THE SALE OF PATENT MEDICINES. Has in no other country reached the enormous proportions it has assumed in the United States. This is owing to the vast extent of territory and the comparative thinness of population, which creates the necessity for thinness of population, which creates the necessity for some reliable remedy, that can be applied at once in the absence of professional medical aid.

MISHIERN'S HERB BITTERS has for over ten years been regarded as

ME GREAT HOUSEHOLD REMEDY, and is relied on in every emergency by thousands of families in every section of the country. It is not a fancy drink, composed of bad whisty, flavored with anomatics, to tickie the palate and minister to a deproved appetite, but is a carefully and scientifically prepared compounded extract of Roots. Herbe and Barks, possessing great medical virtue. Its rare combination presents the most effectual remedy yet discovered for all diseases of the siomach, Liver, Kidneys and Bowels. Sold everywhere at One Bollar per Bottle.

THE OCNFESSIONS OF AN INVALID.

DUBLISHED as a warning and for the berefit o pound men and others, who suffer from Nervous Debility, &c., supplying the Means of Selectine.
Written by one who cared himself, and sent free on receiving a post-paid directed envelope.
Address, NATHAN MAYFAIR, Brooklyn, N. Y. Brooklyn, May 17, 1871.

A Few Words to the Ladies. Many laddes, particularly mothers narring, complaining of a tired, listless feeling, or complete exhaustion, osarising in the merning. On the wife and mother devolves the responsibility of regulating the duties of the household. Her cares are numerous, and the mental as well as the physical powers are frequently called into requisition. She often finds her slightest occupation a weary task and existence a burden, while at the same time she has no regular disease. Hostetter's Stomach Briters, if resorted to at this period, will prove an un-failing remedy for this aumoring lassitude. The effects of this potent agent are soon seen in the rosy check and elastic step of the head of the Limity, as with restored health and renewed spirits she takes her accordance place in the family circle. If this friend in need he regplace in the family circle. If this friend in need be reg-ularly used, those depressing symptoms will never be complained of, and not only would lassifude not be ex-perienced, but many diseases following its advant be avoided. As a medical neent it has no equal, while its pleasing flavor and benlithful effects have made it a gen-eral favorite. It is free from all properties calculated to impair the system, and its operations are at once mild, soothing and efficient. A'l who have used the Bitters attest its virtues and commend it to use.

WILBUR'S EUREKA MOWER, DIRECT DRAFT.

MANUFACTURED by Wilbur's Eureka Mower and Reaper Manufacturing Company, Pough-keepsic, N. Y. Description, The Eureka Mower has nothing in common with other machines, except the use of the ordinary cutting appa

machines, except the use of the ordinary cutting apparatus.

The wheels are large and set directly back of the ends of the cutter-bar, which is consequently directly in front of the machine.

The cutter bar is either Four Five or Six Feet long, can be set to cut any required beight, and is raised by the driver to pass obstructions with perfect cases.

The machine has no bevel gearing, span rear being need throughout. It has all the advantage of a jointed bar without its objectionable features, and readily adapts lised to the uneavenness of the greatedling the caw's wardly arranged side cut machines, and we are well aware that its growing popularity has excited much opposition. aware that its growing popularity has excited much opposition.

We therefore ask that the farmer of the country will guard against any unfavorable prejudices from the statements of interested parties, judging, only of the merits of the machine frour personal experience in its use.

The bar being in front, obstacles are more readily seen and avoided than when the bar is at one side.

The pitman works at right angles with the knife, consequently there is not the jar which is roompicasant and objectionable in all machines where both are in the same line. It is slavary in the same relative position to the knife, and works equally well whatever the position of the cutter-bar.

The machine can be olled, obstacles can be removed from the guards, and the bar folded without the driver getting off.

It is readily thrown out of gear by hand or foot, and dily thrown out of gear by hand or foot, and backs out of gear.

There is absolutely no side draft. It rides very easy, and affords greater safety to the drives than any other machine.

The horses are placed far apart, with long neck-yoke and evener, and in use, the machine is driven like a side-hiii plow or a florse-rake, back and forth on the same side of the plece. One horse valke in the standing grass cutifuly beyond the cat, pressing it down in the opposite direction, from which the next cut will be made. The other walks in the cleared track, outside the standing grass. ing grass.

Nither horses nor machine go on the cut grass, which is left nearly standing and will cure more rapigly and carenly than when a tedder is used after a side-d rai The EUREA is admirably adapted to moving side hills and lodged grass, as in both cases advantage can be taken of the most favorable side of the piece of lot on which to work the machine back and forth.

It is easily managed, and with a corresponding expenditure of power, cuts a much wider walls than any other in use.

The Enricka is so simple in construction that we are nabled to offer it at a price much below other standard nachines of the same capacity. OUR PRICES FOR THE COMING SEASON ARE FOR CASH. Grow, Glenwood Herrick Herrick Gibson
