Educational.

the county; not in every seperate locality, nor even in every district, but throughout the county as a whole. The school sented to those who faithfully pass the out the county as a whole. The school sented to those who faithfully pass the houses built during the year, and all under contract, are far better than the old ones ever were. Slab benches and desks fastened along the walls, alone, are things of the past. Patent seats have not been placed in the common school room to any pla placed in the common school room to any extent, but neat and commodious desks and seats, usually accommodating two pupils alone, are put in nearly all the new houses. In several houses ventilators have been placed in the top of the room, Board to visit each school during but the greater number of houses are venlilated by lowering the upper part of the window. Fewer horses form a part correcting faults, &c., reporting to the of the road fence of some farm, while in many instances from \(\frac{1}{2}\) acre of good land is secured for the school.

Directors are giving more attention to the care of houses and grounds; requiring teachers to see that no harm is done; o to report to the Board, that the of-

Stories in height, warmed by furnaces, has been completed at Susquehann Destate Department for the forbearance. maps, charts, pictures, &c., in which a good-graded school with six departments and seven teachers has been sustained. The Graded school building, at Montrose, the County Seat, has been thoroughly repaired, to which many resort from surrounding dstricts for advantages superior to those provided in the small schools. In several districts new houses have been built in places of all the old ones; and other directors are steadily building one or more houses each season, that a good house may be in every sub-district. The number of teachers who are devoted to their work and look upon it as a profession, is increasing, and a higher grade of scholarship is considered necessary to a position as teacher. Over thirty of our teachers and advanced students have been connected with the Mansfield Normal School during the past year, five of whom were members of the Braduating class

In several districts the wages of teachers are graded by grade of certificate and success in teaching, and in one district the grade must reach a good average before employment will be given in the schools.

Work of County Superintendent .- The duties of the County Superintendent are many indeed, and accompanied with much severe effort if properly accomplished. In the year, forty-two public examina-tions have been held, and eight private, in accordance with the provisions of the

Number of applicants—males, ninety-three: females, three hundred and fiftyseven : of these one hundred and fifty-five had never taught, and sixteen did not receive certificates.

Three hundred school visits were made:

a number of schools were closed for a day or more at the times of visits at other schools around them, thus making the number less than it otherwise would have been: heavy snow-drifts and bad roads caused an additional bindrance: average time of each visit—one hour and

existing faults. No word has been sent to Districts of the time when schools would be visited, that both teacher and scholars might be found in their accustomed order and work; because of this fewer Districts of the time when present than if arrangerectors have been present than if arrange ments were made beforehand, yet a num-ber have attended; in two Districts, viz.,

A County Institute, of five days, was

It is not possible for the County Superintendent to have the needful supervision of each individual school, however

diligent he may be in his work.

3d. Help and encouragement on the part of Directors and citizens to the fender may be required to make good all teachers, that each one may be present and receive the benefits of the county and

Nany thanks are due from me to the pot, and furnished with modern seats, shown me, and the readiness with which answers have been returned to requests. Also to the people and directors of the county for the cordiality with which I have been received, and to the teachers for many tokens of confidence. W. C. TILDEN, County Sup't

Miscellancous.

How to Dress Well.

It is the duty of all, young and old, to make their person, as far as practicable, agreeable to those with whom they are thrown in contact. By this, we mean, they should not offend by singularity or slovenliness. If you are a man, let no body tell by your appearance what trade you follow.-You dress your person, not your business. Be careful, ladies, to mould the fashion of the times to your own personal peculiarities. Fashion is to be ser vant, not your master; therefore, never dress in the extreme of fashion; only adopt it as far as is consistent with your face and figure. That which will not suit one person becomes another; and for all to follow the same model is obviously absurd. The exercise of a little judgment on your part will enable you to adopt as much of the prevailing style in your dress to show Guttenberg, Rosenbaum & Co's. that you are acquainted with the fashion without sacrificing your personal appear ance to a scrupulous conformity to its laws. The best possible impression you can make, by your dress is to make no impression at all, but so harmonize its material and shape with your own figure that it becomes part of you: and people, without recollecting how you were clothed, will remember that you looked well

and were dressed becomingly. It may be said that attention to dress is dangerous. We think not. Extravagance is dangersous; but extravagantly-dressed people are seldom dressed well. We meet multitudes of people dressed in every imaginable style. Here is one in the best of broad-cloth, and the costliest of jewelry, but who looks exceedingthirty-six minutes.

Two hundred and nineten short addresses were made concerning the work and proper use of the school; many suggestions to teacher and scholars, with anocasional direct reproof and correction of existing faults. No word has been sent to
