# THE USURY QUESTION.

When we first adverted to the subject of the weekly pictorials, is to be deprecatthe enormity of its oppression, and theappalling condition of things in this county, brought about be an organized company of hioney "barber" shop proprietors, who employ several "subs" to do the "shaving." Having found that our allusions to the subjecticreated a greater fluttering than we lind any reason to suppose, we have taken considerable pains to inform ourself to some extent in the matter, and watind the facts truly startling. We find that the Shylocks are taking every advantage of the financial condition of the country to demand their pound of flesh. Every advantage is being taken of the indigent laboring class, upon whose shoulders fall the burdens of a ruinous system of taxation, and who have been purposely deceived by a miserable paper balloon financial policy which, in all its operations, tends to make the rich richer and the pay such usury as to make positive financial ruin a certainty. We ask the people time that some movement was made toward securing a remedy, and that remedy is STRINGENT Legislation, made so by forfoiture, fine and imprisonment.

Capital must be stripped of its tyranical nower and be forced to seek its legitimate sphere—that of merchandizing or manufacturing-when it cannot be satisfied with seven per cent.

...We propose to come down to plain unvarnished facts in this matter, for it is one of vital importance; hence we assert, and wethink we can substantiate it by facts, that there is not a town in this section of the country that contains so many of these "curb-stone brokers" as this boro. of Montrose according to the number of inhabitants, and not only the county but our own borough limits show the effect of it. The capital that should be circulating or employed in manufacturing is tied up for the sole and infamous purpose of exortion. We have one manufacturing establishment that is truly a living monument to the perseverance and enterprise of its proprietors, (The Savre Bro's) and a fountain from whose source a very large portion of the commercial prosperity of Montrose has drawn its life-blood. We cannot confine its benefits to Montrose,
