| 9 p. m. | 48 | | cloudy. |

### Donation.

The friends of Rev. W. C. Tilden are requested to meet at the house of N. Granger, in Rush, on Thursday Jan 26, for the purpose of making him a Donation visit. All are invited. An oyster supper may be expected.

By order of Committee.

Rush, Jan. 18, 1871.

### Donation.

The friends of Rev. H. Boughton will make him a donation visit at his residence in Brooklyn, Pa., on Wednesday, February 1st, 1871.

By order of Committee.

Brooklyn, Jan. 9 1871.

### Fatal Accident.

A little girl, about six years old, daughter of Wallace Bullard, who lives about four miles from Montrose, on the New Milford road, was kicked in the head by a colt on Friday last, injuring her so that she died in about forty-eight hours. The colt was loose in the yard, and ran up to the child, then wheeled and kicked her. Children should never enter a yard or field where colts or young horses are at liberty.—*Republican*

### Teachers' Institutes.

An Institute will be held at City School House, Clifford, on Friday and Saturday, Jan. 20th and 21st, 1871. Each Institute to Commence at 10 o'clock a. m. of Friday and closing at 1 o'clock p. m., of Saturday.

A short lecture on Educational interests Friday evening, and class exercises or discussions.

teachers in adjoining towns will be expected for the whole session.

W. C. TILDEN, Co. Supt.

Forest Lake Centre, Dec., 25th, 1870.—td.

### Court Proceedings.

FIRST WEEK.—Hon. F. B. Streeter, presiding, and R. T. Ashley and A. Baldwin, associates.

In the matter of a charter for the Cemetery of South Harford, Court refuse to grant charter.

Commonwealth vs. Geo. Casey; fornication and bastardy; settled by leave of Court on payment of costs.

Com vs. John Green; selling liquor without license. Court allow a nolle prosequi to be entered, on payment of costs.

Com vs Edson Scott and Elmer Scott; larceny; verdict, not guilty.

Com vs. Michael Gowing; larceny of a horse; Horace Brewster, prosecutor; Jury fail to agree and are discharged, standing nine for conviction and three for acquital. Court direct nolle prosequi to be entered, and the prisoner discharged.

Com. vs. O. E. Pickett; forgery; verdict, not guilty.

Com vs. Jacob Conklin; larceny; verdict, not guilty.

Com. vs. N. P. Loomis; assault and battery a verdict, not guilty; prosecutor pay costs of prosecution, and defendant to pay his own costs.

### Business Matters.

—Try what one dollar will buy. See advertisement, Lyons & Drake.

—The County Commissioners give notice of the place, dates and days to hear appeals from the late assessment

—J. M. Tillman gives notice of his appointment of Administrator in the estate of Peter M. Tillman, Susquehanna Depot.

—Nicholas Shoemaker announces fresh ground Cayuga plaster for sale.

—R. L. Sutphin, who has been engaged in the mercantile business, at Summersville, for over forty years, having sold out, proposes to sell a large stock of goods for cost. Read his advertisement in another column.

### "Annual Reception."

The members of Rough and Ready Fire Co. No. 1, hereby tender an invitation to the citizens and friends of the Company to attend a reception at their rooms in Fireman's Hall, on Friday evening, Jan. 20th, between the hours of 7 and 10 o'clock, P. M.

General Committee of Reception:—H. H. Jessup, D. McCracken, S. G. Pache, B. L. Baldwin, D. Sayre, F. Wonder, Geo. Zerfass A. B. Burns.

### Auburn Items.

The Mineral Springs on the Riley Creek about one mile South of the old John Riley farm, in Auburn, this county, is causing some little excitement at present.

All trace of the Spring for the last 20 years was lost, until very recently. It has just been cleared and a barrel sunk in it, so that the water can be easily obtained. Many people are visiting the Spring, and bringing away jugs and bottles of water to test its reported wonderful curative effects.

In clearing the Spring there was an old barrel taken out of it, supposed to have been put there many years ago.

Now the question is, who put the barrel in the Spring first, or who first discovered it? Some of the many readers of your paper may give some information about it.

The wagon shop, together with lumber and tools, belonging to G. N. Warner, in Auburn, was totally destroyed by fire on the night of the 12th inst. Nothing is known of the cause of the fire yet so far as heard from. Reported to be insured for $700.

### Northern Pacific Railroad Bonds.

Among the best securities for investment at the present day, undoubtedly, first mortgage railway bonds hold a high position; and those to which we call public attention in this article are par excellence in this line.

Their issue is made upon such a solid basis as to leave no question as to their safety, and they yield large rates of interest.

The national importance of the Northern Pacific Railroad was believed to be so great that Congress granted the most stupendous land subsidy to the Company, to aid in its construction, of which we have any knowledge; which, with judicious management, will in itself be fully equivalent to a direct guaranty of the payment of the bonds themselves. This land grant, in area, is an empire in itself, amounting to 22,000 acres per mile, and an aggregate of over 60,000,000 (sixty millions) of acres, and is of more varied and valuable physical character than exists elsewhere in the known world.

The testimony of scientific officers of the United States army who have surveyed and reported upon all portions of this belt, set forth invariably its richness and salubrity of climate, its comparative exemption from snow, its capacity supporting a dense population, in positive and uniform accord. There is no section in the world where the certainty of larger crops of wheat, barley, oats, potatoes, and other roots is assured; and west of the Rocky Mountains, on this belt, apples, pears, plums, cherries, and other fruits are a bundantly produced.

Our readers must bear in mind the fact that the snow-falls on the belt traversed by this Road are extremely light, rarely exceeding two feet in depth in the highest altitudes along the line, and much lighter than it is in the Middle and New England States. This fact is fully attested by man and beast. The pasturage of this belt is a marvel to travellers. The domestic cattle of Montana, Idaho, Dakota and Washington Territories range out all winter, and are fat in March. Mexican horses, brought here by Indians, are turned out to shift for themselves on the range from latitude 45 to 53, and come in fat and strong in the spring. Portions of this Road will pass through the winter-homes of buffalo, elk, deer and antelope, which are always fat in spring. Trains of pack-mules thrive through the winter without forage while subjected to considerable service.

There is no question as to the mildness of the climate, the richness of the soil, and the feasibility of operating daily trains over this Road the year through without interruption by snow.

Besides the agricultural resources of this belt, veins of bituminous coal of excellent quality and inexhaustible quantities cross this route in various places. Iron and other ores are also found in abundance; and timber of the most valuable species and of all varieties, in quantities beyond computation, abound along the belt of country through which this great North Pacific Road will pass.

Such, then, is general character of the climate and productiveness of the land, and the certain assurance of operating the Road at all seasons. The Trustees are required to keep and have at all times under their control, as security for the first mortgage bondholders, at least five hundred acres of average land to every thousand dollars of outstanding bonds, besides the Railroad itself, with its equipments and franchises.

Can there be any better security than this? We think not. It is equal to a bond and mortgage on improved city property.

The value o this empire of land will in part be measured by the revenue derived from a completed Road, and the inducements to settle upon lands.

The way traffic and travel will depend upon the soil, climate, timber, fuel, minerals and water-power contiguous to it, as will also the settlement of the country; and we know that no road ever projected had all these features in such promise and certainty as the North Pacific.

The through traffic and travel has equal claims upon commerce over other routes, as the Road will be the shortest of our trans-continental railways, of easiest grade, and cheapest; which is sufficient of itself to control the great bulk of the travel and business. It shortens the route between Lake Superior and Puget Sound, as compared with the distance between Chicago and San Francisco, 500 miles, and makes a great saving in expense. Owing to easier grades, it will be the shortest, fastest and cheapest route of commerce and travel between Asia and Europe, bringing China and Japan and Europe 1,667 miles nearer each other than by San Francisco, which is sufficient to control this traffic. On the whole, never was an enterprise entered upon which had equal prospects in itself; and when we add that great National bankers and financiers, Jay Cook & Co., mainly through whose efforts our country was supplied with the sinews of War during our late struggle, have control of its finances and a potent voice in its management, we may well be inspired with confidence that everyting in connection with this enterprise will be managed with practical economy, safety and integrity

We heartily commend these securities to our readers.—*New York Independent.*

### COURTS OF APPEAL.

The Commissioners of Susquehanna County have fixed upon the following days, dates, and places, respectively, for hearing appeals from the assessments for the year 1871:

Friendsville and Choconut, at the house of Lawrence McInerny, in Choconut, on Tuesday Feb. 7th, 1871.

## Special Notices.

☞ **Spread the Truth.**—Some medical men insists that it is undignified to advertise a remedy, however valuable it may be. Queer reasoning this. It is like saying that an article which the world needs should be hid in a corner—that benefits and blessings may be too widely diffused—that the means of protecting and restoring health should be a close monopoly, and not accessible to all. The argument is bad. It is worse than that; it is inhuman. Suppose Hostetter's Stomach Bitters—an absolute specific for dyspepsia, biliousness and nervous debility—had never been known beyond the repertoire of the faculty, what would have been the consequence? Instead of curing and invigorating millions, the good effects of the preparation would have been confined to a comparative few. There is the highest authority for saying that light should not be hid under a bushel: that whatever is excellent should be placed as a city on a hill, where all men can take cognizance of it. It is upon this principle that the Bitters have been advertised and continue to be advertised in every newspaper of any prominence in the western hemisphere, and that the spontaneous testimonials in its favor have been translated into all written languages. Thousands enjoy perfect health to-day who would be languishing on beds of sickness if the newspapers had not spread the truth with regard to this unequaled invigorant and corrective far and wide. Suppose pyoff has been reaped from its publicity. Is that any argument against it? If the public health has been protected; if lives have been saved; if the feeble have been strengthened and the sick restored, great good has been accomplished; and who so mean as to grudge to exertions thus directed their fair reward?—Jan.

☞ **Those who are sick, or** Afflicted with any chronic difficulty, should without delay write for Dr. Hamilton's New Treatise sent free to any address,

R. HAMILTON, M. D.,

THOS. PATTON,
J. DOW,
M. HOGAN,
Silver Lake, Jan. 11, 1871. Supervisors.

FINANCIAL

New 7-30 Gold Loan

OF THE

Northern Pacific

RAILROAD COMP'Y,

Secured by First Mortgage on Railroad and Land Grant.

SAFE! PROFITABLE! PERMANENT!

Jay Cooke & Co.

Offer for sale at par and accrued interest the First Mortgage Land Grant Gold Bonds of the Northern Pacific Railroad Company. They are free from United States Tax, and are issued of the following denominations: Coupons $100, $500, and $1,000; Registered $100, $1,000, $5,000 and $10,000.

With the same confidence with which we commended Government bonds to Capitalists and People, we now, after the fullest investigation, recommend these Northern Pacific Railroad bonds to our friends and the general public.

GOLD PAYMENT.—Both principal and interest are payable in American gold coin, at the office of Jay Cooke & Co., New York City—the principle at the end of 30 years, and the interest at the rate of seven and three-tenths per cent. per annum) half-yearly, first of January and July.

PERFECT SAFETY.—The bonds we are now selling, are secured by a first and only mortgage on all the property and rights of the Northern Pacific Railroad Company, which will embrace on the completion of the work:

1. Over Two Thousand Miles of Road, with rolling stock, buildings, and all other equipments.

2. Over Twenty-two Thousand acres of Land to every mile of finished road. This land, agricultural timbered and mineral, amount ing in all to more than Fifty Million Acres, consists of alternate sections, reaching twenty to forty miles on each side of the track, and extending in a broad fertile belt from Wisconsin through the richest portions of Minnesota, Dakota, Montana, Idaho, Oregon, and Washington to Puget Sound.

While the Government does not directly guarantee the bonds of the Road, it thus amply provides for their full and prompt payment by an unreserved grant of land, the most valuable ever conferred upon a great national improvement.

THE MORTGAGE.—The Trustees under the mortgage are Messrs Jay Cooke of Philadelphia, and J. Edgar Thompson, President of the Pennsylvania Central Railroad Company. They will directly and permanently represent the interests of the First Mortgage bond holders, and are required to see that the proceeds of land sales are used in purchasing and cancelling the bonds of the Company if they can be brought before maturity at not more than 10 per cent. premium, otherwise the Trustees are to invest the proceeds of land sales in United States Bonds or Real Estate Mortgages for the further security of Northern Pacific bondholders. Also, that they have at all times in their control, as security, at least 500 acres of average land to every $1,000 of outstanding first mortgage bonds, besides the railroad itself and all its equipments and franchises.

PROFITABLENESS.—Of course nothing can be safer than the bonds of the United States, but as the Government is no longer a borrower, and as the National present work is not that of preserving its existence, but that of DEVELOPING A CONTINENT, we remind those who desire to increase their income and obtain a more permanent investment, while still having a perfectly reliable security, that:

United States 5-20's at their average premium yield the present purchaser less than 5½ per cent. gold interest. Should they be redeemed in five years, and specie payments be resumed, they would really pay only 4¾ per cent., or if in three years, only 3½ per cent. as the present premium would meanwhile be sunk.

Northern Pacific 7-30's selling at par in currency yield the investor 7 3-10 per cent. gold interest absolutely for thirty years, free from United States tax. $1.00 currency invested now in United States 5-20's will yield per year in gold, say $62.00. $1.000 currency invested now in Northern Pacific 7-30's will yield per year in gold, $80.30. Here is a difference in annual income of nearly one third, besides a difference of 7 to 10 per cent. in principle, when both classes of bonds are redeemed.

THE ROAD NOW BUILDING.—Work was begun in July last on the eastern portion of the line, and the money provided, by the sale to stockholders of some six millions of the Company's bonds, to build and equip the road from Lake Superior across Minnesota to the Red River of the North—233 miles. The grading on this division is now well advanced, the track is being rapidly laid: several thousand men are at work on the line, and about the first of August next this important section of the road will be in full operation. In the meantime orders have been sent to the Pacific coast for the commencement of the work on the western end in early spring, and thereafter the work will be pushed, both eastward and westward, with as much speed as may be consistent with solidity and wise economy.

RECEIVABLE FOR LANDS.—These bonds will be at all times, before maturity, receivable at 110 in payment for the Company's lands, at their lowest cash price.

BONDS EXCHANGEABLE.—The registered bonds can be exchanged at any time for coupons, the coupons for registered, and both these can be exchanged for others, payable, principal and interest, at any of the principle financial centres of Europe, in the coin of the various European countries.

HOW TO GET THEM.—Your nearest Bank or Banker will supply these bonds in any desired amount, and of any needed denominations. Persons wishing to exchange stocks or other bonds for these, can do so with any of our agents who will allow the highest current price for all marketable securities.

Those living in localities remote from banks, may send money, or other bonds, directly to us by express, and we will send back Northern Pacific bonds at our own risk, and without cost to the investor. For further information, pamphlets, maps, etc., call on or address the undersigned, or any of the Banks or Bankers employed to sell this loan.

CONGRESS WATER,

at TURRELL'S.

ABEL TURRELL,

Has just returned from New York with a large addition to his usual stock of choice goods.

Montrose, Nov. 24, 1869.

Dr. C. F. BROWN'S

YOUNG AMERICAN

LINIMENT.

In offering this Liniment to the public, as we do in full confidence, that it must supercede all others now in use, as an internal remedy, for the cure of all diseases in the reach of that class of medicines, we can safely assert, without the least fear of contradiction, that it stands unrivaled in the list of medical compounds externally applied for the cure of disease, Feeling therefore that it is unnecessary to puff a remedy so eminently wonderful in its effects, so mysteriously infallible in its powers of relief, causing the deaf to hear, the blind to see, the nervous, drawn and crippled rheumatic to walk erect and rejoice again in the power and vigor of manhood, this preparation is offered to the public on its own merits, and claims no volcanic origin or essential oils of the Arabian deserts; but on the contrary is what its imposers, and is a rare combination of the powers of North American products.

NEW YORK, Dec. 14, 1870.

This notice is to inform all dealers in proprietary medicines, that we have established a Depot in Susquehanna county at Montrose, Pa., for the sale of Dr. C. F. Brown's Young American Liniment, and that Mr. A. BALDWIN is our agent for that purpose.

WARD, SOUTHERLAND & CO.,
139 William Street, New York

Agencies will soon be established at central places in every township, and published in the list below. I am ready to furnish it at wholesale prices to agents. Posters and circulars sent free upon application to the subscriber.
