Storekeepers, May 12th.

WISTAR'S BALM OF WILD CHERRY for the cure of coughs, colds, hoarseness, Asthma, Influenza, croup, whooping cough, Bronchitis, Frequent Coughs, and Consumption, &c. &c. This great remedy is too well known and is performing so much good to make it necessary to go into an elaborate description of its merits. Suffice it to say that it still maintains its supremacy in curing diseases of the most obstinate character, and that all who suffer from the above complaints, after having tested this remedy, seldom take occasion to resort to other appliances to obtain a permanent restoration to health.

Testimony of Mr. PETER SHAW. West Winsted, N. Y., Dec. 10, 1890. Messrs. S. W. FOWLE & SON, Boston.

Gentlemen.—During the winter of 1890 I was very much out of health, afflicted with severe Croup, in the side and Lungs, and a general depression of health to such an extent as to alarm myself and friends as to the result. During this time I tried several highly recommended remedies, with little or no good result, and had concluded to try the Wistar's Balm of Wild Cherry. I procured a bottle of this remedy, and used it as directed, and in a few days I felt a great improvement in my health, and before carrying this resolution into effect, I was induced by the urgent solicitation of my agent, to procure a bottle of Dr. Wistar's Balm of Wild Cherry. I did so, and to my great joy found immediate and permanent relief by the use of only one bottle, and am now as healthy as ever. I have your Balm one of the best remedies for coughs, colds and all lung diseases, now in use, and conscientiously recommend it to all who are afflicted with a persistent cough, or who are suffering from Croup, and for sale by Druggists generally.

GRACE'S CELEBRATED BALM—WE are constantly hearing favorable reports from those who have tried this remedy. And Anthony, a well known and reliable Druggist, writes to me, "I have a patient, afflicted with a felon on the finger, was recently induced to make a trial of the Balm. Almost instantly she experienced relief from the pain, which had been almost unendurable. Every other remedy had been almost unavailing. Those who have tried it, can be without a supply.—Full River News.—may 12th.

FRIGHTFUL PROPHECIES CONCERNING the end of all things are made by religious enthusiasts; and on the other hand, philosophers insist that the centre of the earth is a mass of fire—that the poles of the earth will one day be at the equator, and that the sun is gradually falling! Talk like this is very terrible, but, pending any wholesale calamities, it will be as well for each member of society to take care of his or her health, and leave the rest to Providence.

The end comes prematurely to all who neglect the preservation of that inestimable blessing, Suffer Liver disease, dyspepsia, chronic constipation or any other ailment to take its course unchecked, and it will soon shorten life. It cannot be said that the means of restoring the system are already the predisposing causes of disease are withheld. The constitutions and physique of the least robust may be so strengthened and fortified by a course of Hostetter's stomach Bitters as to render them all but invulnerable, not only to the attacks of epidemic disorders, but also to the ordinary complaints which prevail in all communities at all seasons.

If the immense importance of protective medicine were universally understood, this incomparable vegetable antidote, which is already the most popular tonic in the world, would everywhere be classed among the staples of life, and no family would dare to be without it. The time may arrive when this will be the case, for every year adds hundreds of thousands to the list of those who use it.—may 12th.

## New Firm.

GEO. HAYDEN & CO. NEW GOODS To be sold by Steam.

STEAM is the great propelling power of the age. "Business by Steam" means doing it with the least expenditure of time and money. Rapid sales, small profits, opposed to the old fogy system of slow sales and large profits. Steam is not gas! Steam travels on land and water, but does not inflate balloons! Steam means power, energy, life, activity, and throws down all opposing obstacles. The old fogies don't like it, but we believe in steam—steamboats, steam cars, and steam stoves, when they can find them.

Propose to show that business can be done on steam principles, without danger of explosion. Our safety valves are Good Goods at Low Prices for Cash. We believe our new stock can be sold for in "done the quick time," and replenished again and again, if the people will only consider their true interests and patronize dealers who are determined to win customers by always giving the most for their money. But come and see our New Stock of seasonable Goods. We have a fine show of
