Harford, February 19, 1870.

Fire in Deposit. A fire in Deposit last Friday morning destroyed the dwelling house and barn of Mr. John Hoar, a storehouse and barn adjoining and Ford & Perry's store. Several stores had a narrow escape from being burned. The activity of the citizens in bringing water, taking down sheds, etc., saved much property. Ford & Perry's loss will not exceed \$1,000, and Mr. Hoar's will be about the same. The cause of the fire is a mystery, but by some is thought to have caught from coals that remained in the ashes that had previously been emptied into an ash berrel standing near-the house or barn.-Binghanders Standard

None of General Grant's predecessors had the opportunity he has for accomplishing great things and acquiring fame. He is President when the republic is undergoing a great material, social and political revolution, partly as a result of the war and partly from the wonderful developments of the age. The American republic, with its forty millions of intelligent and intensely active citizens, its boundless and varied resources and wonderful future, holds the first position among nations, and is the one to which the people of all others are looking as the hope of the world. General Grant holds the helm of affairs just as we have commenced this new era of progress and greatness. Will he comprehend this and the glorious opportunity

man from Wilkes-Barre announced that the Vailes speak to them yourself, until they be agreed on the verdiet, unless it be to ask them whether they be agreed." To be qualified to act as jurors, it was prescribed that they should have lands and tenements of forty pounds yearly value at least.—Phila Ledger.

Bank Assessor.

R. P. Ross, Esq., of Tunkhannock, has been appointed Bank Assessor, under the provisions of a recent law, "taxing bank stocks, and to the crease the revenues of the Commonwealth," for the 20th District, composed of the Counties of Susquehanna, Wyoming, Wayne and Pike.

Man from Wilkes-Barre announced that the Vaile would probably subscribe \$200,000. A committee was appointed to wait upon parties in the coal recall regions to present the matter to them and receive subscriptions. The road will ultimately benefit the coal and iron interests of the Valley more than any other, and we hope to like its fish, and making them more plenty in our brooks and streams than they have hitched been.

2.39° All the Druggists in town keep Pluche Baker's Salve in \$1 pots (for familiants). The administration has but to lift its fish, and making them more plenty in our brooks and streams than they have hitched been.

2.39° All the Druggists in town keep Pluche Baker's Salve in \$1 pots (for familiants). Then there is British Columbia knocking for administration has but to lift its fish, and making them more plenty in our brooks and streams than they have be the coal regions to present to turn the coal regions to present to turn the coal regions to present to turn the coal and increase of the variety of our products, and would streagthen our products, and would streagthen our power through the products and would streagthen our power through the products and would streagthen our power through the product leave the threat the power through the product leave the value and recall and fixed—that it is sufficient. The mere is a similar movement on the Red River, in the north residual to increase the verift of the Ask your D No. 13 Howard St., N. Y.

There is no clas of men to whom life insurance does not offer advantages; but of all classes, perhaps, salaried men have most need of the blessings secured by insurance on their lives. Not that

but of all classes, perhaps, salaried men have most need of the blessings secured with the wonderful progress and developments of the age, with its quaintance, all they have to do to make it reach the person (who has left the place in the meantime) is to change the address merely and drop it in the postoffice. The Postoffice Department has decided that all letters intended to be forward must, after having passed from the customent of the assessment of the narrow-minded and the properties of the cannot stand stim.

In the total classes, perhaps, salaried men have most need of the blessings secured they are short lives. Not that must advance exteriorly with the wonderful progress and developments of the age, with its intermal growth and in accordance with the econtrary.—but because they are seldour domestic trouble will spring up, and we shall fail to fallil the great destiny marked out for us for their old age, or for their children in any other way. Their best plan is to take out a she out and decided that all letters intended to be forward may be a success; but if a seconflice is prepared by stamps in the postoffice be prepared by stamps in the postoffice be prepared by stamps in the properties of the Church is all classes, perhaps, salaried men have most need of the blessings secured them progress and developments of the age, with its intermal growth and in accordance with its intermal growth and in accordance with its fall the properties of the stant properties of the fall the properties of the stant properties of sion and destiny of this mighty country, and re-mains the mere instrument of the narrow-minded politicians that surround him, he will prove a lamentable failure and his glorious war record will be buried beneath the unpopularity of his government.—N. Y. Herald.

—A Huntingdon (County) editor amounced an increase in his family, and in his joilification propounds this consundrum: "What is the difference between editorial and matrimonful experience? In the former the devil cries for copy." In the latter the 'copy' cries like the devil."

The owed the man a grudge, and wanted to take this last opportunity of dropping the unpleasant amblect. aubject

64 BROADWAY, NEW YORK.

POINTS OF EXCELLENCE Besuty and charticity of Stitch.

Perfection and Simplicity of Machinery.

No festening of seams by hand and no wasts of bread.

The very highest prize, THE CROSS OF THE LEGION OF HONOR, was conferred on the representatives of the Grover & Eaker Sawing Machines, at the Exposition Universelle, Paris, 1857, thus attesting their great superiority over all other dowing Machines.

ed from it 70 bushels of 30 lbs. per bushel, making an increase of 70 bushels from one.

Talso sowed in the same lot on equally good ground, 3 bushels of 30 lbs. each of common oats on one acre, and harvested therefrom 55 bushels of 30 lbs. per bushel, an increase of 18 bushels from one. Therefore from this trial I am satisfied that the Norway Oats will produce twice as much as the common Oats. It any wish more confirmation, I would refer them to reports from all parts of the country, given in the Rural New Yorker of Jan. 8th, 1870.
