

Local Intelligence.

The Vestry of St. Paul's Church this morning have purchased of J. W. Chapman, the building and lot adjoining the rear of the church, with the view of enlarging a Lecture Room, and making other improvements.

Foot Amputated.
John Ryan, of Silver Lake, who was mentioned in our columns last week as having cut his foot nearly off, was obliged to have his leg amputated just above the ankle joint. The operation was performed by Dr. E. L. Gardner, assisted by Drs. Halsey and Richardson, on Thursday last. He is doing as well as could be expected under the circumstances.

There is a rumor that the Erie Railroad Company is about to purchase the P. & N. Y. R. R. from that point to this place, in order to secure an opening into the Wyoming Valley coal field. Whether there is any truth in the rumor we are not able to say, but as there has been more or less talk about the desire of the Erie Railroad Company to make their way into this region, there may be some foundation for it. —Scranton Republican.

During the Session, which continued till Monday following, a great deal of important business was transacted. The vote on the question of Lay Delegation resulted in 192 for and only 6 against it.

Beware of Burglars.

It behooves the people in this vicinity to take due care in securing themselves against the depredations of burglars, as their visitations are getting to be quite frequent. On Sunday morning last, about 2 o'clock, Mr. Geo. C. Hill, of this borough, was aroused by a loud noise, and, on entering his house, he immediately arose and armed himself for defence. The person after trying a short time went away, but returned again soon, but perceiving some stir about the house, he immediately left. Other places were visited the same night in a similar manner.

Printer Arrested.

J. R. Gailor, publisher of the Northern Pennsylvania, was arrested on Monday last on complaint of Wm. Garey, of Montrose, and brought before Justice Avery, who held him to bail in the sum of \$500, for a libelous publication. W. D. Link, Esq., of this borough, became surety for his appearance at Ang. term of Quarter Session.

The Dry Earth Treatment of Wounds.

The Philadelphia Star says: Dr. Hewson, a well-known physician of this city, and an expert of the "dry earth treatment of wounds," concerning which there was such a lively discussion some months ago, in the case of lampholme of Annie Peopple, has continued this method of treating wounds with very favorable results. In a late medical journal he cites a case of compound fracture of a leg, the limb being kept at rest by means of sand bags. In the absence of these dry earth was substituted, which had the effect of entirely dispelling the offensive odor of the wound, and their use was continued with the most happy results; the earth was changed every three days. Again he states that a man afflicted with scurvy which had resisted all other treatment was entirely cured by being buried up to the neck in soil for about twenty minutes.

The Lady's Friend for May.

The May number of this Magazine is a beautiful one, and breathing of the Spring. Its large, double Fashion Plate is as fresh and richly colored as a tulip bed, and we observe that this magazine is often one of the first to be read of its contemporaries in the fashion. Then there is a beautiful cottage scene, "The Return of the Swallows," and another appropriate engraving called "Gathering Snowdrops." The literary matter of this Magazine is always of a superior character. The stories of this month are both varied and absorbing. And there is an article by Mrs. Fanny R. Feulage, a Southern lady, giving her experience in the life of a Chick Sen, who has been the model Christian servant, that all householders will find, in view of the coming Christmas, particularly interesting. The ladies will be also pleased with the patterns for Spring costumes, and the varieties for the work-table. And the editorial, being written by a lady for ladies, are particularly attractive. Published by Deacon & Peterson, 218 Walnut Street, Philadelphia. Price \$2.50 a year (which also includes a large steel engraving). Four copies, \$4. Five copies (and one gratis), \$5. "The Lady's Friend" and "The Saturday Evening Post" (and one engraving), \$4.00. Sample copies 15 cents.

What "Port Wine" is Made of.

Some parties in Stonington, Ct., have recently been prosecuted for selling adulterated wine and liquor. Samples of their "stuff" were submitted to Prof. Stillman, of Yale College, the State chemist, and the following is the result of analysis of what was sold for port wine: The liquor was turbid, heavily laden with sugar or molasses and some coloring matter; containing 21 per cent. of alcohol; over 10 per cent. of sugar or molasses; about 100 parts of sulphuric acid to the gallon; part of it free, as oil of vitrol, and part combined in alum; oxide of lead, or litharge, in poisonous quantities, of about 45 grains to the gallon. The alcohol had an acid taste, and the coloring matter an offensive odor. The liquor was stronger of lead than most waters poisoned by it.

On the Ball.

On Monday, April 17, a large rock, loosened, probably by the rain, rolled on the railroad track at Rowland's, and so obstructed the passage of the train that the passenger east did not reach Lackawanna until evening.
On the same day a rock weighing about three tons rolled on the main track near Carr's Rock, and but for the heroic conduct of two small boys, who signalled the engineer on the approach of the train, and told him of the danger, the Cincinnati Express would have been unquestionably hurled from the track, and many lives lost.

Montrose Academy.

The Summer Term will begin Monday, May 5, 1870, and continue 14 weeks. It is the aim to merit patronage by a thorough course of instruction in all the branches pursued. Besides the Common English Branches, the Higher Mathematics, the Sciences, and the Classics will be carefully taught.
Those desiring to pursue a Classical Course with a view of entering College will find this an excellent opportunity. Scholars will be fitted for any course in Normal Schools or Seminary branches. Latin—Virgil, Caesar, Roman History. Greek—Beginning. Mathematics—Higher Algebra, Geometry, Natural Philosophy. The scientific classes will be formed to meet the wants of all. Special attention will be given to Primary pupils, and the school so organized as to meet the wants of every grade.
Tuition from \$3 to \$5, depending upon the advancement of the scholar. Thorough and efficient Assistants have been procured. Board—Reasonable rates. A. H. BERNIS, Principal.
Montrose, April 19, 1870—3v.

State Militia.

The House at Harrisburg passed a bill directing "that each and every person not now, or who shall not hereafter become member of some military organization, shall pay to the collector of taxes in the city, county, borough or township in which he shall reside, the sum of fifty cents annually, the payment of which shall exempt him from liability to perform military service except under orders to prevent or repel invasion, or to suppress insurrection, tumult or riot," the proceeds to be devoted to sustaining volunteer military organizations, and "in any city in which there shall be no volunteer military organization the money received into the brigade fund, as aforesaid, shall be paid by the County Treasurer to said county at the close of each year to the School Boards of the county, to be used for the purpose of making proportion to the number of taxable inhabitants in said districts, to be used for school purposes."

The sick room should be quiet, clean and well aired.

Label all medicines. Poisons should be placed above the reach of children. A good nurse has a steady hand, a clear head and a kind heart; she is not talkative or nervous. Avoid arguments with the sick; do not tease them with business; do not sit or lean on the bed. If friends call on the patient their stay should be very short. The practice of visiting the sick on Sunday is a very poor one; that often thus becomes the most fatiguing to all of them. As a general thing do not go into the sick room unless you go to help and not to talk. Do not deceive the sick; do not keep suspicion from them. To persuade the dying that they will recover is treason against the interest of the soul. It soothes and cools a feverish patient to wash him with warm water in which salutaris or soda has been dissolved.

Some Where the Woodbine Twine.

Four weeks ago Coo Coleman, Radical Postmaster at Nichols, one of the exuberantly loyal kind, who granted Andy Johnson ejected from office so badly that he circulated a petition in favor of his impeachment, left home ostensibly for the purpose of visiting New York to buy goods, since which he has not been heard of. His wife and children of his whereabouts, but the disappearance of a certain woman of the neighborhood at about the same time, furnishes good ground for the belief that the twine have gone "where the woodbine twine." We do not hear he is traveling at the expense of the Government; but if he is not, his case will be long with a cloud of new exceptions among the so-called "radical" officers, who have the chance for promotion to a Governorship of a western territory will not be enhanced by his omission of this prominent item in the Radical programme. We understand that being met recently in Kansas, by a Nichols man, he denied his identity and declared his name was Smith; having shared off the whiskey and otherwise disgusted himself. His elopement is a serious affair to the innocent wife and children whom he has deserted; while the Republican party loses thereby one of its "main stars" and popular leaders. —Oregon Gazette.

Desperate Encounter.

The following account of a recent fight, effected by Policeman Timothy Robertson, of this village, has been reported for the Gazette:
A desperate encounter occurred between Mr. Timothy Robertson, a Police Officer, of this village, and D. S. Weller, a railroad man, who had sold his time, amounting over \$100, at different places along the line of the Erie Railroad, the last being to Mr. George F. Fitcher, of this village. Weller, after having bought Weller's time, learning the above facts, procured a warrant for his arrest and placed it in the hands of Officer Robertson, who found and arrested the accused at Hornellsville, and started eastward with his prisoner on the Cincinnati Express, which leaves that place about 8 o'clock A. M. Weller, however, not exactly relishing the idea of making a grand entrance into Oswego under an official escort, watched his opportunity, and leaped from the cars; but no sooner had Weller struck the ground than Robertson was at his heels, and a more exciting chase than this was never witnessed in the Company's Yard at Hornellsville. Away they went, over, under and on top of cars, tracks, and, perhaps, over, under and across everything that happened to be in their way; but nothing daunted, Robertson was bound not to lose his man, and after a severe and exciting race, Weller was overhauled, and a desperate hand to hand encounter took place, and a well directed blow by Officer Robertson, with the bit of his revolver, sent Weller sprawling, and he was lodged, one last week, in the county jail at this place as quiet as a lamb. This is undoubtedly one of the most daring official exploits ever enacted by an Oswego Officer, and can well be placed in comparison with the heroic act of the lamented Willie, although with less sacrifice of life. Weller, a vulgar, brutal, and cruel man, with a large, pug-nug, manly countenance. Mr. Robertson, in the night, pursued, caught, and "caged" his man.—Oswego Gazette.

An Attempted Suicide.

Friday evening between 7 and 8 o'clock, a young man of gentlemanly appearance, who is a stranger here, went to the store of C. J. Brownell and inquired for two ounces of laudanum which upon receiving he endeavored to drink, but was prevented by the clerk, young Mosher, from so doing, who took the dose away from him. He immediately proceeded to the store of Maybury & Co., where he inquired for the same quantity of laudanum and which was given him, when he inquired for the water tank and went to the same and was pouring out the dose into a glass preparatory to taking it, when he was prevented by the clerk, young Mosher, from so doing, who took the dose away from him. THE MONTROSE FIRE DEPARTMENT.

To Wm. A. Croswell, and other friends of the Fire Department, who contributed to the "very handsome" of the building of the Hall of the Engine Company No. 1 and 2.
GENTLEMEN—Allow me to tender the thanks of the Fire Department to you for this timely and especially gratifying gift. To receive this liberal contribution, "just after a fire," as we can have no better evidence that our labors are appreciated, and that we are not forgotten in vain. Answered you will find a statement of money received on subscription, and how the same has been disposed of. The officers of the Department have made such division of the money as we believed would meet the wishes of the subscribers, and give satisfaction to each Company. By making this equal division, it enables No. 1 to liquidate their indebtedness; but No. 2 will still be in debt about one hundred dollars. In making an estimate of the aid required to furnish No. 2 Hall, it was supposed their old pump would answer, but on examination it was found that a new one was required. This, with the expense of painting and papering the hall between the rooms, laid a dereliction of about one hundred dollars. I am happy to be able to say to the good people of Montrose, that we have now, for the first time in the history of the Fire Department, good Halls to hold our meetings in. We shall be pleased to see any of our friends at the meetings, and those companies and those who have visited our rooms, would be much obliged to behold how great a change a few months hath wrought in the old Hall.
Hoping it will be long before our services are again required to protect your property from the devouring element, I remain, truly yours, —E. C. FORDHAM, C. E.
