The Bird Law.

Now that pleasant weather seems to have set in to stay, and the birds are beginning to build and make the grove vocal with their morning concerts, it is as well to warn the boys and others who are so cruel as to rob bests and shoot the parent birds that the law has provided a severe penalty for such wanton cruelty. About one hundred persons sat down to four bountifully spread and handsomely ornamented tables, and after the invocation of a blessing by the Chaplain, the delicious viands of the Festival rap.dly disappeared. A dozen or more of tardy persons were obliged to wait for a second table. (Next time all must come

early.) At intervals after the repast, three analversary odes were sung to the lanes. Old Hun-Ired, St. Thomas, and America. The -singling was led by brother Seaman, and Miss Benjam presided at the organ. Past Grand Halsey made few remarks, and introduced Rev. A. D. Alexander of the Methodist church who made a most usique well-timed speech, which was received with rapturous and hearty applause. Past 3mnd Brewster then spoke briefly and concluded the public speaking. The balance of the evening was spent in social visiting and all presnt seemed to be happily and well entertained Odd Fellows have now come to regard this an-niversary as one of their permanent institutions.

The Professional Beggar.

It is a false view of charity which induces people to give of their means to professional steect beggars. In the first place in our country no necessity; exists for a resort to this means in order to obtain support. In every community provision is made for meeting the wants of the needy, and to that source all who are worthy of public aid do or should apply. To care for the poor and unfortunate is the humane and christian duty of every community, and in our country liberal provision is everywhere made to as merely to pledge the said Patrick D.
