An Exciting Case, Bocal Intelligence.

Radness Notices.

We call attention to the following new advertisements this week --Coal for sale at the Express Office.

We would call attention to the Thanks

giving Sermon of Rev. L. B. Ford, of Montrosc n our first page, a request for the publication of which we published a short time since.

Lead Excitement.

A correspondent in the Binghamtor Times says: The excitement in Osburn Hollow, in regard to the lead mines is intense. Three sets of hands are now employed, and the work is being carried on night and day. Visitors from abroad are continually flocking to this vicinity. We learn that furnaces for smelting the ore are soon to be crected in this place.

Small Pox Cases. Howard Birdsall, who lives about five miles west of Binghamton, on the river road in the town of Vestal, as also three of his children have been taken sick with the small pox. One of the children has died, but all the other cases are expected to recover. No other cases' have occurred in the neighborhood, and no serious alarm is felt by persons living in the vicinity .-Binghamton Times.

The Liquor Law.

It may not be generally known that under the laws of this State, persons furnishing intoxiesting liquors are liable for any damages which may result to the person drinking them, yet such is the case. The following is the clause pertinent to the subject : "Any person furnishing intoxicating drinks to any other person in violation of any existing law, or of the provisions of this act, shall be held civilly responsible for any injury to person or property in conse-quence of such furnishing; and any one aggrieved may recover full damages against such person so furnishing, by action on the case, instituted in any court having jurisdiction of such form of action in this Commonwealth."
