BAGGAGE CHECKED THEOUGH. All those in want of false Teeth or other dental work should call at the office of the subscribers, who are prepared to do all kinds of work in their line on short bottlee. Particular affection paid to making full and partial setts of teeth on gold, silver, or aluminum plate; also on Weston's cast composition; the two latter preferable to any of the heaper subsiances now used for dental plates. Teeth of young persons regulated, and made to grow in actual stage.

The advantage of having work done by permanently located and oraponable parties, must be apparent to all:

All work warmined. Please call and examine specimens of plate work at our office, over Boyd & Co's hardware store.
