It is \$20,000 less than the appro priation for the current year, and it is confidently anticipated that hereafter each succeeding estimate for annual expenses will be much more largely decreased.

I have personally visited, inspected and examined quite a number of these schools since the adjournment of the last Legislature; and I do not hesitate to pronounce most of them superior, in all respects, to any other institution of a similar character in the country. The super-vision of the Superintendent and the male and female inspectars has been exceedingly faithful and effective; and those having the schools in charge, with but few exceptions, have displayed a devotion to their duties, and to the interests of the children, as unexceptionable as if dictated by the purest parental affection, The sanitary condition of these children is one of the most remarkable fea-
