ORWAY OATS FOR SALE!

New Milford, Feb. 9, 1870.

The result of my experiments the last season with the Norway Outs have been fully up to my expectations, and I am suitsfied tiley see well adapted to our soil, and that every farmer who possibly can should get the seed. I bought last spring of the Ramsdell agents in New York one bushel of 39 lbs. of the Norway Oats. I sowed them on one acre of good ground, and harvested from it 70 bushels of 30 lbs per bushel, making an increase of 70 bushels from one.

I also sowed in the same lot on equally good ground, 8 bushels of 30 lbs each of common oats ground, 3 bushels of 30 198, each of common eats on one area, and harvested therefrom 55 bushels of 30 lbs, per bushel, an increase of 18 bushels from one. Therefore from this trial I am satis-fied that the Norway Oats will produce twice as much as the common Oats. If any wish more confirmation, I would refer them to reports from all parts of the country, given in the Rural New Yorker of Jan. 8th, 1870.

PRICE \$4 per BI SHEL of 32 lbs. Call soon as I have left few to sell. For Sale by
