WEDNESDAY, JANUARY 3, 1872.

THE STATE LEGISLATURE. The State Legislature convened at Harrisburg yesterday. The Senate is a tiestanding syxteen Democrats and sixteen Republicans, and one vacancy caused by the death of Senator Connell, which is to be filled by an election. Under a Radical raesolution made for their own benfit, like all their other legislation, they have estabblished the rule that the old Speaker shall organize the Senate. Such being the case, Speaker Wallace (Democrat,) will do so now, and the Senate will be in a"dead lock," and we shall see if "what was sauce for the goose will be sauce for the gander." If by such a means the people could be relieved from a repetition of such an amount of infamous legislation as has been the order of the day of late, we think the people of this commonwealth would let one session pass without any, for they can better afford to pay their salaries for doing nothing than to have them draw it, and also steek the tax-money to enrich corporations and themselves by "Private Bills" for public theft. The House stands 61 Republicans, 38 Democrass and 2 Independents.

The "Pusice Policy"

The following from the Easton Sentinel, so fully accords with our views, that we fully adopt it, and request our readers to read and ponder upon the truth which it contains; "The New York World, for months past, has been suggesting all sorts of schemes to divide or discourage the Democratic party, insinuating that pression of its principles, by the National Convention. Mob Law in Kanma.

There is a formidable negro insurrecion in Chicot county, Askansas, and of negroes riot through the country, others. It is as follows: driving the whites from their homes, reign of brutal terror; white familes escaping for their lives, and the few forced. to remain subjected to the most horrible outrage at the hands of the negroes. For many nights past, the negroes have been nightly marauding in bands, making property and life inscence, but now the negroes are fairly in arms, and determined to "clean out" the whites. A reign of terror exists in all the region named. All the negroes within a radius of fifty miles on both sides of the Mississippi have collected at Chicot, and defy the State as well as the national government, threatening to burn, kill and ravish, if an attempt is made to arrest or punish them. These facts are well substantiated, and yet the Radical authorities take no notice of the movements of the negroes. Gen eral Grant interferes on the slightest pretenso against white men; never, when negroes are concerned.

Our type have been so in the habit of recording "hundreds of millions" at Pittsburg, on the anniversary of Jackson's victory, January 8, 1872. Please of dollars in Radical defalcations, that by address your reply to Richard Vaux, Philmistake, they made us say last week, that adelphia. Very respectfully yours. "three hundred millions" of Democrats would speak at the ballot box in '72, instead of THREE MILLIONS, as we intended, but the coming year seems to be auspicious for good, and taking in the "round world," who knows but that our type may have foretold correctly after all.
