The English farmer boasts of an advantage over his American brother in the superior character of the roads in that country, He is right, and will be for an

There is said to be carried off from the soil nine pounds of lime in twenty-five bushels of oats, and fifteen pounds in thirty-eight bushels of barley. There are thirty-five pounds of lime in two tons of rye, grass, one hundred and twenty-six pounds in two tons of clover, and one hundred and forty pounds in twenty-five tons of turnips, and two hundred and seventy pounds in nine tons of potatoes. ne soils contain abundance of lime, while other soils require an occasional application of lime as a fertilizer.

SMOKING HAMS.—I received a new idea from Mr. Looke, says a correspondent of the New England Farmer, in regard to smoking hams. Let the hams remain ivory ware, lacquered ware and porcelain. frozen and wrapped in papers through the cold weather. In the spring smoke your drugs, gum, dried fruits, tobacco, wines, barrel by burning under it, when invert-camel's hair, carpets, shawls, camlets and ed, a bushel of corn cobs; then rinse the barrel with warm water that is to be used in making brine. For 100 lbs. of meat chineal indigo, sarsaparilla, vanilla, jalan, use 10 lbs. of salt, two ounces of salt-petre, with water enough to cover the and dye stus. meat. Scald the brine, skim it, and put have the taste of smoked meat, without my and India rubber. smoking, and will keep, like other salt meat, through the summer.

Never whip your horse for becoming Switzerland exports cattle, cheese, but-frightened at any object by the roadside: tef, tallow, dried fruit, linen, silks velvets. for if he sees a stump, a log, or a heap of lace, jewelry, paper and gunpowder, tan bark in the road, and while he is eyeing it carefully and about to pass it, you strike him with the whip it is the log, or the stump, or the tan bark, that is hurting him, in his way of reasoning, and the United States exports principally agrinext time he will act more frightened. cultural products, cotton, tobacco, flour. Give him time to examine and smell of provisions of all kinds, lumber, turpenall these objects, and use the war bridle to assist you in bringing him carefully to these objects of fear. Bring all objects. if possible, to his nose, and let him smell of them and then you can commence to

greater in such a case.

Let Horses Have Their Natural Galt. children.

It is bad policy to move a team out of its natural gait, especially with a load. It is far better to put on a full load, and.

Feed Hay Carefully.

times when witnessing the amount wasted around barnyards and stacks. This -tjecmantown Tetegruph. waste is entirely unnecessary, and if it was made the rule of every farmer never to nually. There are times, to be sure, when the earth is frozen dry and clean, but if racks are not provided, full one half of the time the hay will be dealt out either the time the hay will be dealt out either in wet snow or mud, and a good portion The parties who were to unite their for-

Portable racks should be used around stacks, and their location changed every few days; the racks should be so constructed that the stock can get their feed the irate old gentleman. handily, and at the same time made so that the hay cannot be pulled out and trampled under foot. For cattle, a good rack may be made with common rough boards and a few pieces of scantling. Make them four or five feet wide, ten or twelve feet long, and two feet deep, have the couple turned sadly to depart. Just four by four inch scantling in the corners, and also in the center of the ends, runand also in the center of the ends, runthe forforn maiden, and she turned and a center partition lengthwise; thus you have a double rack' where cattle will eat contentedly. Do not have the end boards or pieces of scantling reach down as low married them "full up," and they went as the side boards, and then by rounding on their way rejoicing.

is a quick sale, and land gives as profits. the helped to impose on Andy Johnson.

ble a return of this as almost any crop it Chickens and curses come home to roost.

Commerce of the World.

France exports wine, brandies, silks,

Italy exports corn, oils, flax, wines, essences, dve stuffs,drugs, fine marble, soap, paintings, engravings, mosaica and salt. Prussin exports linens, woolens, zinc, articles of iron, copper and brass, indigo, wax, hams, musical instruments, tobacco, wine and porcelain.

Germany exports wool, woolen goods, linens, rags, corn, timber, iron, lead, tin, flax, hemp, wine, wax tallow and cattle.

Australia exports mineral, raw and manufactured silk thread, glass, wax, tar, nut gall, wine, honey, and mathematical

England exports cottons, woolens, glass, hardware, earthenware, entlery, metalic wares, salt, coal, watches, tin silks and linens

Russia exports tallow, flax, hemp, flour, iron, copper, linseed, lard, hide, wax, duck cordage, bristles, furs, potash and tar. Spain exports wine, brandy, oil, fresh and dried fruits, quick silver, sulphur, salt, cork saffron, alchovies, glass, silks and

neat, through the summer.

DON'T WHIP A FRIGHTENED HORSE.— wax, ginger, and other spices.

tine and wearing apparel. Romantic Maldens,

.There is so much hifalutin taught at our boarding schools that the mothers of future generations will grow up as roman-COOKING FOOD FOR STOCK.—E. W. it as the compeers of Lydia Languish. Stewart writes to the Rural New Yorker Every girl in one of these fashionable in answer to an inquiry for some one who had practiced cooking feed for stock for when the Prince will arrive and carry her years, and found it paid. He says he has off in her horizon, like the light to which cooked feed for cattle, milch cows, horses, the marineer steers. All her hopes consheep and hogs, and found it pay at least thirty per cent. over the ordinary method of feeding raw. This he has done for 13 to herself, to her possible child she never years and intends to continue so doing.

Among the other tests of the comparative value he has fed ten steers three bushels of raw corn meal, and ten of about equal weight on one and a half bushels incident that school mistresses might do of cooked meal, and found the latter came well to direst: Napoleon the Great, while of cooked meal, and found the latter came well to digest; Napoleon the Great, while out best after three months' trial. He visiting the celebrated school of Madame has fed five head of cattle 16 pounds of Chapman, seeing that one of the intended cooked hay, and five other head 24 rules drawn up by that lady proposed that pounds of uncooked hay, and found the the children should hear mass on Sunrst to do the best.

It should be remembered that this was "every day," adding, "the old system of done in the State of New York, with education were good for nothing; what do land, food and stock worth more than young women stand in need of, to be well they generally are in the West. The brought up? Madam Campan replied, profit from cooking food would, of course, "Of mothers." "Well, madam," said Napoleon, "let the French be indebted to you for bringing up mothers for their

Dry Walks for Winter.

even a little more, and give the horses we to neglect, at this season of the year, lection of movelites of the present season; to which is added a collection of move the control of the present season; to which is added a collection of move the control of the present season; to which is added a collection of move the control of the present season; to which is added a collection of move the control of the present season; to which is added a collection of move the control of the present season; to which is added a collection of movement season; to which is added a collection of movement season; to which is added a collection of movement season; to which is added a collection of movement season; to which is added a collection of movement season; to which is added a collection of movement season; to which is added a collection of movement season; to which is added a collection of movement season; to which is added a collection of movement season; to which is added a collection of movement season; to season; to which is added a collection of movement season; to season their own time for moving it to its place to repeat our counsel as to the great comof destination, than to make two loads of fort and convenience which dry walks init and hurry them. There is a certain de- sure about dwellings, barns and outhouses gree of rapidity of action peculiar to the generally in winter and early spring, we muscles of each class of animals, and in- are pained sometimes to see the atter negdeed to each individual animal and if ligence prevaling upon some premises in they are pressed beyond this, fatigue follows quickly, while within this limit great lar's worth or two of new boards, nice flat endurance is witnessed. To test this, let stones, or a liberal supply of coal ashes a man attempt to move his arms as rapidly as a bird does its wings, or his legs in walking as rapidly as a little boy, and see how greatly he will become exhausted. This will convince him of the folly of attempting to make his heavy draft horses move with the rapidity of the power fact ter use. The difference to be seen upon a move with the rapidity of the pony or fast ter use. The difference to be seen upon a trotter. The law of nature is that heavy premises where dry walks are provided bodies move slowly.—North Western Far. wherever needed, when compared to others where this moral influence has no abiding place is enough to make us shiver as well as to cause us to feel for the absence There are hundreds of tons of hay lost of social charities in the family. A chrisevery winter among farmers by careless tian man exhibits the effects of the relifieding. We have been astonished some gion he professes in everything, and in nothing more than his domestic-relations.

In Virginia, where the law fixed teed any kind of stock upon the ground, the marriage fee at \$1, there is a reminithousands of dollars might be saved an- scence of a couple who many reads ago called on a parson and requested him to "Where is my fee ?" said the function-

> tunes did so at once and found the joint amount to be twenty seven cents. " I can't marry you for that sum," said

> "A little bit of service will go a long way," suggested the male applicant.
>
> "Ah, no," said the parson, "you don't pay for the size of the pill, but for the good

you hope it will do you."

The lass, intent on marriage, began to weep, but the parson was inexorable, and the top of the rack; to the latter nail in cried through her tears: "Please, sir, if you can't marry us full up, won't you marry us twenty seven cents' worth-we can come for the rest some other time?

Hay brings a good price in market, and mental acquaintance of the annoyances he

can be put to, when the difference in amount of labor is considered between just the garnering of grass and plowing, sowing and gathering of all others. It certainly behooves farmers to feed carefully, for every ton saved is as good as gold, and if not wanted for present feeding may be stored up to time of need or sold for cash.—Western Rural.
