Our Canvass.

By a schedule of meetings appointed by the Executive Committee of Luzerne Co., which we publish elsewhere, it will be seen that the time of our candidate for Congress is to be occupied in that locality, which of course was expected, as the people of that vicinity have not had the opportunity generally of seeing and hearing the man who is to represent them in the 42d Congress that we have in this county.

Our opponents have selected L.D. Shoemaker, of Luzerne, for Congress, wholly because he has money, as in their extremist they acknowledge its corrupting influence to be their only hope. Like a wealthy criminal arraigned before a court of justice, who expects to retain that life which his conduct has forfeited, by the corrupting influence of his beated money bags, so the Radical leaders have a faint hope of retaining their hold upon this government by fraud and the corrupt use of money.

The issue to-day is fairly before the people—money, which is expected to cover their multitude of sins; corruption of the deepest dye, negro equality, taxation, and robbery, against pure Democratic principles upon which our government was founded. Does it need any longer speeches to tell the Democracy of this country their duty? We believe not. We have faith in the right, and that it must prevail, and that such a voice will be heard in October next at the ballot box from the true and tried Democracy of Susquehanna, as has not been heard in many a year.

The Republicans of Luzerne have nominated Shoemaker for Congress. He has got the nomination on the strength of a promise that he will put money in the state, if he will put the proper interest. We think a little knowledge of what is done there will serve to awaken a deeper interest in our own society.

The Republican conference for this assembly district, met at Springville on Thursday last, and very inharmoniously separated without organizing, the conferees of Susquehanna refusing to admit Wyoming upon an equal representation. That immortal "Resolution" which the Radical convention passed in Montrose at their last session, it seems, was not passed upon justice but was another "Ring" of Radical inconsistency, which requires Bradford to do what they refuse to grant to Wyoming.

What a Democratic Mechanic said to Radical Editors. The Radical candidates for Congress in the Indianapolis district in Indiana, a professional politician and a man of wealth, and one of those fellows who, although covetive of ideas, seem to be crowded with a diarrhoea of words, having challenged the Democratic nominee, Thomas Cotterell, a practical and working mechanic, to discuss political issues with him on the stump, received from Cotterell the following modest reply: "You challenge me to a contest of brains and tongues, and yourself six times and places. That is not fair nor brave either. I will not go into that kind of fight with you. You have enjoyed all the advantages of wealth, leisure, and education, and have passed your life in training for politics. I have passed my life in the pursuits of a mechanic. The people knew this when I was nominated. I did not ask them for the nomination; it was not even present when it was made. I identified with the voters, and fully sympathizing in their reasonable demands, had much to do with my unanimous nomination. I think it was not expected that I would run from my shop and business house and mount the stump. I think it was only expected that I would identify myself with the voters, and fully sympathizing in their reasonable demands, had much to do with my unanimous nomination. I think it was not expected that I would run from my shop and business house and mount the stump.
