Full and explicit directions accompany the medicines. Evidence of the most responsible and reliable character furnished on application, with hundreds of thousands of living winnesses, and upward of 80,000 unsolicited certificates and recommendatory letters, many of which are from the highest sources, including eminent Physicians, clergymen, Statemen, etc. The proprietor has never resorted to their publication in the newspapers; he does not do this from the fact that his stricles rank as Standard Preparations, and do not need to be propped up by certificates.
